Agricultural Statistics of India

1920-21

VOLUME I—BRITISH INDIA

Introductory Note

This annual volume is the thirty-seventh of the series started in 1886 with statistics for 1884-85. As in the previous issue, figures for twenty years are shown in Summary table No. 1, for ten years in the provincial tables, and for two years in the district tables. A map showing the departure from the normal of sown area and that of rainfall in 1920-21 and other charts as detailed in the last paragraph of this note have, as usual, been incorporated in the volume. An additional chart illustrating fluctuations in harvest prices of principal crops has for the first time been prepared and inserted in the present issue.

The statistics are compiled from annual returns furnished by local authorities, namely, the Government of Bengal, the Board of Revenue, Madras, the Government of Bombay, the Government of Assam, the Chief Commissioner, Coorg, the Revenue Commissioner, North-West Frontier Province, the Commissioner, Ajmer-Merwara, the Commissioner of Settlements and Land Records, Burma, the Director of Agriculture, Bihar and Orissa, the Directors of Land Records, Central Provinces, the Punjab, and the United Provinces, the Deputy Commissioner, Delhi, and the Political Agent in the Southern States of Central India, Manipur. Detailed information as to the sources from which the figures are collected in the different provinces is given in footnotes to the respective tables for each province. The statistics now consist of seven separate tables, namely, I—Area; II—Classification of area; III—Area under irrigation; IV—Area under crops; V—Live-stock, ploughs, and carts; VI—Land Revenue assessment; and VII—Harvest prices. The totals of the figures given in these tables are shown in a series of summary tables, to which a table on world crops is added. In addition to these, there are three appendices, namely, Appendix A dealing with the average yield per acre of principal crops; Appendix B giving the meaning of vernacular terms used in the volume; and Appendix C containing an alphabetical list of crops cultivated in India and their classification in Table IV. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Indian States* as far as they are reported.

The returns for each province relate to the following dates:—

Assam	Year ended 31st March
Central Provinces and Berar	„ 31st May
Bengal, Bihar and Orissa, United Provinces, Madras, Burma, Bombay and Sind, Punjab, North-West Frontier Province, Ajmer- Merwara, Delhi, Coorg, and Manipur	„ 30th June

Periods to which
provincial returns
relate

It should be noted here that statistics relating to areas irrigated (Table III) and areas under crops and specification of crops (Table IV) generally include both the *kharif* and the *rabi* crops, and relate to the year ended with the harvesting of the *rabi* or spring crops.

* In Appendix A (Volume I), however, figures relating to Mysore are shown separately.

Total area and
population of India

The total area of India is 1,800,000 square miles, or 1,151,765,000 acres, with a population of 319 millions according to the census of 1921. This may be divided as follows :—

	Acres	Population
(1) British Provinces (including Indian States within the political jurisdiction of Local Governments and Administrations)	755,841,000	271,558,000
(2) Indian States having direct political relations with the Government of India	314,726,000	43,386,000
(3) Certain specially administered territories in Burma (the South Shan States and Karenne) and in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	46,492,000	3,494,000
(4) British Baluchistan (including administered areas)	34,706,000	421,000
Total	1,151,765,000	318,859,000

No returns of agricultural statistics are prepared either for item (3) certain specially administered territories in Burma and in the North-West Frontier Province, or for item (4) British Baluchistan.

Table I
Total area

The total area of the British Provinces (item 1 above) dealt with in this volume—755,841,000 acres or 1,181,000 square miles—includes 134,615,000 acres, with a population of some 27 millions, belonging to Indian States, which are within the political jurisdiction of Local Governments and Administrations. These include in Burma the Môngmit State, the Hkamte Long State, the Upper Chindwin States, and the North Shan States; in Assam, Manipur and the Khasi and Jaintia Hill States; in Bengal, Cooch Bihar and Tripura; in Bihar and Orissa, the Tributary States of Orissa and Chota Nagpur; in the United Provinces, Rampur, Tehri, and Benares; in the Punjab, the Punjab Agency States, the Ambala Division States, and the Simla Hill States; in the North-West Frontier Province, the Phulera and Upper Tanawal States; in Sind, the Khairpur State; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States; in the Central Provinces, the Chhattisgarh States; and in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. Of these States, agricultural statistics are prepared for most of the States in the Punjab and the United Provinces, all the States in Madras and a few States in Bombay; but they are dealt with in Volume II along with the States having direct political relations with the Government of India (item 2).

Thus, by deducting 134,615,000 acres belonging to Indian States from the total area of 755,841,000 acres included in British Provinces, the remainder, 621,226,000 acres, is shown in Table I, and this represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The agricultural statistics are, however, prepared in a number of provinces or parts of provinces from “village papers,” i.e., papers prepared by the village accountants for the purpose of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are: (a) while the surveyed area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas, and (b) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 618,204,000 acres, as against 621,226,000 acres according to the professional survey.

This area is, for the purpose of Agricultural Statistics, classified as			Table II
	Acres (1,000)	Per cent	Classification of area
Forests	88,245	14.3	88,245,000 acres, or 14 per
Not available for cultivation	141,505	22.9	cent of the total, are occupied
Culturable waste other than fallow	114,848	18.6	by forests ; and the area not
Current fallows	61,347	9.9	available for cultivation, i.e.,
Net area sown	212,259	34.3	land absolutely barren or un-
Total	618,204	100	culturable or covered by build-

ings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 141,505,000 acres or 23 per cent. The balance, 388,454,000 acres or 63 per cent, represents the area available for cultivation. Of this, 114,848,000 acres, or 19 per cent of the total area, represent culturable waste other than fallow, i.e., land available for cultivation but not taken up, and 61,347,000 acres, or 10 per cent, were kept fallow in the year of report. The net area actually sown with crops during 1920-21 was therefore 212,259,000

	Proportion of sown to total area	Population per 100 acres of sown area

Sind	12 "	92
British India	34 "	114

acres, or 34 per cent of the total area, as against 222,825,000 acres in the preceding year, or a decrease of 5 per cent. The proportion of sown to total area and the number of population per 100 acres of sown area in each province are stated in the margin. The proportion of sown to total area in the year under review was highest in Delhi and lowest in Sind. This area, however, excludes

areas sown more than once in the year. If areas sown more than once are taken as separate areas for each crop, the gross area sown in the year of report amounts to 239,201,000 acres, as against 254,991,000 acres in the preceding year.

The term "forests" in the returns of Agricultural Statistics means Forests "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded from that head and entered in the column "net area sown." The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the Reports on the administration of the Forest Department for various reasons,* the chief amongst which are the following :—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods, (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers, and (3) certain village lands worked by the Forest Department and returned as forest lands by that Department are not treated as forests in the returns of Agricultural Statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area (88,245,000 acres in 1920-21), 25 per cent lies in Burma, 19 per cent in the Central Provinces and Berar, 15 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 20 per cent in the other provinces.

As is naturally expected, most of the barren and unculturable lands lies Area not available in the hilly tracts of Burma and of Southern India and in the dry and deserty for cultivation regions of north-western India. Of the total area "not available for cultivation" (141,505,000 acres in 1920-21), about 31 per cent lies in Burma, 15 per cent in the Madras Presidency, 10 per cent in Sind, and 9 per cent in the Punjab.

The head "culturable waste other than fallow" shows lands available for Culturable waste cultivation but not yet taken up. It includes areas such as groves not classed in other than fallow the sown area and also areas under bamboos and thatching grass when not

* For detailed explanations in respect of provinces, see notes at foot of Table II, Nos. 25 to 40.

forming parts of forest areas.* Of the total culturable waste land (114,848,000 acres in 1920-21), 21 per cent is in Burma, 14 per cent in the Punjab, 13 per cent in the Central Provinces and Berar, 12 per cent in Assam, 10 per cent in the Madras Presidency, and the remaining 30 per cent in the other provinces.

Current fallows

The maximum period for which land left uncultivated is reckoned as fallow varies according to local laws and customs in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste." Owing to this diversity of practice, the classification of area as "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1920-21 was 61,347,000 acres, as against 52,135,000 acres in the preceding year, or an increase of 18 per cent.

Table III
Irrigation

The total area irrigated in 1920-21 was 48,957,000 acres, as against 48,963,000 acres in the preceding year. Of this area, 20,078,000 acres were irrigated from Government canals, 2,565,000 acres from private canals, 7,237,000 acres from tanks, 14,242,000 acres from wells, and 4,835,000 acres from other sources of irrigation. In India irrigation is ordinarily resorted to on an extensive scale in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan),

	Proportion of irrigated to total sown area per cent
Sind	80
Punjab	59
North-West Frontier Province	53
Ajmer-Merwara	38
United Provinces	33
Delhi	32
Madras	28
Bihar and Orissa	24
Burma	8
Bengal	8
Central Provinces and Berar	5
Bombay	4
Assam	4
Coorg	3

where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1920-21, the Punjab accounted for 27 per cent, the United Provinces 23 per cent, the Madras Presidency 19 per cent, Bihar and Orissa 12 per cent, Sind 6 per cent, and the remainder of the other provinces 13 per cent. The proportion of irrigated to total sown area in each province is stated in the margin. The proportion is highest in the driest province of Sind.

The figures in the preceding paragraph do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas sown more than once as separate areas for each crop, the gross area of irrigated crops was 52,519,000 acres in 1920-21. Of this area about 86 per cent was under food crops and the remainder under non-food crops. Of the irrigated food-crop area, 10,248,000 acres, were sown with wheat, 31,663,000 acres with other cereals and pulses, and 3,415,000 acres with other food crops. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table III (pages 70-77).

Table IV
Area under crops

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements,

* For detailed explanations in respect of provinces, see notes at foot of Table II, Nos. 25 to 40.

is assigned to the principal crops by the village accountant. In the same province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains and in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops was, as stated above, 239 million acres in 1920-21. The different classes of crops and the area occupied by each class are stated in the margin. Of the total sown area, food-crops occupied

	Acres (1,000)	Per cent of total	about 197,206,000 acres or 83 per cent and non-food crops about 41,652,000 acres or 17 per cent. Of the food- crops, food-grains (cereals and pulses) covered as much as 186,890,000 acres†, or about 78 per cent of the total area sown, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops* toge- ther) some 10,316,000 acres or
Food-grains	186,890	78.2	
Condiments and spices	1,334	0.6	
Sugar	2,706	1.1	
Fruits and vegetables	5,172	2.2	
Miscellaneous food-crops	1,104	0.5	
Total food-crops	197,206	82.6	
Oilseeds	12,370	5.2	
Fibres	17,316	7.2	
Dyes and Tanning materials	729	.3	
Drugs and narcotics	2,039	.8	
Fodder crops	8,108	3.4	
Miscellaneous non-food crops	1,090	.5	
Total non-food crops	41,652	17.4	

only 4 per cent of the total. Of non-food crops, fibres such as cotton, jute, hemp, etc., occupied 17,316,000 acres or 7 per cent of the total area sown, and oilseeds 12,370,000 acres ‡ or 5 per cent. The other non-food crops*—dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 11,966,000 acres or 5 per cent of the total.

The area under food-grains (186,890,000 acres) showed a decrease of Food-grains 12,777,000 acres or 6 per cent as compared with the preceding year. The actual

	1920-21	1919-20	Increase (+) or Decrease (—)	increase or decrease under each kind of grain is stated in the marginal table. It will be seen that all the crops except jowar and ragi showed a de- crease. Of the total area shown in the table under food-grains, 19 per cent was in the United Provinces†, 16 per cent in the Madras Presidency, 14 per cent in Bihar and Orissa, 12 per cent
	Acres (1,000)	Acres (1,000)	Acres (1,000)	
Rice	78,120	78,706	—586

Gram	9,464	12,941	—3,477	
Other grains and pulses	27,533	29,023	—1,490	

in Bengal, 9 per cent each in the Punjab and the Bombay Presidency, 7 per cent in the Central Provinces, and the remaining 14 per cent in the other provinces.

The area under oilseeds (12,370,000 acres) showed a decrease of Oilseeds acres or nearly 2 per cent as compared with the preceding year. The actual

	1920-21	1919-20	Increase (+) or Decrease (—)	increase or decrease under each kind of oilseeds is stated in the margin. Of the total area under oilseeds shown in this table, 28 per cent was in the Madras Presidency, 16 per cent in Bihar and Orissa, 12 per cent in the Central Prov-
	Acres (1,000)	Acres (1,000)	Acres (1,000)	
Linseed	1,496	2,245	—749	
Sesamum	3,592	3,491	+ 101	
Rape and mustard	2,979	3,680	—701	
Other oilseeds	4,303	3,155	+ 1,148	

inces and Berar, 10 per cent in Bengal, 12 per cent in Burma, 6 per cent in the Punjab and the Bombay Presidency each, 5 per cent in the United Provinces,‡ and the remaining 5 per cent in the other minor provinces.

* For a list of these crops, vide Appendix C.
† In the United Provinces, the whole of the area sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 3,000,000 acres in the whole province in 1920-21. Excluding this area of 3 million acres under oilseeds, the total area under food-grains in British India in 1920-21 would come to 184 million acres instead of 187 million acres.
‡ The figures shown under the several heads of oilseeds in Table IV against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other food crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1920-21 for the whole of the United Provinces to about 3 million acres. Including this area, the total area under oilseeds in British India in 1920-21 would come to nearly 15 million acres.

Condiments and spices

The total area under condiments and spices in 1920-21 was 1,334,000 acres as against 1,620,000 acres in the preceding year, or a decrease of 286,000 acres or 18 per cent. As is expected, spices are grown mostly in the southern parts of India, the Madras Presidency alone accounting for about 50 per cent of the total area under condiments and spices in 1920-21.

Sugar

The total area under sugar in 1920-21 was 2,706,000 acres, as against 2,813,000 acres in the preceding year, or a decrease of 107,000 acres or 4 per cent. Of this area, about 2,541,000 acres were occupied by sugarcane, as against 2,647,000 acres in the preceding year. 51 per cent of the sugarcane area was in the United Provinces, 18 per cent in the Punjab, 11 per cent in Bihar and Orissa, 9 per cent in Bengal, and 4 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 165,000 acres as against 166,000 acres in the preceding year. About 51 per cent of this area was in the Madras Presidency and 34 per cent in Bengal.

Fibres

Fibre crops occupied 17,316,000 acres in 1920-21, as against 18,865,000 acres in the preceding year, or a decrease of 1,549,000 acres. The actual decrease under the several kinds of fibres is shown in the marginal table.

	1920-21 Acres (1,000)	1919-20 Acres (1,000)	Decrease (—) Acres (1,000)
Cotton	14,114	15,318	—1,204
Jute	2,473	2,800	—327
Other fibres	729	747	—18

The area under cotton showed a decrease of 8 per cent. Of the total cotton area, 32 per cent was in the Central Provinces and Berar, 25 per cent in the Bombay Presidency, 15 per cent in the Madras

Presidency, 14 per cent in the Punjab, and 8 per cent in the United Provinces. The area under jute showed a decrease of about 12 per cent. About 88 per cent of the total jute area was in Bengal and the remaining 12 per cent in the adjoining provinces of Bihar and Orissa and Assam. Other fibres also showed a decrease of 2 per cent as compared with the preceding year.

Dyes and Tanning materials

The total area under dyes and tanning materials was 729,000 acres in 1920-21. Of this, the area under indigo was 241,000 acres, showing a decrease of 2,000 acres or 1 per cent. Of the total indigo area, 46 per cent was in the Madras Presidency, 18 per cent in Bihar and Orissa, 19 per cent in the United Provinces, and 11 per cent in the Punjab. Other dyes and tanning materials covered an aggregate area of 488,000 acres.

Drugs and narcotics

The total area under drugs and narcotics was 2,039,000 acres in 1920-21, as against 2,293,000 acres in the preceding year, or a decrease of 254,000 acres. The actual increase or decrease under each kind of drugs and narcotics is stated in the marginal table.

	1920-21 Acres (1,000)	1919-20 Acres (1,000)	Increase (+) or decrease (—) Acres (1,000)
Opium	124	182	—58
Coffee	96	96	...
Tea	661	701	—40
Tobacco	932	1,101	—169
Other drugs and narcotics	226	213	13

Fodder crops

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jowar, and carob or locust tree. The total area under fodder crops in 1920-21 was 8,108,000 acres, as against 8,206,000 acres in the preceding year.

Fruits and vegetables including root crops

The total area occupied by fruits and vegetable crops in 1920-21 was 5,172,000 acres, as against 5,675,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix C.]

Miscellaneous crops

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,194,000 acres. Of this, about 1,104,000 acres were occupied by miscellaneous food-crops and about 1,090,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on pages 128 to 135 and Appendix C.]

Area sown more than once

The total extent of land on which more than one crop was cultivated during the year was 26,942,000 acres, as against 32,165,000 acres in the preceding year.

The statistics recorded in Table V are based on cattle censuses. The census is taken annually in certain provinces and quinquennially in others.* The first general quinquennial census was taken in 1919-20. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. The animals are divided into three classes, namely, (1) bovine, comprising oxen and buffaloes, (2) ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. The total number of live-stock of each of these three classes in each province,

Table V
Live-stock, ploughs
and carts

	Number in thousands				
	Bovine	Ovine	Others	Ploughs	Carts
Bengal	24,724	4,396	126	4,448	737
Madras	22,294	16,515	181	4,287	1,037
Bombay	8,184	2,890	205	1,093	625
Sind	1,818	1,592	300	264	57
United Provinces	29,764	6,100	764	4,872	841
Bihar and Orissa	19,853	4,139	198	3,054	494
Punjab	14,409	7,086	1,265	2,244	302
Burma	5,731	301	98	662	668
Central Provinces and Berar	11,121	1,237	173	1,335	889
Assam	5,472	797	20	942	48
North-West Frontier Province	1,132	834	200	213	10
Ajmer-Merwara	314	447	11	38	11
Delhi	136	30	11	17	6
Coorg	145	3	1	31	1
Manpur	6	1	...	1	...
Total	145,108	46,368	3,553	23,551	5,726

together with the numbers of ploughs and carts, is stated in the margin. Of the total number of live-stock of the bovine class (145 millions), which is cattle proper, the United Provinces accounted for 20 per cent, Bengal 17, Madras 15, Bihar and Orissa 14, the Punjab 10, the Central Provinces and Berar 8, Bombay including Sind 7, and the remaining provinces 9 per cent. In the case of stock of the ovine class (sheep and goats), however, Madras

accounted for 36 per cent of the total, followed by the Punjab (15 per cent), the United Provinces (13 per cent), Bombay including Sind (10 per cent), Bengal, and Bihar and Orissa (9 per cent each). The table below shows the number of live-stock of the bovine class (which is cattle proper) per 100 acres of sown area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of sown area ranges between 33 in Bombay and 103 in Bengal and Coorg, while the number per 100 of population varies from 28 in Delhi to 120 in the Manpur Pargana. The average for British India, as a whole, is 68 per 100 acres of sown area and 60 per 100 of the population.

	Number of cattle			Number of cattle	
	Per 100 acres of sown area.	Per 100 of population.		Per 100 acres of sown area.	Per 100 of population.
Bengal	103	55	Central Provinces and Berar	48	80
Madras	67	54	Assam	95	82
Bombay	33	55	North-West Frontier Province	67	50
Sind	51	55	Ajmer-Merwara	100	63
United Provinces	87	63	Delhi	71	28
Bihar and Orissa	80	58	Coorg	103	83
Punjab	66	71	Manpur	86	120
Burma	38	50			

The varieties of land tenure in the different provinces are included in Table VI and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community ; and when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiyyatwari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled*, i.e., where the land

Table VI
Land Revenue
Assessment

* In Burma, the Central Provinces and Berar, Ajmer-Merwara and Manpur Pargana the census is taken annually; in all other provinces it is taken quinquennially.

revenue has been fixed in perpetuity, or *temporarily settled*, i.e., where the land revenue is fixed for a number of years only. Village communities and raiyatwari tenures are, as a rule, temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure, according to the latest statistics available; the figures roughly indicating the extent to which the different systems prevail :—

	Raiyatwari	Zamindari (individual proprietors or village communities) settled		Total
		Permanently	Temporarily	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Bengal	...	39,303	11,152	50,455
Madras	61,462	29,586	...	91,048
Bombay	44,804	...	3,912	48,716
Sind	30,142	...	...	30,142
United Provinces	...	7,537	60,767	68,304
Bihar and Orissa	...	41,511	11,292	52,803
Punjab	...	...	56,309	56,309
Burma	108,850	...	...	108,850
Central Provinces	12,363*	...	40,449	52,812
Berar	11,375*	...	...	11,375
Assam	25,813	3,931	1,746	31,490
North-West Frontier Province	...	...	8,438	8,438
Ajmer-Merwara	...	974	797	1,771
Delhi	...	...	368	368
Coorg	1,012	...	...	1,012
Manpur	31	...	...	31
Total	295,852	122,842	195,230	613,924

It will thus be seen that about 48 per cent of the total area is held by *raiayatwari* proprietors, while 20 per cent is held by permanently settled and 32 per cent by temporarily settled *zamindari* proprietors.

The statistics for this table are collected annually in Burma, Assam, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available, the total revenue from land

	Total revenue from land (Rs.1,000)	Total popula- tion (1,000)	Revenue per head Rs. a.
Bengal	2,93,56	44,588	— 11
Madras	6,80,57	41,405	1 10
Bombay	3,45,64	14,836	2 5
Sind	92,74	3,279	2 13
United Provinces	6,72,83	47,172	1 7
Bihar and Orissa	1,63,07	34,490	— 8
Punjab	4,69,00	20,272	2 5
Upper Burma	1,53,57	4,463	3 7
Lower Burma	3,61,30	6,927	5 3
Central Provinces	1,22,34	10,873	1 2
Berar	88,23	3,067	2 14
Assam	87,83	6,714	1 5
North-West Frontier Province	24,34	2,258	1 1
Ajmer-Merwara	3,49	495	— 11
Delhi	3,81	488	— 12
Coorg	3,80	175	2 3
Manpur	16	5	3 8
Total	35,66,28	241,507	1 8

(excluding cesses) for the whole of British India amounts to Rs 36 crores. This represents the actual realisable demand † on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to table 89 on pages 272—283.

Table VII.
Harvest prices

Table VII shows prices of staple crops at harvest-time. It will be seen from this table that the average prices of wheat, barley, maize, gram, sugar

* Including Government forests.

† Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

(raw), and tobacco were higher than in the previous year, while those of winter rice, rice (unhusked), cholam or jowar, cumbu or bajra, cotton (cleaned), jute, linseed, rape and mustard, sesamum, and groundnut were lower.

The Agricultural Department in each province maintains a statement of the average yield, per acre of land of average quality, irrigated and unirrigated, of crops in each district. In order to test the accuracy of the standards of normal or average yield, and if necessary, to revise these, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the Provincial Agricultural Department. The results of the experiments are reported to the head of the Provincial Agricultural Department, who revises the standards in the light of these returns. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table in Appendix A shows the figures as last revised with reference to the crop-cutting experiments made up to 1916-17. As time goes on the figures become more accurate, and it may be noted that the general trend of the changes made is in an upward direction.

Appendices B and C require little or no comment. Appendix B explains the vernacular terms used in this volume, and Appendix C the classification in Table IV of the various crops cultivated in India.

The map, charts, and diagrams appended to the volume illustrate—

- (1) the departure of sown area and that of rainfall in 1920-21 from the average of the preceding ten years ;
- (2) variations in rainfall as compared with the normal in relation to the total area sown, food-crops area, and current fallows (reversed) ;
- (3) rainfall in wheat-growing tracts (June to February) as compared with the total and unirrigated wheat areas ;
- (4) total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow, and current fallows ;
- (5) total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops ;
- (6) area under rice, wheat, millets, oilseeds, cotton, jute, and other crops ;
- (7) total area sown and area under different crops ;
- (8) total live-stock divided between bovine, ovine, and others ;
- (9) shares of provinces in the total area under principal crops,
- (10) harvest prices of some of the principal crops.

D. N. GHOSH,
Offg. Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA,
Calcutta, September 9, 1922.

2. Total area sown, area under food crops, current fallows (reversed) and variations in rainfall, as compared with normal.

3. Total wheat area, unirrigated wheat area and rainfall in wheat-growing tracts (June to February).

NOTE.—The scale of the curves in Chart No. 3 for "total wheat area" and "unirrigated wheat area" has, in order to effect a better comparison, been made much larger than that used for the curve showing "rainfall."

4. Total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow and current fallows.

NOTE.—1. "Total cultivable area" represents the sum of net area sown, culturable waste, and current fallows.
2. "Uncultivable area" includes the area under forest.

5. Total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops.

6. Area under rice, wheat, millets, oilseeds, cotton, jute, and other crops.

NOTE.—Millets represent jowar, bajra, and ragi.

7. Total area sown in 1920-21.

Total area sown	239 million acres
Area under food crops (unshaded)	197 " "
Area under non-food crops (shaded)	42 " "

(in Million acres.)

NOTE.—“Other food crops” are minor food-grains, condiments and spices, and miscellaneous food crops.
“Other non-food crops” are oilseeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

8: Total livestock, divided between bovine, ovine, and others in 1920-21, as compared with the year 1911-12.

NOTE.—“Bovine” includes bulls and bullocks, cows, buffaloes, calves, and buffalo calves.
“Ovine” includes sheep and goats.
“Others” include horses and ponies, mules, donkeys, and camels.

9. Shares of provinces in the total area (in acres) under principal crops in 1920-21.

NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

10. Harvest Prices (Rs. per maund) of Certain Principal Crops in India.

* Relates to rice-unhusked (Paddy)

TABLES

(a) Including the territory of Alsace Lorraine (b) Includes hemp (c) Preliminary estimate (d) Excluding the "Nile" crop

* Including figures for Indian States, namely, 3,499,000 acres for rice, 5,544,000 acres for wheat, 861,000 acres for barley, 1,902,000 acres for maize, 7,234,000 acres for cotton, and 482,000 acres for linseed. The figures for rice, barley, maize and linseed for Indian States are, however, not complete, as returns for those crops are not furnished by a number of States

Note.—The figures for foreign countries have been taken from the Bulletins of Agricultural and Commercial Statistics published by the International Institute of Agriculture, Rome

(a) Increase due to the adoption of the latest census figures of 1911

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding Departments in the Southern Presidencies. The provincial areas in this column exclude Indian States in direct political relations with the Government of India, but include States politically controlled by Local Governments, with the exception of the Southern Shan States in Burma and the Tribal areas in the North-West Frontier Province

Column 3.—In this column is entered the area of Indian States included in column 2

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Indian States) for which the statistics required for Tables II, III and IV were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns, or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

Column 2 states the area as ascertained by the provincial Survey Department, supplemented, for tracts which have not come under the operations of that Department, by areas obtained with the computing scale from the Survey of India Atlas sheets of the localities concerned

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates, owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,774,877 acres) entered in column 6 for 1920-21 (page 21), 68,359,510 acres are based on actual returns and 21,415,367 acres on estimates

(a) A new district formed out of Ganjam, Vizagapatam and Godavari.

See explanations given in the footnotes (page 20).

(a) Includes the unaccounted for difference between the Atlas sheet scale and traverse area on the one hand, and the estimated areas in the village accounts of unsurveyed areas, on the other. The difference was about 931,000 acres in 1919-20 and 928,000 acres in 1920-21.

(b) Travancore and Cochin

(c) Excludes about 8,640 acres of the Attappady valley in Walluvanad Taluk transferred to Coimbatore District but which have not been included in the returns of that District.

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the returns of the topographical survey

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (48,719,208 acres) entered in columns 5 and 6 for 1920-21 (page 23), 44,573,879 acres are based on actual returns and 4,145,329 acres on estimates

<i>Total</i>					
1919-20	34,013,298	3,872,000		30,141,298	30,141,298
1920-21	34,013,521	3,872,000		30,141,521	30,141,521

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts plus the estimated area of unsurveyed tracts

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,141,521 acres) entered in these columns for 1920-21, 30,016,613 acres are based on actual returns and 124,908 acres on estimates

1920-21 : : : : : }					

Columns 2, 5 and 6.—Where there has been no professional survey of the district, estimates framed in the best manner possible are accepted, subject to revision from time to time as surveys extend. Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myitkyina, and Katha districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08. The omission of the Ruby Mines District and the changes in the areas of Katha district and the Northern Shan States follow on General Department Notification No. 458 of the 4th November 1920, under which the Ruby Mines district was abolished, the Katha district was enlarged by 1,196,550 acres, and 2,279,130 acres classed as Indian States were transferred to the Northern Shan States. This accounts for the reduction in the provincial total to 55,013,792 acres (columns 5 and 6). Of this area 14,200,447 acres are based on actual survey and the balance 40,813,345 acres on estimates.

(a) Partitioned in 1920-21 and amalgamated partly with the Katha district and partly with the Shan States.

The variations in the areas shown in different years under the same item in the same province or district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change

Column 2.—“Forests” mean “any land classed or administered as forest under any legal enactment dealing with forests.” Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the forest Administration Reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned as forests by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the sown area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column

See explanations given in the footnotes (page 40)

(a) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different

(b) Includes unculturable Government waste and unculturable *banes*

(c) States the estimated area of culturable Government waste

(d) Shows (1) the estimated area of culturable *banes*, and (2) the difference between the net area sown and the gross area of the actual holdings (exclusive of *banes*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained

CLASSIFICATION OF AREA
(BENGAL)

1920-21	130,419	687,088	162,697	259,440	724,538	1,864,182

Column 2.—Includes the area cultivated within forests. The area cultivated with coffee, tea, and rubber within forests is however excluded from this column and is shown under column 6, since the year 1918-19

Column 4.—Includes areas occupied by *babul* and *casuarina* trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in Table IV

Column 5.—Includes all occupied waste, that is to say, waste portions of land for which revenue is paid

(a) See explanation given in footnote (a) (page 20)

	1920-21	118,159	262,033	16,560	512,500	2,006,825	2,916,077

NOTE.—Figures for unsurveyed villages are based on estimates

Column 2.—Includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions

Column 3.—Includes all land recorded at the survey and settlement as unculturable, although at times a very small quantity of this land is cultivated

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years

1920-21	89,717	716,015	432,686	812,011	444,637	2,495,066
<i>Total</i>						
1919-20	718,291	14,108,754	6,017,100	5,227,966	4,069,187	30,141,298
1920-21	723,628	14,068,784	6,072,339	5,712,405	3,564,865	30,141,521

Column 2.—The figures do not agree with those in the Forest Administration Report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do.

Table II—*continued*No. 30—CLASSIFICATION OF THE AREA (IN ACRES) OF EACH DISTRICT IN THE
PROVINCE OF AGRA

DISTRICT	Forests	Not available for cultivation	Culturable waste other than fallow	Current fallows	Net area sown	Total

Column 2.—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates

Column 4.—Includes large areas of Government waste not allotted for cultivation

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually

(a) Rainfall insufficient

1920-21	1,826,128	2,836,300	1,978,223	13,930	89,144	6,743,725

NOTE.—For tracts outside the surveyed area the figures are based on estimates

Column 2.—The area entered in this column is that given in the Forest Administration Report, and includes reserved forests and fuel reserves. Estimates of the forest areas in certain hill tracts are also included. The forest areas in the South Shan States, which are included in the Forest Administration Report, are excluded from this table, no returns of agricultural statistics being prepared for those States

Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best sources available

Column 4.—Includes land thrown out of cultivation and abandoned. Groves, not classed in the sown area, and bamboos when not grown in forest areas, are also included in this column

Column 5.—Includes only such land left uncultivated as is actually in the possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated

(a) See foot note (a) on page 31

Column 2.—Shows the areas administered by the Forest Department; but the figures differ from those in the Forest Administration report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

Column 3.—States areas covered with water, hill, or rock, and land occupied by buildings and roads.

Column 4.—States (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow.

Column 2—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table

Columns 3 and 4—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good

Column 5—Includes generally all lands which are thrown out of cultivation or not cultivated for three years, but which remain in the occupation of leaseholders. Figures for the hills districts except the plains portion of the Garo Hills and Sadiya Frontier Tract are rough estimates

Column 6—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill districts and the Sadiya Frontier Tract are based on estimates

*The forest areas exclude the forest villages within the reserves

†Figures incomplete

‡The figures represent the area under tea only

Column 2—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar

Column 4—Includes large areas of Government waste not allotted for cultivation

Column 5—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7) is thus due to the inclusion in column 19 of the area irrigated at both harvests

(a) Included in column 14

(b) Included in column 16

(c) Included in column 18

(d) Includes 1,700 acres in Rajshahi for which details are not available

Column 4.—The term “tanks” refers to a particular kind of dammed reservoirs. These reservoirs are formed by throwing dams across the valleys of small rivulets and streams to intercept water during the rains
(a) See explanation given in footnote (a) (page 20)
(b) The whole area of the district is not available for cultivation (*vide* Table II page 47.)

NOTE—This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each and the areas so estimated are separately returned. The estimate is made by the village accountant or is subsequently determined on formulae prescribed by the provincial authorities.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

Column 10 (other food-grains including pulses).—Arhar (pigeon pea), barbati, lobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, cheik (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki (little millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wudalu or barti.

Column 30 (other dyes and tanning materials).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.

Column 33.—In certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 37 (other drugs and narcotics).—Aloes, areca nut, sweet basil, betel-vine, country borage, bogoda brinjal or nela mulaka dhatara, purple flea-bane, isfagul, kolinji or vempali, senna, soap nut, sweet flag.

(a) Increase due to a revised classification of crops.

Column 39 (fodder crops).—Carob or locust-tree, fodder cholam, lucerne, guinea grass, oats, field vetch.

Column 40 (fruits and vegetables including root crops).—Agasi, wood apple, cashew nut, custard apple, rose apple, artichoke, arum, beans, beetroot, bilimbi, bimb, brinjal, cabbage, carrot, cassava, cauliflower, celery, chicory, citron, cress, cucumber, drumsticks or horse radish, elephantfoot, fig, garmal, cape gooseberry, country star gooseberry, goosefoot, gourd, gourd melon, grapes, guava, gumberry, edible hibiscus, jack fruit, jujube, kanda, kankrol, kamranga, karola, kavali, kavathu, koorka, lettuce, mango, mangosteen, mankachu, marians, Indian medlar, mello, oranges, papay, parvar or patol, peach, pineapple, plantain, black plum, hog plum, pomegranate, ponelo, ponnagantikura, potato, puliyavara, sweet potato, pumpkin, radish, raspberry, roselle, sankalu, sapodilla, sebastian, sorrell, water caltrop, spinach, strawberry, manila tamarind, tomato, turnip, uchuhe, yams, elephant yams.

Column 41 (miscellaneous food crops).—Amaranth, arrowroot, kirni, mahua.

Column 42 (miscellaneous non-food crops).—Chrysanthemum, dani (*nip fruticans*), dhaincha (*sesbania acutata*), flowers, margosa or neem tree, mulberry, chaplash, thetké (grass).

(a) Variations due to a revised classification of crops.

(b) Includes 342,173 acres in Nainital and Almora for which details of crops are not available.

(c) Increase in 1915-16 is due to inclusion of area under grass and babul previously shown as "fallow" in Table 11.

(d) Includes 342,192 acres in Almora and Naini Tal, for which details are not available.

(e) Includes 9,441 acres in North Arcot for which details of crops are not available.

(f) Includes 342,392 acres in Almora and Nainital for which details are not available.

(g) " 343,117 "

NOTE.—The total in column 43 differs in some cases from the sum of the preceding column (*vide* footnotes b, d, e, f and g above.)

Column 39 (fodder crops).—States the areas sown with grass and crops solely for fodder. Lands left waste for grazing and on which grass grows spontaneously are not included in this column. It shows crops that in normal times are used only as fodder.
(a) Includes 9,441 acres for which details of crops are not available

NOTE—The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram jowar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulæ and entered under the crops of which they are composed.

Columns 3, 4, 5, 6, 9, and 10.—The whole of the area of the land planted with food-grains wheat, barley, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,374,000 acres in the whole of the United Provinces of Agra and Oudh in 1920-21.

(a) See explanations given as footnotes on pages 24 and 25 for Saharanpur, Muzaffarnagar and Nainital.

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1920-21 (for the whole of the United Provinces of Agra and Oudh) to 476,000 acres of linseed, 875,000 acres of sesamum, and 2,023,000 acres of rapeseed.

NOTE—The information is received from district officers who in their turn obtain figures from the district Land Records staffs in the case of the temporarily-settled areas and from Zamindars in the case of the permanently-settled portion of Goalpara, with the exception in the latter district of jute, the estimate for which is compiled by the village Chaukidari Panchayats. In the permanently-settled part of Sylhet the figures for jute are those submitted after actual inspection by the village Chaukidari Panchayats. The figures for tea are reported by the garden managers, while for all other crops estimates have been framed by the district officers from the actual areas in the surveyed parts, applied to the rest of the districts. The figures for the hill districts and the Sadiya Frontier Tract are rough estimates which are revised quinquennially except for cotton for the hill districts and sugarcane and rape and mustard for the Sadiya Frontier Tract for which estimates have to be made annually for the forecasts of these crops.

() Included in Col. 1G

* For Balipara Frontier Tract only tea figure is available

Note.—Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are treated as "young stock"

(a) Figures not available

(b) Figures for 1910-11, which are based on estimates, include Bihar and Orissa but exclude Eastern Bengal

(c) Included under "Young stock (calves)"

(d) Includes bulls, cows, and young stock (calves) for the Northern Shan States

(e) Includes cow buffaloes and young stock (buffalo calves) for the Northern Shan States

(a) An annual census is taken on the 15th March in Manpur

(b) The figures in columns 9 to 18 exclude Bengal (see Table V, No. 74)

(c) Statistics based on a census taken in 1913-14. Figures for columns 8, 17 and 18 were revised in 1914-15

(d) Excluding Eastern Bengal

(e) Included under "Young stock (calves)"

(f) In Coorg a census is taken every five years. The last Census was taken in March 1920 by the circle shanbags, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in Municipal Towns are included

(g) Included under "Bullocks"

Note—Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts, in columns 2 to 4 have, however, subsequently been revised. The census did not take into account the animals named in columns 9 to 16 nor ploughs and carts (columns 17 and 18). Figures for 1919-20 under all the heads are based on a cattle census taken in 1920

(a) Includ. under "Young stock (calves)"

(a) Included under "Young stock (calves)"

NOTE—The last quinquennial census was taken in October 1919, in all villages, Government Inam, and Zamindari, and stock in cities, cantonments, and that employed in Government Departments and Municipalities were included. Oxen, buffaloes, horses and ponies not old enough for work or breeding were treated as young stock.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The census which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts, except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the census was taken in 1912. The last census was taken in 1920, except in Almora, Garhwal, and the hill tracts of Naini Tal

(a) Included under "Young stock (calves)"

Note.—The figures for 1913-14 shown in the table for all the districts of the Province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Palamau, Hazaribagh, and Ranchi the figures are based on information collected during survey operations; while the figures for Manbhum are based on police reports. Corrections were made in the figures for Hazaribagh in 1915-16 and for Palamau in 1917-18. The figures for 1919-20 were ascertained by a census held in January 1920.

Note.—Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *taikthuggis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities

(a) Estimated figures

(b) Includes bulls, cows and young stock (calves)

(c) Includes cow buffaloes and young stock (buffalo calves)

(d) See footnote (a) on page 32

Note.—The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included.

Note.— A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

	1920-21	3,912,380	1,375,961	30,917	2,505,502	571,248	...	...

Note.—The varieties of tenure are included as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari, and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

Column 3.—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (column 11). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops or for other special reasons.

Column 4.—This head is sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net sown area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

* No details

+ Includes 1,360,300 acres (in Dinajpur for which details are not available

¶ Increase due to inclusion of certain Zamindari villages which were formerly included under Raiyatwari

(a) Excludes Bihar and Orissa districts constituted into a separate province

(b) Includes 3,407,181 acres in Dinajpur, Rangpur, and Pabna, for which details are not available

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, and not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, hucoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, thathameda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands.

Column 6.—The population is that of the last general census.

Entry 8.—As in entry 5, but only ordinary land revenue on fully assessed areas is entered.

Entry 9.—To be entry 8, divided by entry 4 (a).

Entry 10.—To be entry 8, divided by entry 4 (b).

* No details

† Includes R15,19,026 for Dinajpur for which details are not available.

‡ Includes R15,18,959 for Dinajpur for which details are not available.

The table is prepared quinquennially, and the figures were last collected in 1917-18

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

(2) *Zamindari (temporarily settled)* comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors and estates leased to farmers for periods; and (b) all estates owned by Government as proprietor.

Column 4 (b) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

The table is prepared quinquennially. The figures were last collected in 1918-19

Column 3 (a).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed porambokes, of minor inam lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous"; and in the case of zamindari tracts the areas of hills, porambokes, and minor inams are entered. The entire area of whole inam villages is deducted from this column

Column 3 (b).—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers

Column 4 (a).—The figures for the raiyatwari tenures in this column are taken from village papers which differ in some cases from the resultant of preceding columns

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		DISTRICT AND NATURE OF TENURE
		For total area	For cultivated area			Number of towns	Aggregate population

Column 4 (a).—Raiyatwari; states the total occupied area as stated in village papers

Column 4 (b).—For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Column 8.—Shows only the "ordinary revenue," as defined in the Civil Accounts, on area fully assessed

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (a)

Column 11 states the entire population of raiyatwari and zamindari villages, respectively

Table VI—continued

This return is prepared quinquennially

Column 1.—Lands held under special tenures, such as talukdari, mehwas, udhad-jamabandi narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)"

Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area

Column 3 (b) includes alienated cultivated and zamindari cultivated (estimated) land

Column 4 includes land under temporary cultivation, also pôt ináms paying full assessment

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years about 2½ percent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pôt ináms and the like scattered areas, which cannot be distinguished from the population of the fully assessed area.

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, plus the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

The table is prepared quinquennially, and the figures were last collected in 1916-17

Columns 3 (a) and 3 (b) exclude small revenue-free plots, for which details are not forthcoming

Column 5 states (1) "ordinary revenue," comprising (a) fixed collections (including land revenue on account of resumed Gorait Jagirs),

(b) fluctuating collection, (c) surplus collections, (d) collections from Government estates (including collections from Dudhi, Tarai, and Bhabar Estates, and receipt from Forest Estates); (2) sale of Government estates; (3) sale-proceeds of waste lands and redemption of land tax,

(4) miscellaneous, comprising (a) receipt from quarries and mineral products in forest and land not under the management of the Forest Department, (b) water mills rent, (c) malikanas or allowance to excluded proprietors, (d) fines and forfeitures of Revenue courts, (e) recoveries in India of law charges in England on account of appeals from India, (f) miscellaneous receipts, (i) patwari miscellaneous receipts (Revenue Record Room),

(ii) mutation fees, (iii) mutation fines, (iv) sale of waste paper, (v) Partition fees, (g) Rents of Railway class "C" land and rents of buildings situated on such land. On the average of the last five years about 1.68 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 6.—The total population of the province includes the population of the Benares State

Note.—No figures have been entered in columns 8 to 12 opposite "Lucknow, permanently settled," (page 297) as no portion of the permanently settled area has been fully assessed to land revenue

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12

Columns 13 and 14.—The figures are taken from the Census Reports of 1911

	GRAND TOTAL	1,770,921	154,321	...	1,616,600	315,105	3,48,885	495,271

Note.—The table is prepared quinquennially, and the figures were last collected in 1915-16, but some of the figures were revised in 1918-19 and also in 1919-20. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrari areas as "Zamindari (permanently settled)"

Column 4 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

† Included under Ajmer

	Miscellaneous revenue	...	...	...	...	...	2,263		

The table is prepared quinquennially, and the figures were last collected in 1917

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government;

(2) *Zamindari (temporarily settled)* comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods and (b) all estates owned by Government as proprietor

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts. On the average of the last five years about 9.16 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Land revenue assessed on fully assessed area (col. 4 (a))	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		DISTRICT AND NATURE OF TENURE

Note.—For tracts outside the surveyed area the figures are mostly based on estimates. For the omission of the Ruby Mines District and change in the area of the Katha District, see footnotes on page 31

Column 1.—No areas are classed as zamindari, as no system of communal assessment prevails

Column 3 (a) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation

Column 3 (b) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted

Column 4 (a) shows figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity

Column 5 states ordinary land revenue *thathameda*, water rate, rents of fisheries, and items under "Miscellaneous Land Revenue," such as, petroleum, rubies, and other minerals appearing in the Civil Accounts

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		DISTRICT AND NATURE OF TENURE

Column 1.—Zamindari (temporarily settled) includes malguzari and thekadari

Column 2 states the area by village papers (column 6 of table I, No. 20)

Column 3(a)—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed

Column 4(b) excludes fallows

Column 5.—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	INCIDENCE PER ACRE OF LAND REVENUE (COL. 8) ON FULLY ASSESSED AREA (COL. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	TOWNS OF OVER 10,000 INHABITANTS		DISTRICT AND NATURE OF TENURE

APPENDICES

APPENDIX A

THE AVERAGE YIELD PER ACRE OF PRINCIPAL CROPS IN INDIA

A provisional return of the yield of principal crops cultivated in India was first compiled in 1892, from various statistical publications available at the time, such as agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc. To provide for the periodical revision of the estimates a system of experimental crop cuttings was prescribed by the Government of India, the results of which are reported by Local Governments and Administrations at the close of each quinquennium. The returns for the quinquennium ended 31st March 1917 have been received and scrutinised. These outturns per acre are of extreme importance since these will generally be used during the present quinquennium (*i.e.*, until 31st March 1922) in estimating the production of crops, for which forecasts are prepared.

2. The estimates are prepared in the following way. The estimate given is the average outturn on average soil in a year of average character, as deduced from the information obtained from experiments made during the period under review. When, therefore, this average is multiplied by the average area sown, it is believed to give as near an approximation as possible to the outturn of the crop in an *average* year. The Department of Agriculture or Land Records of each province has at its disposal provisional standard estimates of the average yield of land of average quality (usually under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments or investigations annually made is to test the accuracy of these estimates, and to enable the head of the Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions or of exceptionally favourable conditions, which have affected the experiments reported, this would not necessarily involve the reduction or increase of the standard estimates for the district or for the province, unless there were other reasons for believing that, as estimates of average yield in an average year, they had been pitched too high or too low.

3. In 1913, on an examination of the returns of the quinquennium ending 1911-12, it was recognised that the results of experiments as conducted by the district revenue staff were generally unreliable. A change was accordingly made in the system. In 1915 the Government of India, in order to improve the returns, issued instructions to employ, as far as possible, the expert officers of the provincial Agricultural Department, for carrying out experiments on a well-ordered plan in each agricultural tract, and for the investigation of average crop outturns in the various provinces. It appears from the provincial reports that during the quinquennium under review experiments were regularly conducted by officers of the Agricultural Department in Madras, Bombay, and the United Provinces. In Bihar and Orissa crop tests by officers of the Agricultural Department were carried out on a small scale (as an experimental measure only) in a few districts. In Bengal the work was transferred from the district staff to the Agricultural Department, but owing to a reduction in the staff of the Department in consequence of financial stringency, the old system had to be reverted to. In the Punjab officers of the Agricultural Department were consulted in revising the standards, and it is stated that an improved system of conducting experiments has come into force from 1917. In Burma also new rules have been issued entrusting supervision of the experiments very largely to the Agricultural Department with effect from 1917-18. In Assam experiments were conducted according to revised rules framed in 1912 and slightly modified in 1915. In Mysore a system of checking the estimates by the results of experiments conducted by the Agricultural Department is, it is understood, to be introduced during the next quinquennium. No change in the system appears to have been made or contemplated in the remaining provinces.

4. It will thus be seen that in the majority of provinces, the orders of 1915 could not be fully carried out in the quinquennium under review. As a result of the experiments that were made, whether under the old or the new system, considerable changes have been made in the averages previously adopted, except in Bombay, Bihar and Orissa, and the Central Provinces and Berar. The changes

are generally in an upward direction. In Bengal the yield of winter rice has been raised from 983 to 1,036 lbs, and that of jute from 1,271 to 1,300 lbs. Barley in the United Provinces has been raised from 1,100 to 1,150 lbs, arhar from 750 to 800 lbs, and cotton from 160 to 170 lbs. In the Punjab wheat has been raised from 726 to 791 lbs, sugarcane from 1,686 to 1,933 lbs, and cotton from 118 to 135 lbs. Cotton in Sind has been raised from 125 to 170 lbs, and sugarcane from 4,233 to 8,142 lbs. In Assam the yield of autumn rice has been raised from 672 to 706 lbs, and that of sugarcane from 1,904 to 2,016 lbs. In the North-West Frontier Province wheat has been raised from 633 to 676 lbs, and sugarcane from 2,430 to 2,660 lbs. In a few instances the standards have been decreased. In Sind the yield of rapeseed has been put at 393 lbs; in Assam the yield of winter rice at 952 lbs, while the yield of jowar in the North-West Frontier Province is now estimated at 399 lbs.

5. The importance of accurate standards of average outturn cannot be exaggerated, since, as already noted, under the present system the estimates of yield in crop reports are based on these standards, and a small error of even one lb per acre may make a difference of thousands of tons in the estimated yield of a province. It has also to be remembered that the result of a single experiment, if not conducted with proper care, may vitiate the average for the district as well as for the province, since the district figure is calculated by averaging the outturns obtained from all the selected experiments in the district, and the provincial average is estimated by multiplying each district outturn by the area under the crop in each district and dividing the sum of the total outturns thus arrived at by the total area under the crop in the province. It is, therefore, extremely necessary that the instructions issued by the Government of India in 1915, referred to above, should be carried out to the fullest extent, as early as possible, where this has not already been done.

6. The statement below compares the average outturns of the major crops in the different provinces. The relative importance of each province in respect of each crop has also been shown by percentages representing the proportion of the total area under each crop in British India cultivated in each province. Tea has been included in this statement, although this crop is not dealt with in the quinquennial returns, the average outturns having been calculated from the special returns of tea production for the five years ending 1916.

(a) Irrigated. (b) Unirrigated.

The outturns of maize in Assam, of sugarcane in Sind, and of cotton in Ajmer-Merwara appear to be too high, as compared with other provinces, although the areas cultivated are insignificant. On the other hand, the outturns of linseed in the Central Provinces and of sesamum in the Central Provinces and Burma appear to be too low in spite of extensive areas being cultivated with the crops in these provinces.

7. In the following paragraphs the leading features of the provincial reports are summarised :—

Bengal.—In 1915 the work of conducting crop cutting experiments in Bengal was partially transferred from the district offices to the Agricultural Department, but owing, as already noted, to a reduction made in the staff of demonstrators attached to the Agricultural Department in consequence of financial stringency, the old system had to be reverted to. This transfer and retransfer of the work from the district staff to the Agricultural Department and back led to some confusion and resulted in fewer experiments being made in some districts than would otherwise have been undertaken. Nevertheless the total number of experiments made during the quinquennium under review with staple crops (rice, wheat, gram, linseed, rape and mustard, sesamum, sugarcane, and jute) was a record of 3,671, as against 2,814 in the previous quinquennium; and these experiments afforded sufficient data for a general revision of the standards previously adopted for the province. The average yield has been raised in the case of rice, sugarcane, and jute; while it has been reduced in the case of wheat, gram, rape and mustard, and also linseed. The important changes are the increase in the yield of winter rice from 983 to 1,036 lbs, of autumn rice from 807 to 871 lbs, and of jute from 1,271 lbs, to 1,300 lbs, and the reduction of the yield of wheat from 861 to 698 lbs. The returns do not distinguish between irrigated and unirrigated crops, the irrigated area being relatively very small in the province. A few experiments were also made with certain less important crops such as barley, maize, peas, *khesary*, *mung*, sunn hemp, and tobacco; but the data obtained were not sufficient to warrant the deduction of average yields per acre for the whole province.

Madras.—During the quinquennium under review experiments in Madras were conducted by the Agricultural Department, and it is stated that they may be taken as being on the whole more accurate than those conducted in former years by the officers of the Revenue Department. On the other hand, these are much fewer in number and in many cases are too few to admit of the results being accepted as a representative figure for any tract. It is further stated that the figures reported in the previous quinquennial returns, which were solely based on crop cutting experiments, have never been adopted in Madras for the purpose of calculating outturns in crop forecasts, season and crop reports, etc. For this purpose there exists a separate set of standards, which have been fixed and modified from time to time by the Board of Revenue, in consultation with the Director of Agriculture, on a consideration of the tabulated results of crop cutting experiments, the results obtained on Government farms, and, in the case of cotton, of the figures of total crop exported from certain areas. These standard figures have been reported (rightly) in the present return. The Director of Agriculture, however, remarks that these figures are in need of revision in many cases and that he has now under consideration this important question. For the above reason, no useful comparison can be made between the present and the previous figures, especially as a distinction was made between irrigated and unirrigated crops in the previous figures, whereas the present figures are averages for irrigated and unirrigated crops taken together, except in the case of sugarcane which is always an irrigated crop.

Bombay.—In Bombay the estimates of 1897 were prepared with great care, and the results of the experiments made in the two quinquennial ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. In the quinquennium ending 1911-12, the system of crop cutting experiments conducted by the district staff was abolished, and a system of more scientifically conducted experiments on Government farms by officers of the Agricultural Department was substituted; but the results obtained on Government farms were too meagre to justify any revision of the provincial averages, although a few changes were made with great caution in the district figures. In the quinquennium under review a few changes have been made in the district figures, as a result of the experience gained by the Agricultural Department; and it is believed that the changes are in the right direction, although the matter is largely one of guess work. The only change made in the provincial averages is a very slight increase in the yield of cotton, namely, from 100 to 102 lbs, all other figures remaining unchanged. It is stated

that endeavours will be made during the next quinquennium to test other figures upon which it has not yet been possible to offer any definite opinion.

Sind.—The figures reported from Sind in the previous quinquennia were not the average outturns worked out from the yield of crops raised on different classes of lands and under various modes of irrigation, but were mostly the actual results of individual experiments (or mean figures where more experiments than one were made) by the settlement or divisional officers. The present return has also been prepared from similar data, but a distinction has been made between irrigated and unirrigated crops. The Commissioner remarks that in order to work out correct averages, a large number of experiments would be necessary for each crop under different modes of irrigation, and the aggregate cultivation under each mode of irrigation on different classes of lands would also have to be taken into account; but as these statistics are not yet available on a sufficiently large scale, there is no alternative but to accept the figures now communicated by the collectors. As compared with the previous figures the present estimates show an increase in the case of wheat, barley, gram, sugarcane, and cotton, and a decrease in the case of jowar, bajra, sesamum, and rapeseed. The most important changes are the increase in the average yield of barley from 1,076 to 1,279 lbs, that of gram from 476 to 604 lbs, of sugarcane from 4,233 to 8,142 lbs, and of cotton from 125 to 170 lbs; and the decrease in the yield of jowar from 1,396 to 866 lbs, of bajra from 971 to 624 lbs, and that of rapeseed from 602 to 393 lbs. The Commissioner states that it is not possible to explain these wide variations except that the increase in the case of sugarcane and cotton can be ascribed to a more regular supply of water following the many improvements in the canals. The figure for sugarcane (8,142 lbs) seems, however, to be extremely high. It is further stated that instructions have been issued to district officers to collect in future the data of outturn of normal (12-anna) crops raised on different classes of irrigation and to work out on a uniform system the average for the district by taking into account the area under each mode of irrigation.

United Provinces.—In the quinquennium under review experiments in the United Provinces were made regularly by officers of the Agricultural Department and some by settlement officers, in addition to those conducted by district officers. The results of these experiments have not necessitated a change in the previous standards except for barley, jowar, arhar, and cotton. The yield of barley has been raised from 1,100 to 1,150 lbs, that of arhar from 750 to 800 lbs, and that of cotton from 160 to 170 lbs. The yield of jowar, on the other hand, has been reduced from 650 to 600 lbs.

Bihar and Orissa.—In accordance with the Government of India Circular of 1915, referred to above, the execution of crop tests by officers of the Agricultural Department of Bihar and Orissa was started in that year as an experimental measure, and experiments were carried out on a small scale in seven districts as supplementary to those conducted by district officers. The crop tests conducted by the Departmental officers are stated to have shown better results than those conducted by district officers; but the information obtained by the small staff of the Department is not yet of sufficient volume to serve as an effective check on the figures returned by district officers. The experiments conducted by district officers, on the other hand, were, as usual, unreliable owing mainly to carelessness in the selection of typical plots, and the results of these experiments do not, therefore, justify any modification of the provisional standards previously adopted for the province on the basis of the estimates of 1892. In the consolidated tables for British India these unrevised standards have therefore been retained in the statement of provincial averages (Table No. 1), but in the detailed statement of district figures, the average outturns based upon the experiments conducted during the quinquennium under review have been shown for each district, irrigated and unirrigated crops being classified separately. The provincial Director remarks that the district officers' figures should be supplemented by the results of a larger number of experiments made by the trained staff of the Agricultural Department under the new system, before the present provincial standards can be safely revised.

Punjab.—The revision of 1912 in the Punjab was made on the basis of the overcautious estimates of settlement officers, and it was remarked

that the yields then fixed were in consequence too low. The results of the experiments made in the quinquennium under review have confirmed that opinion, and in the present revision these yields, as also the cautious estimates of settlement officers, have been regarded as minima. In consultation with district and settlement officers and the Principal of the Agricultural College, Lyallpur, and other officers of the Department of Agriculture, increases have been made where the results of crop experiments indicate that enhancement is required, provided that the number of experiments has been sufficient. The system of conducting crop experiments has been revised and greatly improved, but unfortunately the new system came into force only with the spring harvest of 1917, at least so far as experiments conducted by district officers were concerned. The present revision shows that a general increase in the provincial averages has taken place. The notable increases are in the yield of rice from 688 to 782 lbs, of wheat from 726 to 791 lbs, of barley from 716 to 809 lbs, of maize from 908 to 1,040 lbs, of sugarcane from 1,686 to 1,933 lbs, and of cotton from 118 to 135 lbs. The Punjab Government remarks "that the present normal yields, though possibly slightly on the low side, are fairly reasonable, and that though it is no doubt difficult to determine how far the results of particular crops in particular harvests vary from the normal, the estimates at least for the main crops are steadily becoming accurate."

Burma.—In the quinquennium under review crop cuttings in Burma were as usual carried out for the most part under the supervision of sub-divisional and township officers, with occasional assistance from the Superintendent of Land Records and the subordinate Land Records staff. On a consideration of the results of these experiments and of those made in the previous quinquennia, no change has been made in the previous provincial estimate for rice in Lower Burma; but in the case of Upper Burma the estimates for all the crops now reported exhibit considerable variations. The Director of Agriculture remarks that whatever be the value of the Lower Burma figures, in Upper Burma the number of experiments remains too small to justify confidence in the estimates. In order to show the main products only, the following deductions have, as usual, been made from the gross outturn of the crops, namely, for rice and jowar 33 per cent, and for cotton 70 per cent. The Local Government issued orders in 1916, in accordance with which new rules have been prescribed changing the whole system with effect from 1917-18, and entrusting supervision of the experiments very largely to the Agricultural Department. The results of the new system will be reported in the next return. It may be noted that the average outturns hitherto ascertained by the Director of Agriculture on the basis of crop cutting experiments have never been utilized for the purposes of estimating yields in crop forecasts, season and crop reports, etc., for which there exists a distinct set of normal outturns framed and revised from time to time by the Commissioner of Settlements and Land Records, Burma, mainly on the basis of settlement records. These normal outturns, which are published in the provincial Season and Crop Report, have been shown in the appended Table (No. 8) of district averages underneath the figures of crop cutting experiments reported by the Director of Agriculture, and have also been taken into account in calculating the averages for British India in Table No. 1. It is very desirable that one set of standard outturns should be framed, and revised or verified from time to time, on a consideration of data available from all sources and in consultation with the expert officers of the provincial Agricultural Department.

Central Provinces and Berar.—In the revision of 1912 experiments in the Central Provinces and Berar were selected with great care and due attention was paid to seasonal peculiarities and to classes of soil. In the quinquennium under review, as a result of a large number of experiments made with the rice crop in the Nagpur division slight changes have been made in the figures for that crop for the districts of that division. It has not, however, been considered necessary or advisable to make any change in the provincial averages for any crop.

Assam.—In consequence of the reformation of the province of Assam revised rules for the conduct of crop cuttings were framed in 1912, which were slightly modified in 1915. In accordance with the revised rules experiments were

conducted on all the crops of the province, for which forecasts are made, and also on certain other crops, such as *matikulai* (*phaseolus radiatus*), maize, and potato. The number of experiments made was much larger than in the preceding quinquennium, and their results are stated to have been on the whole satisfactory. The only district in which no experiments were made is the Naga Hills where the staff is stated to be inadequate for the purpose. As a result of the experiments made, the averages have been revised in most cases, the most important changes being the reduction of the yield of winter rice from 1,008 to 952 lbs, and the increase in the yield of autumn rice from 672 to 706 lbs, and that of sugarcane from 1,904 to 2,016 lbs. In the case of cotton a deduction varying between 40 and 50 per cent has been made in order to obtain the yield of lint.

North-West Frontier Province.—In the quinquennium under review experiments in the North-West Frontier Province were made by the district staff (Sub-divisional Officers, Tahsildars, and Naib-Tahsildars) in the two selected districts of Peshawar and Dera Ismail Khan. The results obtained from these experiments have been carefully scrutinized by the Revenue Commissioner, and, in cases where the figures were excessive, especially in Dera Ismail Khan, they have been modified after comparison with the settlement results when the experiments were conducted and worked out under the Settlement Officer's own supervision. For the other districts the averages previously adopted on the basis of experiments framed by Settlement Officers have been repeated. The provincial averages have been raised for all the crops except rice, jowar, and maize. The important changes are the increase in the yield of wheat from 633 to 676 lbs, of barley from 876 to 907 lbs, and of sugarcane from 2,430 to 2,660 lbs, and the reduction of jowar from 436 to 399 lbs.

Ajmer-Merwara.—The figures reported by Ajmer-Merwara are based mainly on the results obtained in 1916-17. The yield of jowar, maize, and cotton has been raised, and that of barley lowered; the most important changes being the increase in the yield of jowar from 137 to 322 lbs, and that of cotton from 170 to 291 lbs. The reported yield of unginned cotton has been reduced by two-thirds to obtain the yield of cleaned cotton (lint), but the figure still appears to be high. It is remarked by the Commissioner that the results of crop experiments, as they are at present conducted in Ajmer-Merwara, are of little, if any, value as a basis for estimating the average yield of any crop on average soil in a year of average character.

Delhi.—The return received from Delhi relates to the new province as constituted in 1912. The reported figures do not call for any special remark.

Coorg.—The only experiments made in Coorg have, as usual, been on rice. The average yield has been slightly lowered from 1,483 to 1,425 lbs, which is still very high in comparison with the reported yield of other provinces. The comparatively high yield of rice in Coorg was ascribed, in the previous return, partly to special attention being paid to rice cultivation since the decline of the coffee industry, and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. The slight decrease in the present return is stated to be probably due to the selection of the crop and not to a decline in the productive capacity of the soil or bad years.

Mysore.—As a result of the experiments made in the Mysore State during the quinquennium under review, the averages for all the crops, except sugarcane, have been raised, the most important increases being in the outturns of rice (from 841 to 1,185 lbs), ragi (from 581 to 728 lbs), and cotton (from 79 to 122 lbs). The yield of sugarcane has been reduced from 3,138 to 2,559 lbs. The present figures are based only on experiments conducted by the Revenue Department. It is stated that arrangements have been made for checking the figures by the results of experiments conducted by the Agricultural Department, and the Darbar hope in future to be able to furnish more accurate statistics.

AVERAGE YIELD OF CROPS

NOTE.—(1) Average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped, and the yield of unirrigated land multiplied by the unirrigated area cropped, and dividing the sum of these products by the total area cropped.
(2) The superseded figures of the previous quinquennia have been inserted merely to show the trend of the revision made in each period.
* The estimates for Bihar and Orissa are the standards adopted provisionally by the Agricultural Department of the province, which are partly based on the information collected in 1892. The results of the experiments for the period ending 1916-17, as recorded in table No. 6, are not considered sufficiently reliable to justify a revision of the provincial estimates.
† The averages for Burma for 1916-17 are based on the normal outturns per acre given in the Season and Crop Report of Burma for 1916-17.

APPENDIX B

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA

- Agasi, agati, or avati* (*Sesbania grandiflora*)—A vegetable crop.
- Ajmul* (*Carum Roxburghianum*)—A kind of spice.
- Ajwan* (*Carum copticum*)—A kind of spice, "Bishop's weed."
- Akurkura or jevandi* (*Chrysanthemum coronarium*)—A non-food crop.
- Amada or mamidi allam* (*Curcuma amada*)—A condiment.
- Ampazham* (*spondius magnifera*)—The hog plum.
- Arhar* (*Cajanus indicus*)—The pigeon pea.
- Arunelli* (*Phyllanthus distichus*)—Country star gooseberry.
- Bajra* (*Pennisetum typhoideum*)—The spiked millet.
- Bané* (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.
- Barbati* (*Figna catjang*)—Asparagus, a food grain.
- Barti* (see Wudalu).
- Bel* (*Ægle Marmelos*)—A fruit.
- Bhagdari* (see Narvadari).
- Bilimbi* (*Averrhoa Bilimbi*)—A fruit.
- Bimb* (*Cephalandra indica*)—A fruit.
- Chaplash* (*Artocarpus Chaplasha*)—A tree grown mainly for timber.
- Chayroot* (*Oldenlandia umbellata*)—A dye.
- Cheena* (*Panicum miliaceum*)—The common millet.
- Cheik* (*Coix lachryma-jobi*)—A food grain, "Job's Tear."
- Chikkulukayalu* (*Dolichos lablab*)—The Indian or popat bean.
- Cholam* (see Jowar).
- Cholanathu* (*Andropogon sorghum*)—Fodder jowar.
- Chowli* (see Barbati).
- Cumbu* (see Bajra).
- Dani* (*Nipa fruticans*)—A soboliferous palm, the leaves of which are used for thatching purposes, also for matting.
- Dhaincha* (*Sesbania aculeata*)—A plant cultivated mainly for green manure.
- Dhatuira* (*Datura alba*)—A drug.
- Dividivi* (*Cassalpinia coriara*)—A tanning material.
- Gajar*—Carrot.
- Garmal* (*Coleus barbatus*)—A fruit.
- Gondli* (see Kutki).
- Gorait* (United Provinces)—Village watchman.
- Henna* (*Lawsonia alba*)—A dye.
- Inám* (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are entire villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.
- (Coorg)—A grant of land by Government as a reward for services rendered or for religious or charitable purposes.
- Isfagul* (*Plantago ovata*)—A drug.
- Istamrári* (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned is charged with a permanently fixed quit-rent.
- Izáfat* (Bombay)—A form of service tenure.
- Izára* (Berar)—Land leased under the waste-land rules on stipulated terms.
- Jagír* (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.
- (Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.
- (Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.
- Jambo or naval*—Black plum.
- Jamma* (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX B—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued

Jenugulu—Asparagus.

Jinjili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, *minus* the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Jowar (*Sorghum vulgare*)—The great millet.

Kalparyu—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet.

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Koenigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kavathu (*Dioscorea alata*)—A tuber used as a food stuff.

Khalsa (Bombay)—Government occupancy or raiyatwari tenure.

—(Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

—(Berar, Ajmer-Merwara)—Land paying full revenue to Government.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khiraj (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Korai—The Indian matting sedge.

Kolinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Kuhudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (see *Kodo*).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (see *Barbati*).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Maraa (*Elusine coracana*)—A kind of millet.

Marukholundu (*Artemisia vulgaris*)—The Indian worm wood.

Mehwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX B—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued

- Munsarim* (Berar)—A head native revenue officer.
- Narnadari, Bhagdari* (Bombay)—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump and in the latter distributed by rates over fields.
- Neem or Margosa* (*Melia azadirachta*)—A non-food crop.
- Neerdi* (*Gynocordia odorata*)—An oilseed.
- Nela mulaka* (*Solanum xanthocarpum*)—The bogoda brinjal, a drug.
- Nisfkhiraj* (Assam)—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.
- Odumula* (*Ochlandra Rheedii*)—A reed.
- Ol or zaminkand*—The elephant foot, a root crop.
- Palampat* (Berar)—Land held on payment of a quit-rent, but not necessarily hereditary.
- Panchayat* (Bengal)—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.
- Papay* (*Carica papaya*)—A fruit.
- Parpattigar* (Coorg)—A revenue officer in charge of a sub-division of a taluk.
- Parvar* (see Patol).
- Patel* (Coorg)—Village headman appointed by Government.
- Patol* (*Trichosanthes dioica*)—A vegetable crop.
- Peshkash* (Madras)—The fixed land revenue payable to Government on all permanently-settled estates.
- Pimakottai or pouna*—The mast wood.
- Ponnagantikura* (*Alternanthera sessilis*)—A vegetable crop.
- Poramboke* (Madras)—Lands reserved for public or village communal purposes.
- Pôt ináms* (Bombay)—Lands sub-alienated in alienated villages.
- Pôt kharáb* (Berar)—The unculturable area included in a survey number.
- Puliyavara* (*Oxalis corniculata*)—A vegetable crop.
- Ragi* (see Marua).
- Randhuni* (see Ajmud).
- Rayatwari*—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.
- Śabai grass* (*Ischaemum Augustifolium*)—A fibre plant.
- Sank-alu* (*Pachyrhizus angulatus*)—A root crop.
- Supodilla* (*Achras Sapota*)—A fruit.
- Sebestan* (*Cordia Myxa*)—A fruit.
- Shanbóg* (Coorg)—A village accountant appointed by Government.
- Shrotriem* (Madras)—Village held on grant (originally to Brahmins), wholly or partially revenue-free.
- Siris tree or vagai* (*Albizzia Lebbek*)—A non-food crop.
- Sorrell* (*Rumex vesicarius*)—A vegetable crop.
- Sothar*.—Radish.
- Swank* (*Panicum frumentaceum*)—A food grain.
- Talukdari* (Bombay)—A form of proprietary right in force in the northern districts of Bombay.
- Tejpat* (*Cinnamomum Tamala* and *C. obtusifolium*)—A spice.
- Thathameda* (Upper Burma)—Household tax.
- Thattan payara* (see Barbati).
- Thekadar* (Central Provinces)—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.
- Thatke grass* (*Imperata arundinacea*)—A small perennial grass used chiefly for thatching purposes.
- Thugyi* (Burma)—A village headman.

APPENDIX B—*concluded*VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—*concluded*

Til (*Sesamum indicum*).—An oilseed.

Uchhe (*Momordica muricata*).—A vegetable crop.

Udai (*Acacia eburnea*).—A thorny tree used as fuel or for fencing purposes.

Udhad-jamabandi (Bombay).—A proprietary tenure subject to fixed assessment.

Umbli (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.

Unda (*Pongamia glabra*).—An oil seed.

Urad (*Phaseolus radiatus*).—Black gram.

Wudalu or barti (*Panicum flavidum*).—A food grain.

Zamindar.—The holder of an estate on a fixed assessment under a deed of permanent ownership granted by Government.

——— (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

Zamindari.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

——— (United Provinces).—An undivided estate held in joint tenure.

APPENDIX C

ALPHABETICAL LIST OF CROPS CULTIVATED IN INDIA AND THEIR CLASSIFICATION
IN TABLE III

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Agasi, agati or avati	<i>Sesbania grandiflora</i>	40. Fruits and Vegetables including root crops.
Agave	<i>Agave</i> spp.	25. Fibres—others.
Ajmud or Randhuni	<i>Carum Roxburghianum</i>	20. Condiments and spices.
Ajwan or Bishop's weed	<i>Carum Copticum</i>	20. " " "
Akurkura (<i>see</i> <i>Chrysanthemum</i>)		
Al (<i>see</i> <i>Morinda</i>)		
Aloes	<i>Aloe vera</i>	37. Drugs and Narcotics— others.
Alya (<i>see</i> <i>Cress</i>)		
Amada or Mamidi allam	<i>Curcuma Amada</i>	20. Condiments and spices.
Amaranths	<i>Amarantus</i>	41. Misc. food crops.
Ampazham (<i>see</i> <i>Plum</i>)		
Anise seed	<i>Pimpinella Anisum</i>	20. Condiments and spices.
Apple, wood	<i>Feronia elephantum</i>	40. Fruits and Vegetables including root crops.
" Rose	<i>Eugenia Jambos</i>	40. " " "
" Custard	<i>Anona squamosa</i> and <i>A. reticulata</i>	40. " " "
Areca nut or Betel nut	<i>Areca Catechu</i>	37. Drugs and Narcotics— others.
Arhar or pigeon pea	<i>Cajanus indicus</i>	10. Other food grains, etc.
Arnatto or Arnotto	<i>Bixa Orellana</i>	30. Dyes and Tanning Materials—others.
Arrowroot, West Indian	<i>Maranta arundinacea</i>	41. Misc. food crops.
" Wild or East Indian	<i>Curcuma augustifolia</i>	41. " " "
Artichoke	<i>Cynara Scolymus</i> or <i>Centaurea Cardunculus</i>	40. Fruits and Vegetables including root crops.
Arum (edible), Kachu or Kachalu	<i>Colocasia Antiquorum</i>	40. " " "
Arunelli (<i>see</i> <i>Gooseberry</i> , country star)		
Bajra (<i>see</i> <i>Millet</i>)		
Barbati, Lobia, Jumgulu, Thattan-payara or Chowli (<i>Asparagus</i>)	<i>Vigna Catjang</i>	10. Other food grains, etc.
Barley	<i>Hordeum vulgare</i>	4. Barley.
Barti (<i>see</i> <i>Wudalu</i>)		
Basil, sweet	<i>Ocimum Basilicum</i>	37. Drugs and Narcotics— others.
Beans	<i>Phaseolus lunatus</i>	40. Fruits and Vegetables including root crops.
" <i>Asparagus</i> (<i>see</i> <i>Barbati</i>)		
" Sword or Makhan Sim	<i>Canavalia ensiformis</i> , <i>C. gladiata</i>	40. Fruits and Vegetables including root crops.
" French	<i>Phaseolus vulgaris</i>	40. " " "
" Goa	<i>Psophocarpus tetragonolobus</i>	40. " " "
" Indian, Chikkudukayalu, or Popat	<i>Dolichos lablab</i>	40. " " "
" Kidney, Moth, or Kalpayaru	<i>Phaseolus aconitifolius</i>	40. " " "
" Soy	<i>Glycine hispida</i>	40. " " "
Beetroot	<i>Beta vulgaris</i>	40. " " "
Bel	<i>Ægle Marmelos</i>	40. " " "
Betel vine	<i>Piper Betle</i>	37. Drugs and Narcotics— others.
" nut (<i>see</i> <i>Arecanut</i>)		
Bhindi (<i>see</i> <i>Hibiscus</i> , edible)		
Bilimbi	<i>Averrhoa Bilimbi</i>	40. Fruits and Vegetables including root crops.
Bimb	<i>Cephalandra indica</i>	40. " " "
Bishop's weed (<i>see</i> <i>Ajwan</i>)		
Borage, country	<i>Coleus aromaticus</i>	37. Drugs and Narcotics— others.
Brinjal	<i>Solanum Melongena</i> , <i>S. longum</i>	40. Fruits and Vegetables including root crops.
" bogoda or nela mulaka	<i>Solanum xanthocarpum</i>	37. Drugs and Narcotics— others.
Buck wheat (<i>see</i> <i>Wheat</i>)		

APPENDIX C—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Cabbage	<i>Brassica oleracea</i>	40. Fruits and Vegetables including root crops.
Caraway or Jira	<i>Carum Carui</i>	20. Condiments and spices.
" Black or Shahjira	<i>Carum Bulbocastanum</i>	20. " " "
Cardamom Aromatic	<i>Amomum aromaticum</i>	20. " " "
" greater	" <i>subulatum</i>	20. " " "
" lesser	<i>Elettaria Cardamomum</i>	20. " " "
Carob or Locust tree	<i>Ceratonia Siliqua</i>	39. Fodder crops.
Carrot or Gajar	<i>Daucus Carota</i>	40. Fruits and Vegetables including root crops.
Cashew nut	<i>Anacardium occidentale</i>	40. " " "
Cassava	<i>Manihot utilisima</i> and <i>M. palmata</i>	40. " " "
Castor	<i>Ricinus communis</i>	17. Castor.
Cauliflower	<i>Brassica oleracea</i>	40. Fruits and Vegetables including root crops.
Celery	<i>Apium graveolens</i>	40. " " "
Chaplash (<i>see</i> Sam tree)		
Chayroot	<i>Oldenlandia umbellata</i>	30. Dyes and Tanning Materials—others.
Cheena (<i>see</i> Millet)		
Cheik (<i>see</i> Job's Tear)		
Chicory	<i>Cichorium Intybus</i>	40. Fruits and Vegetables including root crops.
Chickling Vetch (<i>see</i> Vetch)		
Chillies	<i>Capsicum sp.</i>	20. Condiments and spices.
Chikkudukayalu (<i>see</i> Beans, Indian)		
Cholum (<i>see</i> Millet)		
Cholanathu (fodder Cholum)	<i>Andropogon Sorghum</i>	39. Fodder crops.
Chowli (<i>see</i> Barbati)		
Chrysanthemum, Akurkura, or Jevandi	<i>Chrysanthemum coronarium</i>	42. Miscellaneous non-food crops.
Cinchona	<i>Cinchona sp.</i>	35. Cinchona.
Cinnamon	<i>Cinnamomum zeylanicum</i>	20. Condiments and spices.
Citron or lime or lemon	<i>Citrus medica</i>	40. Fruits and Vegetables including root crops.
Cloves	<i>Eugenia caryophyllata</i> or <i>Caryophyllus aromaticus</i>	20. Condiments and spices.
Coconut	<i>Cocos nucifera</i>	16. Coconut.
Coffee	<i>Coffea arabica</i>	32. Coffee.
Coriander	<i>Coriandrum sativum</i>	20. Condiments and spices.
Cotton	<i>Gossypium sp.</i>	23. Cotton.
Cress	<i>Lepidium sativum</i>	40. Fruits and Vegetables including root crops.
Cucumber	<i>Cucumis sativus</i>	40. " " "
Cumbu (<i>see</i> Millet)		
Cumin	<i>Cuminum Cyminum</i>	20. Condiments and spices.
Custard Apple (<i>see</i> Apple)		
Dani	<i>Nipa fruticans</i>	42. Miscellaneous non-food crops.
Date palm (<i>see</i> Palm)		
Dhaincha	<i>Sesbania aculeata</i>	42. Miscellaneous non-food crops.
Dhatura	<i>Datura alba</i>	37. Drugs and Narcotics— others.
Dill or Sowa	<i>Peucedanum graveolens</i>	18. Oilseeds—others.
Dividivi	<i>Casalpinia coriaria</i>	30. Dyes and Tanning Materials—others.
Drumsticks or Horse-radish	<i>Moringa pterygosperma</i>	40. Fruits and Vegetables including root crops.
Elephant foot, Zaminkand or Ol	<i>Amorphophallus campanulatus</i>	40. " " "
Elephant yam	<i>Tryphonium trilobatum</i>	40. " " "
Fennel	<i>Foeniculum vulgare</i>	20. Condiments and spices.

APPENDIX C—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Fenugreek	<i>Trigonella fœnum græcum</i> .	20. Condiments and spices.
Field Vetch (<i>see</i> Vetch)		
Fig	<i>Ficus Carica</i>	40. Fruits and Vegetables including root crops.
Flea-bane, purple	<i>Vernonia anthelmintica</i> .	37. Drugs and Narcotics— others.
Flowers		42. Miscellaneous non-food crops.
Gajar (<i>see</i> Carrot)		
Garlic	<i>Allium sativum</i>	20. Condiments and spices,
Garmal	<i>Coleus barbatus</i>	40. Fruits and Vegetables including root crops.
Gawar (<i>see</i> Vetch)		
Ginger	<i>Zingiber officinale</i>	20. Condiments and spices.
Goa bean (<i>see</i> Bean)		
Gondli (<i>see</i> Millet)		
Gooseberry, Cape—or tepari	<i>Physalis peruviana</i>	40. Fruits and Vegetables including root crops.
„ Country star or Arunelli	<i>Phyllanthus distichus</i>	40. „ „ „
Goose foot	<i>Chenopodium album</i>	40. „ „ „
Gourd, Snake	<i>Trichosanthes anguina</i>	40. „ „ „
„ Bottle	<i>Lagenaria vulgaris</i>	40. „ „ „
„ Towel	<i>Luffa acutangula</i>	40. „ „ „
„ Red or melon pumpkin	<i>Cucurbita maxima</i>	40. „ „ „
„ Melon, white	<i>Benincasa cerifera</i>	40. „ „ „
Gram	<i>Cicer arietinum</i>	9. Gram.
„ Field	<i>Phaseolus trilobus</i>	10. Other food grains, etc.
„ Green or Mung	<i>Phaseolus Mungo</i>	10. „ „ „
„ Horse or Kulthi	<i>Dolichos biflorus</i>	10. „ „ „
„ Black or Urad (Matikalai)	<i>Phaseolus radiatus</i>	10. „ „ „
Grape	<i>Vitis vinifera</i>	40. Fruits and Vegetables including root crops.
Groundnut	<i>Arachis hypogœa</i>	15. Groundnut.
Guava	<i>Psidium Guajava</i>	40. Fruits and Vegetables including root crops.
Guinea grass	<i>Panicum maximum</i>	39. Fodder crops.
Gumberry	<i>Cordia Rothii</i>	40. Fruits and Vegetables including root crops.
Hemp, Indian, or Ganja	<i>Cannabis sativa</i>	36. Indian Hemp.
„ Sunn	<i>Crotalaria juncea</i>	25. Fibres—others.
„ Deccan	<i>Hibiscus cannabinus</i>	25. „ „
„ Sisal	<i>Agave sisalana</i>	25. „ „
Henna	<i>Lawsonia alba</i>	30. Dyes and Tanning Materials—others.
Hibiscus, edible or bhindi	<i>Hibiscus esculentus</i>	40. Fruits and Vegetables including root crops.
Horse-radish (<i>see</i> Drumsticks)		
Indian Hemp (<i>see</i> Hemp)		
Indian worm wood (<i>see</i> Marukkolundu)		
Indigo	<i>Indigofera sumatrana</i> and <i>I. arrecta</i>	29. Indigo.
Isfagul	<i>Plantago ovata</i>	37. Drugs and Narcotics— others.
Jack fruit	<i>Artocarpus integrifolia</i>	40. Fruits and Vegetables including root crops.
Jambotree (<i>see</i> Plum, black)		
Jenugulu (<i>see</i> Barbati)		
Jevandi (<i>see</i> Chrysanthemum)		
Jinjili (<i>see</i> Sesamum)		
Jira (<i>see</i> Caraway)		
Job's Tear or Cheik	<i>Coix lachryma-jobi</i>	10. Other food grains, etc.
Jowar (<i>see</i> Millet)		

APPENDIX C—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	40. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	24. Jute.
Kachu or Kachalu (<i>see</i> Arum)		
Kakri (<i>see</i> Melon)		
Kalpayaru (<i>see</i> Beans, Kidney)		
Kamranga	Averrhoa Carambola	40. Fruits and Vegetables including root crops.
Kanda	Dracontium	40. " "
Kangni (<i>see</i> Millet)		
Kankrol	Momordica cochinchinensis	40. Fruits and Vegetables including root crops.
Kaon (<i>see</i> Millet)		
Kapok	Eriodendron anfractuosum	25. Fibres—others.
Karola	Momordica Charantia	40. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	20. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	40. Fruits and Vegetables including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	40. " " "
Kharbuja (<i>see</i> Melon)		
Khesari (<i>see</i> Vetch)		
Khurfa (<i>see</i> Purslane)		
Kidney bean (<i>see</i> Bean)		
Kirni	Mimusops hexandra	41. Miscellaneous food crops.
Kodo (<i>see</i> Millet)		
Korai (<i>see</i> Matting sedge, Indian)		
Kokam (<i>see</i> Mangosteen)		
Kolinji or vempali	Tephrosia purpurea	37. Drugs and Narcotics— others.
Koorka	Strobilanthes	40. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (<i>see</i> Gram)		
Kutki (<i>see</i> Millet)		
Lemon (<i>see</i> Citron)		
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	40. Fruits and Vegetables including root crops.
Lime (<i>see</i> Citron)		
Linseed	Linum usitatissimum	12. Linseed.
Lobia (<i>see</i> Barbati)		
Locust tree (<i>see</i> Carob)		
Lucerne	Medicago sativa	39. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	30. Dyes and Tanning Materials—others.
Mahua	Bassia latifolia and B. lon- gifolia.	41. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makhan Sim (<i>see</i> Beans, Sword)		
Mango	Mangifera indica	40. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	40. " " "
Mankachu	Alocasia indica	40. " " "
Margosa or Neem tree	Melia azadirachta	42. Miscellaneous non-food crops.
Marians	Bouea burmanica	40. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	20. Condiments and spices.
Marua (<i>see</i> Millet)		
Marukkolundu or Indian wormwood	Artemisia vulgaris	42. Miscellaneous non-food crops.

APPENDIX C—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Mast wood	Calophyllum inophyllum .	18. Oilseeds—others.
Mati kalai (<i>see</i> Black gram)		
Matting sedge, Indian or Korai	Cyperus corymbosus, C. tegetum.	25. Fibres—others.
Medlar, Indian	Vangueria edulis .	40. Fruits and Vegetables including root crops.
Melon, Kharbuja	Cucumis Melo .	40. " " "
" Kakri	Cucumis Melo var. momor- dica	40. " " "
" Musk	Cucurbita moschata .	40. " " "
" Water	Citrullus vulgaris .	40. " " "
" White Gourd (<i>see</i> Gourd)		
Metha (Fenugreek)	Trigonella fœnum-græcum	20. Condiments and spices.
Millet, Bulrush, Bajra or Cumbu	Pennisetum typhoideum .	6. Cumbu or Bjara.
" (Sorghum) or jowar or cholam	Sorghum vulgare .	5. Cholam or Jowar.
" Italian, Kangni, or Kaon	Panicum Italicum or Setaria italica .	10. Other food grains, etc.
" Kodo or Varagu	Paspalum scrobiculatum .	10. " "
" Little, Kutki, or Gondli	Panicum miliare .	10. " "
" Marua or Ragi	Elusine Coracana .	7. Ragi or marua.
" Common or Cheena	Panicum miliaceum .	10. Other food grains, etc.
Mint or Pudina	Mentha arvensis .	20. Condiments and spices.
Morinda or Al	Morinda tinctoria .	30. Dyes and Tanning Materials—others.
Moth (<i>see</i> Bean)		
Mulberry	Morus indica .	42. Miscellaneous non-food crops.
Mung (<i>see</i> Gram)		
Mustard	Brassica sp. .	14. Rape and Mustard.
Naval (<i>see</i> Plum, black)		
Neem tree (<i>see</i> Margosa)		
Neerali	Gynocordia odorata .	18. Oilseeds—others.
Niger Seed or Sorguja	Guizotia abyssinica .	18. Oilseeds—others.
Nutmeg	Myristica fragrans .	20. Condiments and spices.
Oats	Avena sativa .	39. Fodder crops.
Odamula (reeds)	Ochalandra Rheedii .	42. Miscellaneous non-food crops.
Ol (<i>see</i> Elephant foot)		
Onion	Allium Cepa .	20. Condiments and spices.
Opium	Papaver somniferum .	31. Opium.
Orache, garden (<i>see</i> spinach)		
Oranges	Citrus Aurantium .	40. Fruits and Vegetables including root crops.
Palm, Date	Phoenix sylvestris .	22. Sugar—others.
" Palmyra	Borassus flabellifer .	22. " " "
Papay	Carica papaya .	40. Fruits and Vegetables including root crops.
Parvar or Patol	Trichosanthes dioica .	40. " " "
Peach	Prunus persica .	40. " " "
Peas	Pisum sativum or Pisum arvense.	10. Other food grains, etc.
Peanut (<i>see</i> Groundnut)		
Pepper	Piper or Capsicum .	20. Condiments and spices.
" Black	Piper nigrum .	20. " " "
" Long	Piper longum .	20. " " "
Pigeon or bottle grass	Setaria glauca .	10. Other food grains, etc.
Pigeon pea (<i>see</i> Arhar)		
Pimakottai, Pouna (<i>see</i> Mastwood)		
Pine apple	Ananas sativa .	40. Fruits and Vegetables including root crops.
Plantain	Musa sapientum .	40. " " "
Plum, black, Jambo tree or Naval	Eugenia Jambolana .	40. " " "
" Hog, or Ampazham	Spondias mangifera .	40. " " "
Poi (<i>see</i> Spinach)		

APPENDIX C—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Pomegranate	<i>Punica granatum</i>	40. Fruits and Vegetables including root crops.
Pomelo	<i>Citrus decumana</i>	40. " " "
Ponnagantikura	<i>Alternanthera sessilis</i>	40. " " "
Potato	<i>Solanum tuberosum</i>	40. " " "
" Sweet	<i>Ipomoea Batatas, Batatas edulis.</i>	40. " " "
Pudina (<i>see</i> Mint)		
Puliyavara	<i>Oxalis corniculata</i>	40. Fruits and Vegetables including root crops.
Pumpkin	<i>Cucurbita pepo</i>	40. " " "
Pumpkin Melon (<i>see</i> Gourd, red)		
Radish or Sother	<i>Raphanus sativus</i>	40. Fruits and Vegetables including root crops.
Ragi (<i>see</i> Millet)		
Randhuni (<i>see</i> Ajmud)		
Rapeseed	<i>Brassica sp.</i>	14. Rape and Mustard.
Raspberry	<i>Rubus lasiocarpus</i>	40. Fruits and Vegetables including root crops.
Rhea	<i>Bœhmeria nivea</i>	25. Fibres—others.
Rice	<i>Oryza sativa</i>	2. Rice.
Rose apple (<i>see</i> Apple)		
Roselle	<i>Hibiscus subdariffa</i>	40. Fruits and Vegetables including root crops.
Rubber (India)	<i>Hevea brasiliensis, manihot Glaziovii.</i>	42. Miscellaneous non-food crops.
Sabai grass	<i>Ischœmum augustifolium</i>	25. Fibres—others.
Safflower	<i>Carthamus tinctorius</i>	30. Dyes and Tanning Materials—others.
Saffron	<i>Crocus sativus</i>	30. " " "
Sage	<i>Salvia officinalis</i>	20. Condiments and spices.
Sam tree or Chaplash	<i>Artocarpus Chaplasha</i>	42. Miscellaneous non-food crops.
Sank-alu	<i>Pachyrhizus angulatus</i>	40. Fruits and Vegetables including root crops.
Sapodilla	<i>Achras Sapota</i>	40. " " "
Sawan (<i>see</i> Swank)		
Sebestan	<i>Cordia myxa</i>	40. Fruits and Vegetables including root crops.
Senna	<i>Cassia angustifolia and C. ovata.</i>	37. Drugs and Narcotics— others.
Sesamum, til or jinjili	<i>Sesamum indicum</i>	13. Sesamum.
Shahjira (<i>see</i> Caraway, black)		
Shama (<i>see</i> Swank)		
Singhara or water caltrop	<i>Trapa bispinosa</i>	40. Fruits and Vegetables including root crops.
Siris tree or vagai	<i>Albizia Lebbek</i>	42. Miscellaneous non-food crops.
Sisal hemp (<i>see</i> Hemp)		
Soapnut or Kumkudu-Kaya	<i>Sapindus trifoliatus</i>	37. Drugs and Narcotics— others.
Sorguja (<i>see</i> Niger seed)		
Sorrell	<i>Rumex vesicarius</i>	40. Fruits and Vegetables including root crops.
Sowa (<i>see</i> Dill)		
Sother (<i>see</i> Radish)		
Soy bean (<i>see</i> Bean)		
Spelt wheat (<i>see</i> Wheat)		
Spinach	<i>Spinacea oleracea</i>	40. Fruits and Vegetables including root crops.
" Indian or poi	<i>Basella alba</i>	40. " " "
" Mountain, or Garden Orache	<i>Atriplex hortensis</i>	40. " " "
Strawberry	<i>Fragaria vesca</i>	40. " " "
Sugarcane	<i>Saccharum officinarum</i>	21. Sugarcane.

APPENDIX C—concluded.

ALPHABETICAL LIST OF CROPS—concl'd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Sunflower	Helianthus Annuus	18. Oilseeds—others.
Swallow-wort	Calotropis sp.	25. Fibres—others.
Swank, Sawan, or Shama	Panicum frumentaceum	10. Other food grains, etc.
Sweet flag	Acorus Calamus	37. Drugs and Narcotics— others.
Sweet potato (<i>see</i> Potato)		
Tamarind	Tamarindus indica	20. Condiments and spices.
„ Manila	Pithecolobium dulce	40. Fruits and Vegetables including root crops.
Taramira	Eruca sativa	14. Rape and Mustard.
Tea	Camellia Thea	33. Tea.
Tejpat	Cinnamonum Tamala and C. obtusifolium.	20. Condiments and spices.
Tepari (<i>see</i> Gooseberry)		
Thattan-payara (<i>see</i> Barbati)		
Thetkè (grass)	Imperata arundinacea	42. Miscellaneous non-food crops.
Til (<i>see</i> Sesamum)		
Tobacco	Nicotiana Tabacum and N. Rustica.	34. Tobacco.
Tomato	Lycopersicum esculentum	40. Fruits and Vegetables including root crops.
Tori, Toria	Brassica Napus	14. Rape and Mustard.
Turmeric	Curcuma longa	20. Condiments and spices.
Turnip	Brassica Rapa	40. Fruits and Vegetables including root crops.
Uchhe	Momordica muricata	40. „ „ „
Udai	Acacia eburnea	42. Miscellaneous non-food crops.
Unda	Pongamia glabra	18. Oilseeds—others.
Urad (<i>see</i> Gram)		
Varagu (<i>see</i> Millet)		
Vagai (<i>see</i> Siris tree)		
Vempali (<i>see</i> Kolinji)		
Vetch, Field or gawar	Cyamopsis psoralioides	39. Fodder crops.
„ Chickling or khesari	Lathyrus sativus	10. Other food grains, etc.
Water caltrop (<i>see</i> Singhara)		
„ melon (<i>see</i> Melon)		
Wheat	Triticum sativum	3. Wheat.
„ Buck	Fagopyrum esculentum	10. Other food grains, etc.
„ Spelt	Triticum sativum var Spelta.	3. Wheat.
Wood apple (<i>see</i> Apple)		
Wudalu or barti	Panicum flavidum	10. Other food grains, etc.
Yams	Dioscorea sp.	40. Fruits and Vegetables including root crops.
Zaminkand (<i>see</i> Elephant foot)

Agricultural Statistics of India

1920-21

VOLUME II—INDIAN STATES

Introductory Note

This volume deals with statistics for Indian States as far as reported. General As in the previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, and the area under crops for each State or group of States, and the totals for all the reporting States. The total number of cattle as far as reported in each of the years 1906-07 to 1920-21 has also been included in the general summary table (No. 1). These statistics are defective for comparative purposes, as additions have been made in the number of reporting States from time to time. The States of Dholpur, Rampur, and Tehri-Garhwal have for the first time furnished figures for 1920-21. Details for ten years have been added in each table for groups of States. Two charts and an index for easy reference have been added to the volume.

It should be noted that, for the reasons explained below, the agricultural statistics of Indian States are incomplete and are of far less accuracy than those of British Provinces published in Volume I. As these States comprise one-third of the total area of India, the importance of their statistics in the all-India returns can scarcely be over-estimated.

The total area of Indian States is approximately 496,000,000 acres (775,000 square miles), with a population of 73 millions according to the census of 1921. These are divided for the purposes of agricultural statistics into two main classes, namely, (1) States within the jurisdiction of Local Governments and Administrations, and (2) States having direct political relations with the Government of India.

(1) *States within the jurisdiction of Local Governments and Administrations.*—The total area of these States is 181,425,000 acres, with a population of 30 millions. They are divided into the following main groups:—

	Area Thousand acres	Population Thousands
Bombay and Sind States	40,878	7,409
Madras States	6,846	5,460
Punjab States	24,511	4,416
Bihar and Orissa States	18,335	3,960
Central Provinces States	19,960	2,067
North-West Frontier Province States (including Tribal areas)	16,320	2,825
Burma States (including Shan States)	38,780	1,497
United Provinces States	4,348	1,135
Bengal States	3,477	897
Assam States	7,970	384
Total	181,425	30,050

The total area of all these States (with the exception of the greater part of the South Shan States and Karenne in Burma and the Tribal areas in the North-West Frontier Province) is included in the areas of the respective British Provinces stated in column 2 of table I of Volume I (British India), but is shown separately in column 3 of that table in order to arrive at the net area of British territory (in column 5) dealt with in that volume. Of these States,

agricultural statistics are at present available only for the following thirty-eight States in the Madras and the Bombay Presidencies, the Punjab, and the United Provinces, and are dealt with in this volume :—

	Area Thousand acres	Population Thousands
<i>Madras States—</i>		
Travancore	4,416	4,006
Cochin	947	979
Pudukkottai	754	427
Banganapalle	164	37
Sandur	101	12
<i>Bombay States—</i>		
Bhavnagar	1,808	426
Dharampur	450	95
Jath	571	83
Phaltan	254	43
Aundh	321	65
Sachin	29	20
<i>Punjab States—</i>		
Patiala	3,795	1,500
Jind	853	308
Nabha	620	263
Bahawalpur	12,700	781
Sirmur (Nahan)	632	140
Kalsia	123	57
Pataudi	34	18
Loharu	143	21
Dujana	57	26
Kapurthala	420	284
Malerkotla	107	80
Faridkot	412	151
Simla Hill States (comprising Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan, and Koti)	3,231	405
<i>United Provinces States—</i>		
Benares	574	363
Rampur	571	454
Tehri-Garhiwal	2,880	318
Total	36,967	11,862

(2) *States having direct political relations with the Government of India.*—
These are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Hyderabad	51,256	12,472
Mysore	18,865	5,979
Baroda	5,117	2,127
Gwalior	16,511	3,186
Kashmir	53,925	3,321
Rajputana States	82,552	9,844
Central India States	32,980	5,997
Baluchistan (States)	51,462	379
Sikkim	1,804	82
Total	314,472	45,387

No agricultural statistics are at present available for Baluchistan States, and Sikkim. Of the remainder, returns are received from the following twenty-two States :—

	Area Thousand acres	Population Thousands
Hyderabad	51,256 (a)	12,472
Mysore	18,865	5,979
Baroda	5,117	2,127
Gwalior	16,511	3,195
Kashmir	53,925	3,321

(a) Excludes Sarfikhaz District of Atrafi-Balda (Crown lands) and the City proper.

<i>Rajputana States —</i>							Area Thousand acres	Population Thousands
Jaipur	.	.	.	.	.	.	10,676	2,339
Bikaner	.	.	.	.	.	.	14,922	660

<i>Central India States—</i>								
Indore	.	.	.	.	.	.	6,080	1,152
Bhopal	.	.	.	.	.	.	4,657	692
Rajgarh	.	.	.	.	.	.	613	115
Narsingarh	.	.	.	.	.	.	469	101
Barwani	.	.	.	.	.	.	754	120
Nagod	.	.	.	.	.	.	321	68
Total							218,385	36,889

The total area of all the sixty reporting States named above amounts to 255,352,000 acres,* with a population of 48 millions. These States, therefore, represent 51 per cent of the total area, and 66 per cent of the total population, of all the Indian States.

The earliest years from which the statements of agricultural statistics have been received from these sixty reporting States are noted below :—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, Bahawalpur	1907-08
Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, Simla Hill States (12 in number)	1908-09
Kashmir	1910-11
Baroda, Bundi, Phaltan, Aundh, Sachin, Jath	1918-19
Hyderabad, Benares, Bhavnagar, Dharampur	1919-20
Dholpur, Rampur and Tehri-Garhwal	1920-21

The returns for the different States relate to the years ending on the dates stated below, so far as information is now available :—

Bikaner, Sandur, and Banganapalle	year ended 31st March
Jath, Phaltan, and Aundh	June
Mysore, Baroda, Pudukkottai, Cochin, Travancore, Gwalior, Indore, Narsingarh, Nagod, Bikaner, Kishangarh, Bharatpur, Kotah, Patiala, Dharampur, Benares and Tehri-Garhwal	30th June
Bundi	19th July
Sachin	31st July
Jaipur	31st August
Marwar, Jhalawar, Bhopal, Barwani, Rampur and Dholpur	30th September
Hyderabad	5th October
Tonk, Rajgarh, Alwar	31st October

From the total area of all the sixty reporting States (255,352,000 acres*), deduction must be made of 122,603,000 acres for which statistics are

* The difference between this figure and the total area as shown in column 2, Table I on page 12 is due to the inclusion of complete area figures for Barwani and Simla Hill States from the Census of 1921.

not available. These comprise chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures. The net area actually covered by these statistics is, therefore, only 132,749,000 acres by professional survey,* or 132,969,000 acres according to village papers.*

Table II,
Classification of area

	Thousand acres	Per cent	
Forests	17,569	13.2	shown in the margin. About
Not available for cultivation . .	23,811	17.9	17,569,000 acres, or 13.2 per
Culturable waste other than fallow .	18,032	13.5	cent of the total, are occupied
Current fallows	19,615	14.7	by forests; and the area not
Net area sown	54,172	40.7	available for cultivation, that
Total	133,199†	100	is, land absolutely barren, or

uses other than agriculture, amounts to 23,811,000 acres or 17.9 per cent. The balance, 91,819,000 acres or 68.9 per cent, represents the area available for cultivation. Of this, 18,032,000 acres, or 13.5 per cent of the total area, represent culturable waste, *i.e.*, land available for cultivation but not taken up, and 19,615,000 acres, or 14.7 per cent, were kept fallow in the year under report. The net area actually sown in the year was thus 54,172,000 acres (40.7 per cent of the total area). This net area sown, however, excludes areas sown more than once in the year. If areas sown more than once (as noted below) are taken as separate area for each crop, the gross area sown in the year of report amounts to 57,236,000 acres.

Table III,
Area under irrigation

The total area irrigated in the reporting States during 1920-21 was 8,145,000 acres, as against 8,309,000 acres in the preceding year. Of this, 2,401,000 acres were irrigated from Government canals, 835,000 acres from private canals, 1,158,000 acres from tanks, 2,024,000 acres from wells, and the remaining 1,727,000 acres from other sources of irrigation. These figures, however, do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas sown more than once are counted as separate area for each crop, the gross area of irrigated crops amounts to 10,922,000 acres. Of this area, 9,525,000 acres were under food crops.

Table IV,
Area under crops

	Thousand acres	Per cent of total	
Food-grains	41,613	73.3	above, 57 million acres in 1920-21. The
Condiments and spices	430	.8	different classes of crops and the area occu-
Sugar	181	.3	ped by each, so far as details are available,
Fruits and vegetables	410	.7	are stated in the margin. Of the total area
Miscellaneous food-crops	1,289	2.2	sown, food crops occupied about 43,923,000
Total food crops	43,923	77.3	acres or 77.3 per cent and non-food crops
Oilseeds	4,189	7.4	about 12,868,000 acres or 22.7 per cent.
Fibres	5,201	9.2	Of the food-crops, food grains (cereals and
Dyes and tanning materials	115	.2	pulses) occupied as much as 41,613,000
Drugs and narcotics	438	.8	acres, or 73.3 per cent of the total
Fodder crops	2,094	3.7	area sown, and other food crops (con-
Miscellaneous non-food crops	831	1.4	diments and spices, sugar, fruits and
Total non-food crops	12,868	22.7	vegetables, and miscellaneous food crops

food crops, oilseeds occupied 4,189,000 acres or 7.4 per cent of the total area sown, fibres such as cotton, hemp, etc., 5,201,000 acres or 9.2 per cent, and fodder crops 2,094,000 acres or 3.7 per cent. The other non-food crops, namely, dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), and miscellaneous non-food crops together, covered some 1,384,000 acres or 2.4 per cent of the total.

The total extent of land on which more than one crop was raised during the year was 3,064,000 acres.

* For explanation of the terms "professional survey" and "village papers," see footnotes to Table I (page 6) of this Volume and the Note prefixed to Volume I.
† See footnote (d) on page 24 of the Tables.

Table V is prepared by forty-eight States, namely, Hyderabad, Mysore, Baroda, Gwalior, Kashmir, Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bikaner, Marwar, Jaipur, Kishangarh, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Dholpur, Jath, Phaltan, Aundh, Sachin, Bhavnagar, Dharampur, Benares, Rampur, Tehri-Garhwal, Jhabua, Jobat, Sailana, Ali-Rajpur, Piploda, Dewas (Junior), Maihar, Chhatarpur, Dhar, Rutlam, Panna, and Karpurthala. According to the latest statistics, the total number of live-stock of the bovine class (bulls, bullocks, cows, buffaloes, and young stock, *i.e.*, calves and buffalo calves) is 33,399,000, that of the ovine class (sheep and goats) 18,775,000, and that of horses and ponies, mules, donkeys, and camels 957,000. The numbers of ploughs and carts are 4,280,000 and 1,185,000, respectively.

Table V,
Live-stock

Table VI (Land Revenue) is prepared by thirty-two States, namely, Hyderabad, Mysore, Gwalior, Kashmir, Pudukkottai, Banganapalle, Sandur, Cochin, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bikaner, Marwar, Jaipur, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Dholpur, Jath, Phaltan, Aundh, Sachin, Dharampur, Benares, Rampur, and Tehri-Garhwal.

Table VI,
Land Revenue

The Appendix explains the vernacular terms used in this volume, and the charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area sown in 1920-21 with shares of food and non-food crops.

Note.—The entries in this table regarding the classification of area and areas under food and non-food crops comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07; to which were added those for Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, and Bahawalpur from 1907-08; for Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, and the Simla Hill States from 1908-09; for Kashmir from 1910-11, for Baroda, Phaltan, Aundh, Sachin, Jath, and Bundi from 1918-19; for Hyderabad, Benares, Bhavnagar and Dharampur from 1919-20; and for Dhulpur, Rampur, and Tehri-Garhwal from 1920-21.

* The entries regarding cattle comprise Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07; to which were added those for Indore, Rajgarh, and Narsingarh from 1907-08; for Bhopal, Barwani, and Nagod from 1908-09; for Banganapalle and Cochin from 1910-11; for Pudukkottai from 1916-17; for Sandur, Baroda, Aundh, Phaltan, Sachin, Jath, and Bundi from 1918-19; and for Hyderabad, Benares, Bhavnagar, Dharampur, Jhabua, Jobat, Sailana, Ali-Rajpur, Piploda, Dewas (Junior), Maihar, Chhatarpur, Dhar, Rutlam, Panna, Travancore, and Kapurthala from 1919-20; and for Kashmir, Dhulpur, Rampur, and Tehri-Garhwal from 1920-21. Detailed figures for the States for ten years are given in Table V (pages 142-177)

(a) Excluding areas for which no returns are available.

(b) Condiments and spices, fruits and vegetables, and miscellaneous food crops.

(c) Cinchona, Indian hemp, other dyes and tanning materials, other drugs and narcotics, and miscellaneous non-food crops.

(d) The total of food crops and non-food crops shown here does not agree with the total sown area shown in Summary Table No. 4 for the reasons stated in the footnotes to that table (page 5).

(e) Included in "Young stock (calves)."

(f) Figures for previous years are included in "Other oilseeds."

(g) Figures for previous year are included in "Fruits and vegetables."

(h) See footnote (c) on page 24.

(i) " " " (d) " " "

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best available information.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and IV are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures, which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and IV is correspondingly increased.

Columns 4 and 5.—Column 4 is a check on the accuracy of column 5. In the latter, "village papers" mean "the papers prepared by the village accountants." In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (a) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(a) See footnote (a) on page 14.

(b) See footnote (a) on page 16.

1920-21	3,794,780	...	3,794,780	3,794,780

See explanations given in the footnotes (page 6).

(a) *Column 2.*—As there has been no revenue survey so far, this column states the area of the State according to the best available information. *Column 3* states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. *Columns 4 and 5.*—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4.

(b) *Column 3* states the area held by jagirdars and udakdars, as well as the muafi plots in khalsa villages for which no separate record is maintained.

Table I—continued

No. 5—AREA (in acres) OF EACH STATE—continued

1920-21	252,513,752	119,764,579	132,749,173	132,969,410

(a) Statistics are furnished by twelve States of this group, namely, Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan and Koti, the last but one from 1911-12 and the last one from 1918-19. These represent about 86 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate only to the settled portions of the reporting States, except Bilaspur, Baghal, and Mehlog, for which complete returns have been received. Column 2 states the area of the settled portions of the States named above, except Bilaspur, Baghal, and Mehlog, for which the whole area is included.

(a) Column 2 states the whole area of the State according to the Census of 1921. Column 3 states the areas of Bhadarwa and Punch, certain unsettled areas and frontier tracts which are not directly looked after by the Revenue Department of the State, and also certain other areas for which returns are not available. Columns 4 and 5 entirely exclude the area of Bhadarwa (Jagir) and Punch and Frontier Ilagas.

(b) Column 2 states the whole area of the State, excluding the areas covered by the Indore Residency, the Mhow Cantonment, and the Hiralpur Thakurate. Column 3 states the areas of jagir, istamar, and forest villages, and also of some of the outbandi villages.

(c) Column 3 states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State.

(d) Column 3 states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.

Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases.

(f) Details not available.

(e) Includes Marote and Nawa Districts.

(a) Column 2 states only the khalsa area, forming about one-third of the whole area of the State. The whole area of the State according to the Census of 1921 is 10,676,480 acres, which is shown in table No. 5. Column 3 states the area of detached revenue-free plots situated in khalsa villages.

(b) Column 3 states the area of jagir villages.

(c) Columns 2 and 4 state the area of the State according to the professional survey of 1855. Column 5 states the area of the State according to the settlement records.

(d) Column 3 states the area of entire jagir and muafi villages, which have not yet been surveyed, and the detached revenue-free plots situated in khalsa villages.

Column 2.—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown), an explanation being given in a note.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the area sown. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

(a) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the revenue settlement of the State.

(b) See footnote (c) on page 24. (c) See footnote (d) on page 24.

See explanations given in the footnotes (page 16).

(a) Column 2 states the area of reserved forests within surveyed villages

(b) Column 2 states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns 3 and 4 also include same forest areas. Column 4 states areas of land left uncultivated for over three years of *bir* (grass lands) and of pasture lands. Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

(c) Includes 8,215 acres in coffee estates.

(a) Includes figures in columns 3 and 4 and partly those in columns 5 and 6

(b) includes area in column 3

(c) The difference of 445,453 acres between this figure and the sum of those in the preceding columns is due to the overlapping of areas in columns 3, 4, 5, and 6 with column 2 in Mahbubnagar and Warangal districts.

(d) The difference of 229,626 acres between this figure and the sum of those in the preceding columns is due to the overlapping of areas in columns 3, 4, 5 and 6 with column 2 in Mahbubnagar and Warangal districts.

Column 2 states the areas of state and district forests and of plantations.
Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.
Column 4 states unoccupied assessed waste.
Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.

Columns 2 to 7 state the area actually irrigated during the year, areas sown more than once being counted once only.

(a) Included in column 14

(b) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the Revenue Settlement of the State.

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7).

(a) Included in column 16.

(b) Incomplete

(c) Includes 120,384 acres for which details are not available

(d) Included in column 14

(e) Included in column 18

Note—In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulae prescribed by higher authorities.

(a) See footnote (b) on page 91.

(b) Includes millets, maize and gram.

See explanations given in the footnote (page 74).

(a) In Travancore, no accounts are kept regarding the area under each crop, and the figures shown in this table, up to 1917-18 are based on very rough estimates. An improved system has been introduced by the Darbar according to which accurate figures are available in some cases from 1918-19.

AREA UNDER CROPS (ALL STATES)

NOTE.—Until 1898-99 statistics were collected every year by the *shanbog* and *patel* of each village by enquiry or inspection. Since that year a census has been taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in January 1921. Live-stock in municipalities are included

Entry 2 (a)—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3—This column should be sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

See explanations given in the footnotes (page 178)

* These are *khalsa* or State lands only. The whole area of the State is stated in Table I—No. 5

** *Alwar*.—The classes of tenure are *zamin-dari* and village communities, the former comprising *zamin-dari-bil-ijmal* and the latter *pattidari* and *bhaiyachara*. Item 1 states the area by village papers (column 5 of Table I). Item 2 (a) shows areas covered with forests (column 2 of Table II) which are wholly revenue-free

† *Jhalaware*.—The whole area stated in this table is classed as “*Khatedari*” and “*Watendari*” equivalent to “*rai-yatwari*” and “*zamindari*” respectively. Item 1 excludes entire villages held by *jagirdars* and *udakdars*

* No information

Entry 4—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 5—The population in entry 5 is that of the last general census.

** Entry 7—As in entry 4, but only ordinary land revenue on fully assessed areas is to be entered

See explanations given in the footnotes (page 182)

* See explanation given in footnote (page 195)

† Narsingarh—Item 1 states the net area by revenue survey as shown in column 4 of Table I. Item 2 (a) includes forest areas (column 2 of Table II) and unculturable (column 3 of Table II) and culturable land not possessed by any cultivator. Item 2 (b) states the area of minor muafis. Item 3 (b) includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them.

* No information

Column 2 states the net area by survey (column 4 of Table I)
Column 4 (a) includes area not fully assessed which cannot be separated from area fully assessed
Column 5 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue
Column 8 states only ordinary land revenue with cesses
Columns 9 and 10.—The figures in these columns represent the incidence of land revenue on areas both fully and partially assessed
Column 11 includes population of area not fully assessed which cannot be separated from that of fully assessed area

Column 4 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table IV.

Columns 5 and 6 relate only to khalsa area, as statistics for these columns are not available for the whole area of the State.

TOTAL		23,71,562	2 — 3	4 10 11	515,401	4 9 8	3	55,333

Column 1—The State area leased to cultivators for a fixed term is returned as *raiayatwari*. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as *zamindari—temporarily settled*; and the rest of the area (i.e., the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area) is entered as *zamindari—permanently settled*.

Column 3 includes musafi, chaauth, and istamar areas.

Column 6—The population stated is that of the last census.

Column 11 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

† No information.

Column 2 states the area by village papers (column 5 of Table I).

Column 6 includes population of the muafi and jagir villages excluded from column 2.

APPENDIX

Vernacular terms used in the Explanatory Notes.

- Bhaiyachara* (Alwar).—Villages held by a number of families, by possession without reference to shares.
- Bir* (Narsingarh).—Grass lands.
- Bunds* (Alwar).—Embankments.
- Chauth* (Bharatpur).—Land paying one-fourth of the rental.
- Ilaka* (*Ilaqa*).—An estate or dependency, a property.
- Inám* (Mysore).—Wholly or partially revenue-free tenure ; *minor ináms* are plots of inám lands situated in a village, whether Government or inám.
- Istamrdr* (Gwalior, Indore, Bharatpur).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
- (Alwar).—A tenure which, though favourably assessed, is charged with a permanently fixed quit-rent.
- (Bharatpur).—Land paying a reduced permanently fixed *jama* (assessment).
- Jagir* (Mysore, Gwalior, Kishangarh, Kotah, Narsingarh).—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Indore, Barwani).—Land granted revenue-free on condition of military service or as a charitable endowment or in recognition of good services rendered to the State.
- (Bikaner).—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Alwar).—Assignment of land revenue, with or without condition of military service and payment of commutation dues, granted in recognition of meritorious services to relations of the ruling chief or other high officials of the State.
- (Kishangarh).—Land granted revenue-free on condition of military service either actually rendered or fulfilled by a rateable money contribution.
- Jagirdar* (Jhalawar).—Holder of jagir land.
- Jodi* (Mysore).—A whole inám village paying quit-rent to Government.
- Kayamgutta* (Mysore).—A whole village granted by the State on fixed money-rent.
- Khalsa* (Gwalior, Jaipur, Bikaner, Marwar, Bharatpur).—Land paying full revenue to the State.
- Khatedari* (Jhalawar).—Same as *raiyatwari*.
- Muafi* (Gwalior, Alwar, Kotah, Bharatpur, Kishangarh).—Land granted free of revenue.
- Out-bandi* (Indore).—Assessment of revenue calculated at a fixed rate per plough.
- Patel* (Mysore).—Village headman appointed by Government.
- Pattidari* (Alwar).—Villages held by a number of families, by shares, ancestral or customary.
- Patwari* (Narsingarh).—Village revenue officer or accountant.
- Raiyatwari* (Bharatpur).—State area leased to cultivators for a fixed term.
- Rundhs* (Bharatpur).—State grass preserves.
- Sarvamanayam* (Mysore).—An inám village, wholly revenue-free.
- Shanbóg* (Mysore).—A village accountant appointed by Government.
- Tanka* (Gwalior).—Estate held by certain families who were in power when the country was annexed and who were left in possession of their estates on payment of a fixed annual tribute, or *tanka*, bearing but a small proportion to the annual assets.
- Ubari* (Gwalior).—Land held at an abatement of the full land revenue.
- Udakdar* (Jhalawar).—Holder of a Ubári estate.
- Watendari* (Jhalawar).—Same as *Zamindari*.
- Zamindari* (Bharatpur).—Estate on a fixed assessment under a deed of permanent ownership granted by the State.
- Zamindari-bil-ijmal* (Alwar).—Villages held jointly by a body of owners.

Agricultural Statistics of India

1921-22

VOLUME I—BRITISH INDIA

Introductory Note

This annual volume is the thirty-eighth of the series started in 1886 with statistics for 1884-85. As in the previous issue, figures for twenty years are shown in Summary table No. 1 and for ten years in the provincial tables. The district tables have been omitted from the present issue with a view to effect economy and to make the volume more handy and useful. A map showing the departure from the normal of sown area and that of rainfall in 1921-22 and other charts as detailed in the last paragraph of this note have, as usual, been incorporated in the volume. A new Appendix (Appendix B) explaining provincial figures in each table, which were formerly shown as foot notes to district tables, has been added to the volume in the present issue.

The statistics are compiled from annual returns furnished by local authorities, namely, the Government of Bengal, of Bombay, and of Assam, the Chief Commissioner, Coorg, the Revenue Commissioner, North-West Frontier Province, the Commissioner, Ajmer-Merwara, the Commissioner of Settlements and Land Records, Burma, the Directors of Agriculture, Madras and Bihar and Orissa, the Directors of Land Records, the Central Provinces, the Punjab, and the United Provinces, the Deputy Commissioner, Delhi, and the Political Agent in the Southern States of Central India, Manipur. The statistics are given in seven separate tables, namely, I—Area; II—Classification of area; III—Area under irrigation; IV—Area under crops; V—Live-stock, ploughs, and carts; VI—Land Revenue assessment; and VII—Harvest prices. The totals of the figures given in these tables are shown in a series of summary tables, to which a table on world crops is added. In addition to these, there are four appendices, namely, Appendix A dealing with the average yields per acre of principal crops in each province*; Appendix B containing explanatory notes which are essential for the understanding of the different tables for the different provinces; Appendix C giving the meaning of vernacular terms used in the volume; and Appendix D containing an alphabetical list of crops cultivated in India and their classification in Table IV. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Indian States† as far as they are reported.

The year to which the returns relate ends on 30th June, this being the generally recognised agricultural year, except in Assam where the year is taken to end on 31st March and in the Central Provinces and Berar where it is taken as ending on 31st May. It should, however, be borne in mind that statistics relating to areas irrigated (Table III) and areas under crops and specification of crops (Table IV) generally include both the *kharif* and the *rabi* crops, and therefore actually relate to the year ended with the harvesting of the *rabi* or spring crops.

* These together with district figures are separately published in the blue book entitled 'Quinquennial Report on the average yield per acre of principal crops in India, 1921-22.'

† In Appendix A (Volume I), however, figures relating to the Mysore State are shown separately.

Total area and
population of India

The total area of India is 1,813,000* square miles, or 1,160,172,000 acres, with a population of 319 millions according to the census of 1921. This may be divided as follows :—

	Acres	Population
(1) British Provinces (including Indian States within the political jurisdiction of Local Governments and Administrations)†	793,086,000	272,469,000
(2) Indian States having direct political relations with the Government of India	316,141,000	43,386,000
(3) Certain specially administered territories in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	16,239,000	2,583,000
(4) British Baluchistan (including administered areas)	34,706,000	421,000
Total	1,160,172,000	318,859,000

No returns of agricultural statistics are prepared either for item (3) certain specially administered territories in the North-West Frontier Province, or for item (4) British Baluchistan.

Table I
Total area

The total area of the British Provinces (item 1 above) dealt with in this volume—793,086,000 acres or 1,239,000 square miles—includes 126,467,000 acres, with a population of some 26 millions, belonging to Indian States,† which are within the political jurisdiction of Local Governments and Administrations. These States comprise Manipur and the Khasi and Jaintia Hill States in Assam; Cooch Bihar and Tripura in Bengal; the Tributary States of Orissa and Chota Nagpur in Bihar and Orissa; Rampur, Tehri, and Benares in the United Provinces; the Punjab Agency States‡, the Ambala Division States, and the Simla Hill States in the Punjab; the Phulera and Upper Tanawal States in the North-West Frontier Province; the Khairpur State; in Sind; the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States in Bombay; the Chhattisgarh States in the Central Provinces; and the States‡ of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur in Madras. Of these States, agricultural statistics are prepared for most of the States in the Punjab and the United Provinces, all the States in Madras and a few States in Bombay; but they are dealt with in Volume II along with the States having direct political relations with the Government of India (item 2).

Thus, by deducting 126,467,000 acres belonging to Indian States from the total area of 793,086,000 acres included in British Provinces, the remainder, 666,619,000 acres, is shown in Table I, and this represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The agricultural statistics are, however, prepared in a number of provinces or parts of provinces from “village papers,” i.e., papers prepared by the village accountants for the purpose of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are: (a) while the surveyed area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas, and (b) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 663,508,000 acres, as against 666,619,000 acres according to the professional survey.

*The difference between this area and that shown in the Census report of 1921 is due mainly to the exclusion of certain tracts of Burma especially Putao, from the Census return. A considerable part of Putao amounting to over 6 million acres is excluded from the Census report.

†Some of these States have since come under direct political relationship with the Government of India (item 2).

‡These States have recently come under direct political relationship with the Government of India.

This area is, for the purpose of Agricultural Statistics, classified as				Table II
	Acres (1,000)	Per cent	shown in the margin. About	
Forests	85,419	12.9	85,419,000 acres, or 13 per	
Not available for cultivation	153,178	23.1	cent of the total, are occupied	
Culturable waste other than fallow	151,173	22.8	by forests ; and the area not	
Current fallows	50,554	7.6	available for cultivation, i.e.,	
Net area sown	223,184	33.6	land absolutely barren or un-	
Total	663,508	100	culturable or covered by build-	

ings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 153,178,000 acres or 23 per cent. The balance, 424,911,000 acres or 64 per cent, represents the area available for cultivation. Of this, 151,173,000 acres, or 23 per cent of the total area, represent culturable waste other than fallow, i.e., land available for cultivation but not taken up, and 50,554,000 acres, or over 7 per cent, were kept fallow in the year of report. The net area actually sown with crops during 1921-22 was therefore 223,184,000 acres,

	Proportion of sown to total area	Population per 100 acres of sown area
Delhi	60 per cent	222
Bombay	55 "	55
United Provinces	52 "	127
Bihar and Orissa	48 "	134
Bengal	47 "	188
Punjab	42 "	80
Central Provinces and Berar	37 "	59
Madras	36 "	125
North-West Frontier Province	29 "	97
Manpur	23 "	71
Assam	18 "	131
Ajmer-Merwara	17 "	167
Coorg	14 "	125
Sind	13 "	81
Burma	10 "	83
British India	33 "	109

or nearly 34 per cent of the total area, as against 212,259,000 acres in the preceding year, or an increase of 5 per cent. The proportion of sown to total area and the number of population per 100 acres of sown area in each province are stated in the margin. The proportion of sown to total area in the year under review was highest in Delhi and lowest in Burma. This area, however, excludes areas sown more than once in

the year. If areas sown more than once are taken as separate areas for each crop, the gross area sown in the year of report amounts to 256,582,000 acres, as against 239,201,000 acres in the preceding year.

The term "forests" in the returns of Agricultural Statistics means "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded from that head and entered in the column "net area sown." The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the Reports on the Administration of the Forest Department for various reasons,* the chief amongst which are the following :—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods, (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers, and (3) certain village and other lands not covered by forests but worked by the Forest Department and returned as forest lands by that Department, are not treated as forests in the returns of Agricultural Statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area (85,419,000 acres in 1921-22), 23 per cent lies in Burma, 19 per cent in the Central Provinces and Berar, 15 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 22 per cent in the other provinces.

Most of the barren and unculturable lands lies naturally in the hilly tracts of Burma and of southern India and in the dry and deserty regions of north-western India. Burma contains 36 per cent of the total area "not available for cultivation" (153,178,000 acres in 1921-22), the Madras Presidency 14 per cent, Sind 9 per cent, and the Punjab 8 per cent.

The head "culturable waste other than fallow" shows lands available for cultivation but not yet taken up. It includes areas such as groves not classed in the area sown and also areas under bamboos and thatching grass when not

* For detailed explanations in respect of provinces, see notes in Appendix B (Table II).

forming parts of forest areas.* Of the total culturable waste land (151,173,000 acres in 1921-22), 40 per cent is in Burma, 11 per cent in the Punjab, 10 per cent in the Central Provinces and Berar, 9 per cent in Assam, 8 per cent in the Madras Presidency, and the remaining 22 per cent in the other provinces.

Current fallows

The maximum period for which land left uncultivated is reckoned as fallow varies according to local laws and customs in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste." Owing to this diversity of practice, the classification of area as "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1921-22 was 50,554,000 acres, as against 61,347,000 acres in the preceding year, or a decrease of 18 per cent.

Table III
Irrigation

The total area irrigated in 1921-22 was 47,790,000 acres, as against 48,957,000 acres in the preceding year. Of this area, 20,477,000 acres were irrigated from Government canals, and 2,679,000 acres from private canals, 12,127,000 acres from wells, 6,999,000 acres from tanks, and 5,508,000 acres from other sources of irrigation. In India irrigation is ordinarily resorted to on an extensive scale in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan),

	Proportion of irrigated to total sown area per cent
Sind	74
Punjab	51
North-West Frontier Province	40
Ajmer-Merwara	40
Madras	29
United Provinces	28
Bihar and Orissa	22
Delhi	19
Burma	8
Bengal	7
Central Provinces and Berar	5
Bombay	4
Assam	4
Coorg	3

where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1921-22, the Punjab accounted for 28 per cent, the United Provinces 21 per cent, the Madras Presidency 20 per cent, Bihar and Orissa 11 per cent, Sind 6 per cent, and the other provinces the remaining 14 per cent. The proportion of irrigated to total area sown in each province is stated in the margin. The proportion is, as usual, highest in the driest province of Sind.

The figures of irrigated areas do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas sown more than once as separate areas for each crop, the gross area of irrigated crops was 50,989,000 acres in 1921-22. Of this area about 87 per cent was under food crops and the remainder under non-food crops. Of the former 17,922,000 acres were sown under rice, 9,755,000 acres under wheat, 2,809,000 acres under barley, 1,531,000 acres under jowar, 1,425,000 acres under bajra, 1,001,000 acres under maize, 1,618,000 acres under sugarcane, and the remaining 8,185,000 acres under other food crops. Of the irrigated non-food crop area 1,568,000 acres were occupied by cotton. These statistics of irrigated crops are in some cases defective as explained in the notes in Appendix B and at the foot of Table III (pages 22-29).

Table IV
Area under crops

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements,

* For detailed explanations in respect of provinces, see notes in Appendix B (Table II).

is assigned to the principal crops by the village accountant. In the same province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains, and in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops covered, as stated above, nearly 257 million acres in 1921-22. The different classes of crops and the area occupied by each class are stated in the margin. Of the total sown area, food-crops occupied

	Acres (1,000)	Per cent of total
Food-grains	204,791	80.0
Condiments and spices	1,412	0.5
Sugar	2,522	1.0
Fruits and vegetables	5,538	2.1
Miscellaneous food-crops	1,245	0.5
Total food-crops	215,508	84.1
Oilseeds	14,197	5.5
Fibres	13,854	5.4
Dyes and Tanning materials	854	0.3
Drugs and narcotics	2,247	0.9
Fodder crops	8,608	3.4
Miscellaneous non-food crops	971	0.4
Total non-food crops	40,731	15.9

about 215,508,000 acres or 84 per cent and non-food crops about 40,731,000 acres or 16 per cent. Of the food-crops, food-grains (cereals and pulses) covered as much as 204,791,000 acres†, or about 80 per cent of the total area sown, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops* together) some 10,717,000 acres or

only 4 per cent of the total. Of non-food crops, fibres such as cotton, jute, hemp, etc., occupied 13,854,000 acres or 5 per cent of the total area sown, and oilseeds 14,197,000 acres ‡ or 6 per cent. The other non-food crops*—dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 12,680,000 acres or 5 per cent of the total.

The area under food-grains (204,791,000 acres) showed an increase of 17,901,000 acres or 10 per cent as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table. It will be seen that all the crops except ragi showed increases. Of the total area shown in the table under food-grains, 19 per cent was in the United Provinces†, 15 per cent in the Madras Presidency, 13 per cent in Bihar and Orissa, 11 per cent in Bengal and the Punjab, 10 per cent in the Bombay Presidency, 7 per cent in the Central Provinces, and the remaining 14 per cent in the other provinces.

	1921-22 Acres (1,000)	1920-21 Acres (1,000)	Increase (+) or Decrease (—) Acres (1,000)
Rice	79,700	78,120	+1,580
Wheat	22,404	20,368	+2,036
Barley	7,356	6,268	+1,088
Jowar	24,214	22,690	+1,524
Bajra	15,901	12,002	+3,899
Ragi	4,211	4,239	—28
Maize	6,335	6,206	+129
Gram	15,055	9,464	+5,591
Other grains and pulses	29,615	27,533	+2,082

increase or decrease under each kind of grain is stated in the marginal table. It will be seen that all the crops except ragi showed increases. Of the total area shown in the table under food-grains, 19 per cent was in the United Provinces†, 15 per cent in the Madras Presidency, 13 per cent in Bihar and Orissa, 11 per cent in Bengal and the Punjab, 10 per cent in the Bombay Presidency, 7 per cent in the Central Provinces, and the remaining 14 per cent in the other provinces.

The area under oilseeds (14,197,000 acres) showed an increase of 1,827,000 acres or nearly 15 per cent as compared with the preceding year. The actual increase or decrease under each kind of oilseeds is stated in the margin. Of the total area under oilseeds shown in this table, 24 per cent was in the Madras Presidency, 14 per cent each in Bihar and Orissa and the Central Provinces and Berar, 12 per cent in the Punjab, 10 per cent in Burma, 9 per cent in Bengal, 6 per cent in the Bombay Presidency, 5 per cent in the United Provinces,‡ and the remaining 6 per cent in the other minor provinces.

	1921-22 Acres (1,000)	1920-21 Acres (1,000)	Increase (+) or Decrease (—) Acres (1,000)
Linseed	2,054	1,496	+558
Sesamum	3,707	3,592	+115
Rape and mustard	4,233	2,979	+1,254
Other oilseeds	4,203	4,303	—100

increase or decrease under each kind of oilseeds is stated in the margin. Of the total area under oilseeds shown in this table, 24 per cent was in the Madras Presidency, 14 per cent each in Bihar and Orissa and the Central Provinces and Berar, 12 per cent in the Punjab, 10 per cent in Burma, 9 per cent in Bengal, 6 per cent in the Bombay Presidency, 5 per cent in the United Provinces,‡ and the remaining 6 per cent in the other minor provinces.

* For a list of these crops, vide Appendix D.
† In the United Provinces, the whole of the area sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 4,000,000 acres in the whole province in 1921-22. Excluding this area of 4 million acres under oilseeds, the total area under food-grains in British India in 1921-22 would come to 201 million acres instead of 205 million acres.
‡ The figures shown under the several heads of oilseeds in Table IV against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, i.e., oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other food crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1921-22 for the whole of the United Provinces to about 4 million acres. Including this area, the total area, under oilseeds in British India in 1921-22 would come to nearly 18 million acres.

Condiments and spices

The total area under condiments and spices in 1921-22 was 1,412,000 acres as against 1,334,000 acres in the preceding year, or an increase of 78,000 acres or 6 per cent. Spices are grown mostly in the southern parts of India, the Madras Presidency alone accounting for about 50 per cent of the total area under condiments and spices in 1921-22.

Sugar

The total area occupied by sugar yielding plants in 1921-22 was 2,522,000 acres, as against 2,706,000 acres in the preceding year, or a decrease of 184,000 acres or 7 per cent. Of this area, 2,363,000 acres were under sugarcane, as against 2,541,000 acres in the preceding year. Of the sugarcane area 49 per cent was in the United Provinces, 16 per cent in the Punjab, 13 per cent in Bihar and Orissa, 9 per cent in Bengal, and 5 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 159,000 acres as against 165,000 acres in the preceding year. Of this area the Madras Presidency accounted for 48 per cent and Bengal 35 per cent.

Fibres

Fibre crops occupied 13,854,000 acres in 1921-22, as against 17,316,000 acres in the preceding year, or a decrease of 3,462,000 acres. The actual decrease under the several kinds of fibres is shown in the marginal table.

	1921-22 Acres (1,000)	1920-21 Acres (1,000)	Decrease (—) Acres (1,000)	The area under cotton showed a decrease of 17 per cent. Of the total cotton area, 38 per cent was in the Central Provinces and Berar, 24 per cent in the Bombay Presidency, 15 per cent in the Madras
Cotton	11,665	14,114	—2,449	
Jute	1,506	2,473	—967	
Other fibres	683	729	—46	

Presidency, 10 per cent in the Punjab, and 7 per cent in the United Provinces. The area under jute showed a decrease of 39 per cent. Of the total jute area 87 per cent was in Bengal and the remaining 13 per cent in the adjoining provinces of Bihar and Orissa and Assam. Other fibres also showed a decrease of 6 per cent as compared with the preceding year.

Dyes and Tanning materials

The total area under dyes and tanning materials was 854,000 acres in 1921-22. Of this, the area under indigo was 329,000 acres, showing an increase of 88,000 acres or 37 per cent. Of the total indigo area, 60 per cent was in the Madras Presidency, 14 per cent in the United Provinces, 12 per cent in Bihar and Orissa, and 10 per cent in the Punjab. Other dyes and tanning materials covered an aggregate area of 525,000 acres.

Drugs and narcotics

Drugs and narcotics occupied 2,247,000 acres in 1921-22, as against 2,039,000 acres in the preceding year, or an increase of 208,000 acres. The actual increase or decrease under each kind of drugs and narcotics is stated in the marginal table.

	1921-22 Acres (1,000)	1920-21 Acres (1,000)	Increase (+) or decrease (—) Acres (1,000)
Opium	123	124	—1
Coffee	97	96	+1
Tea	713	661	+52
Tobacco	1,051	932	+119
Other drugs and narcotics	263	226	+37

Fodder crops

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jowar, and carob or locust tree. The total area under fodder crops in 1921-22 was 8,608,000 acres, as against 8,108,000 acres in the preceding year.

Fruits and vegetables including root crops

The total area under fruits and vegetable crops in 1921-22 was 5,538,000 acres, as against 5,172,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix D.]

Miscellaneous crops

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,216,000 acres. Of this, about 1,245,000 acres were occupied by miscellaneous food-crops and about 971,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on pages 30 to 37 and Appendix D.]

Area sown more than once

The total extent of land on which more than one crop was cultivated during the year was 33,399,000 acres, as against 26,942,000 acres in the preceding year.

The statistics recorded in Table V are based on cattle censuses. The census is taken annually in certain provinces and quinquennially in others.* The first general quinquennial census was taken in 1919-20. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. The animals are divided into three classes, namely, (1) bovine, comprising oxen and buffaloes, (2) ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. The total number of live-stock of each of these three classes in each province,

	Number in thousands				
	Bovine	Ovine	Others	Ploughs	Carts
Bengal	24,724	4,396	126	4,448	737
Madras	22,294	16,515	181	4,287	1,037
Bombay	8,184	2,890	205	1,093	625
Sind	1,818	1,592	300	264	57
United Provinces	29,764	6,100	764	4,872	841
Bihar and Orissa	19,853	4,139	198	3,054	494
Punjab	14,409	7,086	1,265	2,244	302
Burma	5,770	345	94	685	679
Central Provinces and Berar	10,957	1,242	162	1,381	902
Assam	5,472	797	20	942	48
North-West Frontier Province	1,132	834	200	213	10
Ajmer-Merwara	336	445	12	40	12
Delhi	136	30	10	17	6
Coorg	145	3	1	31	1
Manpur	6	1	...	1	...
Total	145,000	46,415	3,538	23,572	5,751

together with the numbers of ploughs and carts, is stated in the margin. Of the total number of live-stock of the bovine class (145 millions), which is cattle proper, the United Provinces accounted for 20 per cent, Bengal 17, Madras 15, Bihar and Orissa 14, the Punjab 10, the Central Provinces and Berar 8, Bombay including Sind 7, and the remaining provinces 9 per cent. In the case of stock of the ovine class (sheep and goats), however, Madras accounted for 36 per cent of the total, followed by the Punjab (15 per cent), the United Provinces (13 per cent), Bombay including Sind (10 per cent), and Bengal and Bihar and Orissa (9 per cent each). The table below shows the number of live-stock of the bovine class (cattle proper) per 100 acres of sown area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of sown area ranges between 30 in Bombay and 113 in Ajmer-Merwara, while the number per 100 of population varies from 28 in Delhi to 120 in the Manpur Pargana. The average for British India, as a whole, is 65 per 100 acres of sown area and 60 per 100 of the population.

	Number of cattle			Number of cattle	
	Per 100 acres of sown area.	Per 100 of popula-tion.		Per 100 acres of sown area.	Per 100 of popula-tion.
Bengal	104	55	Central Provinces and Berar	46	79
Madras	67	54	Assam	96	73
Bombay	30	55	North-West Frontier Province	47	48
Sind	45	55	Ajmer-Merwara	113	68
United Provinces	83	66	Delhi	62	28
Bihar and Orissa	78	58	Coorg	104	83
Punjab	56	70	Manpur	86	120
Burma	36	44			

The varieties of land tenure in the different provinces are included in Table VI and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; and when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiayatwari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled*, *i.e.*, where the land revenue has been fixed in perpetuity, or *temporarily settled*, *i.e.*, where the land revenue is fixed for a limited number of years only. Village

* In Burma, the Central Provinces and Berar, Ajmer-Merwara and Manpur Pargana the Census is taken annually; in all other provinces it is taken quinquennially.

communities and raiyatwari tenures are, as a rule, temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure, according to the latest statistics available, the figures roughly indicating the extent to which the different systems prevail :—

	Raiyatwari	Zamindari (individual proprietors or village communities) settled		Total
		Permanently	Temporarily	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Bengal	...	39,303	11,152	50,455
Madras	61,462	29,586	...	91,048
Bombay	44,804	...	3,912	48,716
Sind	30,142	...	...	30,142
United Provinces	...	7,432	60,391	67,823
Bihar and Orissa	...	41,889	11,223	53,112
Punjab	...	...	56,320	56,320
Burma	152,929	...	...	152,929
Central Provinces	12,363*	...	40,437	52,800
Berar	11,375*	...	...	11,375
Assam	25,768	3,931	1,819	31,518
North-West Frontier Province	...	...	8,438	8,438
Ajmer-Merwara	...	974	797	1,771
Delhi	...	...	368	368
Coorg	1,012	...	...	1,012
Manpur	31	...	...	31
Total	339,886	123,115	194,857	657,858

It will thus be seen that about 52 per cent of the total area is held by *raiya*t*wari* proprietors, while 19 per cent is held by permanently settled and 29 per cent by temporarily settled *zamindari* proprietors.

The statistics for this table are collected annually in Burma, Assam, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available, the total revenue from land

	Total revenue from land (R1,000)	Total popula- tion (1,000)	Revenue per head R a.
Bengal	2,93,56	44,588	— 11
Madras	6,80,57	41,406	1 10
Bombay	3,45,64	14,837	2 5
Sind	92,74	3,279	2 13
United Provinces	6,99,58	45,376	1 9
Bihar and Orissa	1,56,60	34,002	— 7
Punjab	4,90,48	20,691	2 6
Burma	5,37,14	13,212	4 1
Central Provinces	1,23,68	10,873	1 2
Berar	58,44	3,067	2 14
Assam	95,81	7,462	1 5
North-West Frontier Province	26,86	2,339	1 2
Ajmer-Merwara	3,47	495	— 11
Delhi	3,81	488	— 13
Coorg	3,80	175	2 3
Manpur	16	5	3 3
Total	36,42,34	242,295	1 8

(excluding cesses) for the whole of British India amounts to R36 crores. This represents the actual realisable demand † on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to Table No. 14 on pages 46-57.

Table VII
Harvest prices

Table VII shows prices of staple crops at harvest-time. It will be seen from this table that the average prices of rice (unhusked), cumbu or bajra,

* Including Government forests
† Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

maize, cotton (cleaned), jute, linseed and groundnut were higher than in the previous year, while those of winter rice, wheat, barley, cholam or jowar, gram, sugar (raw), rape and mustard, sesamum, and tobacco were lower.

The Agricultural Department in each province maintains a statement of the average yield, per acre of land of average quality, irrigated and unirrigated, of crops in each district. In order to test the accuracy of the standards of normal or average yield, and, if necessary, to revise these, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the Provincial Agricultural Department. The results of the experiments are reported to the head of the Provincial Agricultural Department, who revises the standards in the light of these returns, local enquiries and personal knowledge. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table in Appendix A shows the figures as last revised with reference to the crop-cutting experiments made up to 1921-22. The district figures are shown in the blue book styled *Quinquennial Report on the average yield per acre of crops in India for the period ending 1921-22*.

Appendix B which is newly added contains all the important explanatory notes which appeared under district tables in the previous issues and which are essential for a thorough understanding of the different tables in the different provinces. Appendices C and D require little or no comment. Appendix C explains the vernacular terms used in this volume, and Appendix D the classification in Table IV of the various crops cultivated in India.

The map, charts, and diagrams exhibited in the volume illustrate—

- (1) the departure of sown area and that of rainfall in 1921-22 from the average of the preceding ten years ;
- (2) variations in rainfall as compared with the normal in relation to the total area sown, food-crops area, and current fallows (reversed) ;
- (3) the rainfall in wheat-growing tracts (June to February) as compared with the total and unirrigated wheat areas ;
- (4) total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow, and current fallows ;
- (5) total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops ;
- (6) area under rice, wheat, millets, oilseeds, cotton, jute, and other crops ;
- (7) total area sown and area under different crops ;
- (8) total live-stock divided between bovine, ovine, and others ;
- (9) shares of provinces in the total area under principal crops, and (10) harvest prices of certain principal crops.

D. N. GHOSH,

Director of Statistics

for Director-General of Commercial Intelligence.

COMMERCIAL INTELLIGENCE DEPARTMENT, INDIA

Calcutta, December 13, 1923.

2. Total area sown, area under food crops, current fallows (reversed) and the variations in rainfall, as compared with normal.

3. Total wheat area, unirrigated wheat area and rainfall in wheat-growing tracts (June to February).

NOTE.—The scale of the curves in Chart No. 3 for “total wheat area” and “unirrigated wheat area” has, in order to effect a better comparison, been made much larger than that used for the curve showing “rainfall.”

4. Total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow and current fallows.

NOTE.— 1. "Total cultivable area" represents the sum of net area sown, culturable waste, and current fallows.
2. "Uncultivable area" includes the area under forest.

5. Total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops.

6. Area under rice, wheat, millets, oilseeds, cotton, jute, and other crops.

NOTE.—Millets represent jowar, bajra, and ragi.

7. Total area sown in 1921-22.

Total area sown	257 million acres
Area under food crops (unshaded)	216 „ „
Area under non-food crops (shaded)	41 „ „
(in Million acres.)	

NOTE.—“Other food crops” are minor food-grains, condiments and spices, and miscellaneous food crops.
“Other non-food crops” are oilseeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

8. Total livestock divided between bovine, ovine, and others in 1921-22, as compared with the year 1912-13.

1912-13

1921-22

NOTE.—“Bovine” includes bulls and bullocks, cows, buffaloes, calves, and buffalo calves.
“Ovine” includes sheep and goats.
“Others” include horses and ponies, mules, donkeys, and camels.

9. Shares of provinces in the total area (in acres) under principal crops in 1921-22.

NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

10. Harvest Prices (Rs. per maund) of Certain Principal Crops in India.

* Relates to rice-unhusked (Paddy)

TABLES

Summary Tables of the Agricultural Statistics of British India

No. 1—GENERAL SUMMARY, 1902-03 TO 1921-22

Classification of area

(Thousand acres)

	1902-03 (a)	1903-04 (a)	1904-05 (a)	1905-06 (a)	1906-07 (a)	1907-08	1908-09	1909-10	1910-11	1911-12

* Miscellaneous revenue

(a) Figures not available

† Excludes Rs15,18,959 in Dinajpur for which details are not available
due by the Zamindars to Government, not those due by raiyats to the Zamindars. The actual realisable demand on account of the year whether crops, etc., are excluded in the case of those provinces where all remissions are granted within the year to which the return relates, but in includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue, comprising fixed collections, ment estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of survey and settlement charge (Bengal); (5) rents, etc., of fisheries; (6) receipts for the improvement of Government estates; (10) 12 per cent from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huccoba tax Madras Act, II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, Thathameda tax (Burma), receipts from ruby land, and rents of buildings situated on such lands

Column 8.—As in column 5, but only ordinary land revenue on fully assessed areas is entered

(a) Including the territory of Alsace Lorraine

* Including figures for Indian States, namely, 3,480,000 acres for rice, 5,973,000 acres for wheat, 988,000 acres for barley, 2,269,000 acres for maize, 6,789,000 acres for cotton, and 409,000 acres for linseed. The figures for rice, barley, maize and linseed for Indian States are, however, not complete, as returns for those crops are not furnished by a number of States

Note.—The figures for foreign countries have been taken from the International yearbook of Agricultural Statistics, 1922 published by the International Institute of Agriculture, Rome

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding Departments in the Southern Presidencies. The provincial areas in this column exclude Indian States in direct political relations with the Government of India, but include States politically controlled by Local Governments, with the exception of the Tribal areas in the North-West Frontier Province.

Column 3.—In this column is entered the area of Indian States included in column 2.

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Indian States) for which the statistics required for Tables II, III and IV were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (a) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

NOTE.—For detailed information, see notes in Appendix B.

See explanations given in footnotes (page 14)

(a) Differences due to revised figures being reported by the Survey Department.

(b) Difference due to the partition of the Ruby Mines district in 1920-21, a portion of which was transferred to the Shan States, and the whole area was treated as Indian States in that year.

(c) Include for the first time Hkamti Long area, Putao, Southern Shan States and Kerennie.

(d) Areas which were shown in this column in previous years have been treated as British districts from 1921-22.

Column 2.—“Forests” mean “any land classed or administered as forest under any legal enactment dealing with forests.” Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the Forest Administration Reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned as forests by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the sown area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

NOTE.—(1) The variations in the areas shown in different years under the same item in the same province do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change.

(2) For detailed information, see notes in Appendix B.

See explanations given in the footnotes (page 18)

(a) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the Forest Administration Report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different.

(b) Includes unculturable Government waste and unculturable *banés*

(c) States the estimated area of culturable Government waste.

(d) Shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area sown and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained.

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7) is thus due to the inclusion in column 19 of the area irrigated at both harvests.

(a) Included in column 14.

(b) Included in column 16.

(c) Included in column 18.

NOTE—(i) This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulae prescribed by the provincial authorities.

(ii) The variations in the areas shown in different years under the same crop in the same tract do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

(iii) For detailed information, see notes in Appendix B.

Column 10 (other food-grains including pulses).—Arhar (pigeon pea), barbat, iobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, cheik (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki (little millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wadalu or barti.

Column 30 (other dyes and tanning materials).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.
Column 33.—in certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.
Column 37 (other drugs and narcotics).—Aloes, areca nut, sweet basil, betel-vine, country borage, bogoda brinjal or nela mulaka d atura, purple flea-bane, isfagul, kolinji or vempali, senna, soap nut, sweet flag.

Note.—(i) Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. Oxen, buffaloes, horses and ponies not old enough for work or to produce young are treated as "young stock".

(ii) For detailed information see notes in Appendix B.

(a) Figures not available

(b) Figures for 1910-11, which are based on estimates, include Bihar and Orissa but exclude Eastern Bengal

(c) Included under "Young stock (calves)"

(d) Includes bulls, cows, and young stock (calves) for the Northern Shan States

(e) Includes cow buffaloes and young stock (buffalo calves) for the Northern Shan States

(f) Revised in 1918-19.

(g) " " 1920-21.

(a) An annual census is taken on the 15th March in Manpur.

(b) The figures in columns 9 to 18 exclude Bengal.

(c) Statistics based on a census taken in 1913-14. Figures for columns 8, 17 and 18 were revised in 1914-15.

(d) Included under "Young stock (calves)".

(e) In Coorg a census is taken every five years. The last Census was taken in March 1920 by the circle shanbaga and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in Municipal Towns are included.

(f) Included under "Bullocks".

Note.—(1) The varieties of tenure are included as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

(2) For detailed information see notes in Appendix B.

Column 3.—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (column 11). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops or for other special reasons.

Column 4.—This head is sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net sown area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

* No details

† Includes 1,360,300 acres (in Dinajpur for which details are not available).

¶ Increase due to inclusion of certain Zamindari villages which were formerly included under Raiyatwari.

(a) Excludes Bihar and Orissa districts constituted into a separate province.

(b) Includes 3,407,181 acres in Dinajpur, Rangpur, and Pabna, for which details are not available.

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, and not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, hucoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, that named a tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands.

Column 6.—The population is that of the last general census.

Entry 8.—As in entry 5, but only ordinary land revenue on fully assessed areas is entered.

Entry 9.—To be entry 8, divided by entry 4 (a).

Entry 10.—To be entry 8, divided by entry 4 (b).

* No details.

† Includes Rs 15,19,026 for Dinaipur for which details are not available.

‡ Includes Rs 15,18,959 for Dinaipur for which details are not available.

APPENDICES

APPENDIX A

The Average Yield per Acre of Principal Crops in India.

A provisional return of the yield per acre of principal crops cultivated in India was first compiled in 1892 from various statistical publications available at the time; such as agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc. To provide for the periodical revision of the estimates, a system of experimental crop cuttings was prescribed in 1893 by the Government of India, the results of which are reported by Local Governments and Administrations at the close of each quinquennium. The returns for the last quinquennium ending 1921-22 have been received and scrutinised, and tabulated in the appended tables.* These outturns per acre are of extreme importance since these will generally be used during the present quinquennium (ending 1926-27) in estimating the production of crops for which forecasts are prepared.

2. The estimate given is the average outturn on average soil in a year of average character, as deduced from the information obtained from experiments made up to the period under review. When, therefore, this average is multiplied by the average area sown, it should give as near an approximation as possible to the outturn of the crop in an average year. The Departments of Agriculture or Land Records of each province maintain standard estimates of the average yield of land of average quality (usually under the two major heads of irrigated and unirrigated land) for several crops in each district. The object of the experiments or investigations annually made is to test the accuracy of these estimates and to enable the head of the Department in each province to revise his provincial estimates, when necessary. Should it happen that the period has been one of exceptionally favourable or unfavourable conditions which have affected the experiments reported, this would not necessarily involve a change in the standard estimates for the district or for the province, unless there were other reasons for believing that, as estimates of average yield in an average year, they have been pitched too high or too low.

3. On an examination of the returns for the quinquennium ending 1911-12, it was recognised that the results of the experiments as conducted by the district revenue staff were generally unreliable. A change in the system was therefore considered necessary; and in 1915 the Government of India, with a view to improve the returns, issued instructions to employ as far as possible the expert officers of the provincial Agricultural Department for carrying out experiments on a well-ordered plan in each agricultural tract and for the investigation of average crop outturns in the various provinces. The new system was introduced in the quinquennium ending 1916-17 in some of the provinces mainly as an experimental measure, as explained in the previous report. It appears from the present reports that during the quinquennium under review the new system was not fully carried into effect in most of the provinces. In Bengal, for instance, only cuttings of jute were made by trained officers of the Agricultural Department under expert supervision. In Madras the experiments conducted by the Agricultural Department are too few to admit of the results being accepted as representative. In Bombay the new system of experiments conducted by officers of the Agricultural Department continued, but in certain districts, where the kind and value of the land varies widely from field to field, the old method had to be adopted. In Bihar and Orissa crop tests were carried out by the Agricultural Department on a small scale in thirteen districts. In the Central Provinces and Berar the experiments made are stated to be still of doubtful value. In the Punjab officers of the Agricultural Department were only consulted in revising the standards. In Burma, according to the revised instructions, the work was entrusted to the Agricultural Department from the beginning of the quinquennium under review; but as a result of the recommendations of a conference held in 1920 (which were accepted by the Local Government) the work was transferred to the Settlement Officers, on the ground that the cuttings made by them supply sufficiently reliable data for ascertaining the actual average outturns of crops. In the North-West Frontier Province, the work was entrusted to the Agricultural Department

* The return for the previous quinquennium ending 1916-17 was published in 1919

APPENDIX A—*contd.*

in the quinquennium under review; but the system, it is stated, has not proved satisfactory on account of inadequate staff. In Mysore results of crop experiments conducted by the Agricultural Department were utilised for checking and revising those of the Revenue Department.

4. As a result of the experiments conducted or investigations made during the quinquennium under review, considerable changes have been made in the averages previously adopted, except in the United Provinces, Bombay, and the Central Provinces and Berar. In Bengal, the yield of autumn rice has been raised from 871 to 888 lbs, of jute from 1,300 to 1,330 lbs, and of sugarcane from 2,963 to 3,004 lbs. In Madras, the average outturn of sugarcane has been raised from 5,040 to 6,420 lbs, of rice from 1,047 to 1,065 lbs and of cotton from 66 to 78 lbs. In Sind rice has been raised from 1,316 to 1,341 lbs and cotton from 170 to 190 lbs. In the Punjab, the yield of wheat has been raised from 791 to 856 lbs, of gram from 615 to 671 lbs, and of sugarcane from 1,933 to 2,191 lbs. In Assam, the yield of jute has been increased from 1,320 to 1,400 lbs, and of sugarcane from 2,016 to 2,128 lbs. In the North-West Frontier Province, the yield of sugarcane has been raised from 2,660 to 2,721 lbs. On the other hand, the standards have been lowered in certain cases. The yield of winter rice has been decreased from 1,036 to 1,029 lbs in Bengal, from 1,234 to 987 lbs in Bihar and Orissa, and from 952 to 896 lbs in Assam. Autumn rice in Bihar and Orissa has been lowered from 800 to 741 lbs. In Madras jowar has been reduced from 696 to 569 lbs, bajra from 624 to 488 lbs, and ragi from 1,092 to 927 lbs. In the Punjab maize has been lowered from 1,040 to 962 lbs, and jowar from 470 to 434 lbs. Wheat, barley and bajra in the North-West Frontier Province have been put at lower figures, *viz.* 614 lbs, 880 lbs, and 436 lbs, as against 676 lbs, 907 lbs, and 552 lbs, respectively, in the preceding quinquennium.

5. The statement below compares the average outturns of the major crops in the different provinces. The relative importance of each province in respect of each crop has also been shown by percentages representing the proportion of the total area under each crop in British India cultivated in each province. Tea has been included in this statement, although this crop is not dealt with in the quinquennial returns, the average outturns having been calculated from the special tea returns for the five calendar years ending 1921.

NOTE.—(1) Average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped, and the yield of unirrigated land multiplied by the unirrigated area cropped, and dividing the sum of these products by the total area cropped.
(2) The superseded figures of the previous quinquennia have been inserted merely to show the trend of the revision made in each period.
*The variations in the figures of yield of crops now reported as compared with previous ones are due to the fact that the averages have been worked out not approximately as before, but accurately.
†The average for Burma for 1916-17 are based on the normal outturns per acre given in the Season and Crop Report of Burma for 1916-17.
(a) As constituted before 1906. (d) Spring. (g) Bengal. (j) Relates to Western Bengal and Assam.
(b) As constituted before 1912. (e) Autumn. (h) Chota Nagpur. (k) Berar.
(c) Winter. (f) Bihar. (i) Includes Delhi.

(b) The figures of yield of sugarcane crop have not been shown in the present return as no figures had been reported by district officers owing to the fact that it is not a staple crop in Sind.

APPENDIX B.

EXPLANATORY NOTES.

Table I.—Area.

Bengal
(Page 14)

The area cadastrally surveyed up to 1921-22 comprises 29,458,491 acres or about 61·57 per cent of the total area of the province (exclusive of Indian States and the Chittagong Hill Tracts). The figures for the remaining area of the province are based more or less on estimates.

Madras
(Page 14)

Column 2 states the area as ascertained by the Provincial Survey Department, supplemented, for tracts which have not come under the operations of that Department, by areas obtained with the computing scale from the Survey of India Atlas sheets of the localities concerned.

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates, owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,683,043 acres) entered in column 6 for 1921-22 (page 14), 67,887,960 acres are based on actual returns and 21,795,083 acres on estimates.

The total area in column 5 includes the unaccounted-for difference in the Ramnad district between the Atlas sheet scale and traverse area on the one hand, and the estimated areas in the village accounts of unsurveyed areas on the other. The difference was about 928,000 acres in 1920-21 and 952,000 acres in 1921-22. The Collector has been asked to account for the increase in the difference.

Bombay
(Page 14)

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the return of the Topographical Survey.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the Revenue Survey Records. The figures for all unsurveyed villages are based on estimates. Of the total area (48,714,166 acres) entered in columns 5 and 6 for 1921-22 (page 14), 44,561,698 acres are based on actual returns and 4,152,468 acres on estimates.

Sind
(Page 14)

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the returns of the Topographical Survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts.

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the Revenue Survey Records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,149,898 acres) entered in these columns for 1921-22, 30,024,990 acres are based on actual returns and 124,908 acres on estimates.

United Provinces
(Page 15)

Columns 5 and 6.—For tracts which possess no agency for collecting statistics, the figures are based on estimates. Of the total area (52,615,015 acres) entered in column 6 for 1921-22 for the province of Agra, 45,224,015 acres are based on actual returns and 7,391,000 acres on estimates.

Bihar and Orissa
(Page 15)

The area cadastrally surveyed is 50,085,390 acres, which is 94·3 per cent of the total area of the province (exclusive of Indian States). The figures for the remaining area of the province are based more or less on estimates.

Punjab
(Page 15)

Column 6.—Figures for area in river beds in Gurgaon not accounted for in the revenue papers and for high mountainous tracts in Simla and Kangra are based more or less on estimates. (See also notes to column 3 in Table II, page 74).

Burma
(Page 15)

From 1921-22 the statistics for Upper and Lower Burma have been combined in one table and are not shown in two parts as was the practice before.

APPENDIX B—*continued.*EXPLANATORY NOTES—*continued.*Table I.—Area—*continued.*

Columns 2, 5 and 6.—In districts where there has been no professional survey estimates framed in the best manner possible are accepted subject to revision from time to time as survey extends. Burma—*contd.*
(Page 15)

Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myitkyina and Katha districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08, Feudatory States in Upper Chindwin and Yamethin which, together with the Northern Shan States, were formerly included in columns 2 and 3 and excluded from columns 5 and 6 are shown from 1921-22, in columns 2, 5 and 6 and excluded from column 3. Putao, the Southern Shan States and Karenni have been included from 1921-22.

The estimated area of Myitkyina has been revised on the basis of surveys still in progress and now for the first time includes the Hkamti Long area (662,592 acres). Of the total area (155,668,427 acres) for the whole province, 32,417,940 acres are based on actual survey and the balance (123,250,487 acres) on estimates.

Columns 2, 5 and 6.—For the unsurveyed areas of zamindari estates and waste land grants for which accurate statistics are not available, the figures are based on estimates. In these provinces the zamindars are chiefs of minor importance (or their successors) who, while holding large and compact estates on privileged tenure, have been restricted to the rank of ordinary subjects. Central Province,
(Page 16)

Column 2, states the area as ascertained by the local Survey and Settlement Department. Berar
(Page 16)

Columns 2, 5 and 6.—The figures for the unsurveyed areas in Cachar and Sylhet, the permanently settled and *lakhiraj* estates in Goalpara, the Hill Tracts of the Garo Hill district, the Naga Hills, the Lushai Hills, and the Khasi and Jaintia Hills are based on estimates. Assam
(Page 16)

Column 2 states the area as given in the settlement records.

Ajmer-Merwara
(Page 16)

Table II.—Classification of Area.

Column 2.—The figures represent Government forests and estimates of other forest areas furnished by district officers. Bengal
(Page 18)

Column 2 includes the area cultivated within forests. The area cultivated with coffee, tea and rubber within forests is, however, excluded from this column and is shown under column 6, since the year 1918-19. Madras
(Page 18)

Column 4 includes areas occupied by *babul* and casuarina trees when they do not form parts of forest areas.

Column 5 includes all occupied waste, that is to say, waste portions of land for which revenue is paid.

Column 6.—Of the total net sown area for 1921-22 (33,041,655 acres) stated in this column, 27,419,824 acres are based on actual returns and 5,621,831 acres on estimates.

Figures for unsurveyed villages are based on estimates.

Bombay
(Page 18)

Column 2 includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3 includes all land recorded at the Survey and Settlement as unculturable, although at times a very small quantity of this land is cultivated.

APPENDIX B—*continued.*EXPLANATORY NOTES—*continued.*Table II.—Classification of Area—*continued.*

Bombay—*contd.*
(Page 18)

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net sown area (26,862,377 acres) entered in this column for 1921-22, 25,567,941 acres are based on actual returns and 1,294,436 acres on estimates.

Sind
(Page 18)

Column 2.—The figures do not agree with those in the Forest Administration Report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do.

United Provinces
(Page 19)

Column 2 includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the Forest Administration Report which excludes these areas. This column also includes the Siwalik Range in the Dehra Dun District.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Column 6.—Of the total net sown area (26,604,960 acres) entered in this column for 1921-22 for the province of Agra, 26,000,960 acres are based on actual returns and 604,000 acres on estimates.

Bihar and Orissa
(Page 19)

Column 2.—The figures represent Government forests and estimates of other forest areas furnished by District Officers.

Punjab
(Page 19)

Column 2 includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years ; but as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the Province, however, the classification is amended annually.

Burma
(Pages 19-20)

For tracts outside the surveyed area the figures are based on estimates.

Column 2.—The area classed as forests comprises only those areas which are administered by the Forest Department as reserved forests or fuel reserves.

Column 3.—Land not available for cultivation includes all land absolutely barren and all lands covered by buildings, roads, water or otherwise appropriated to uses other than agriculture. In settled tracts the unculturable area is taken from settlement registers, but in the unsettled tracts it is obtained from the best source available.

Column 4 includes land thrown out of cultivation and abandoned and any land under palms and bamboos and thatching grass which is not shown in columns 2, 3, 5 or 6.

Column 5 includes all land occupied for agricultural purposes which is left uncultivated. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated.

Column 6.—Of the total net area sown (16,013,572 acres) entered in this column for 1921-22 for the whole province, 13,621,978 acres are based on actual returns and 2,391,594 acres on estimates.

APPENDIX B—*continued.*EXPLANATORY NOTES—*continued.*Table II.—Classification of Area—*continued.*

Column 2 shows the areas administered by the Forest Department; but the figures differ from those in the Forest Administration Report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thikadari villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

Column 3 states areas covered with water, hill or rock, and land occupied by buildings and roads.

Column 4 states (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow.

Column 2 includes the forest area administered by the Forest Department, but exclude a large area of cultivated land in the Melghat taluk in Amraoti shown as forest in the forest report.

Column 3 includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of cultivable fields.

Column 4 includes land available for cultivation but not given out.

Column 5 includes occupied cultivable land left fallow for private reasons, such as grazing, rotation, etc.

Column 2.—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table.

Columns 3 and 4.—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into cultivable and uncultivable on the assumption that their proportion in the surveyed area holds good.

Column 5.—Includes generally all lands which are thrown out of cultivation or not cultivated for three years, but which remain in the occupation of leaseholders. Figures for the hill districts except the plains portion of the Garo Hills and Sadiya Frontier Tract are rough estimates.

Column 6.—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill districts and the Sadiya Frontier Tract are based on estimates.

Column 2 includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazara administered by the district officer and other waste lands in Peshawar.

Column 4 includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table II.—Classification of Area—concluded.

Ajmer-Merwara
(Page 21)

Column 2.—The forest area relates to khalsa, jagir, and minor istamrar villages, but excludes village lands managed by the Forest Department which do not technically constitute Government forests.

Table III.—Area irrigated and Crops irrigated.

Bengal
(Pages 22-23)

Columns 2 to 19.—Areas irrigated from all sources are only estimates, except in the case of areas irrigated from Government canals.

Madras
(Pages 22-23)

Column 4.—The term “ tanks ” refers to a particular kind of dammed reservoirs. These reservoirs are formed by enclosing depressions or throwing dams across the valleys of small rivulets and streams to intercept water during the rains.

Column 7.—Of the total area 9,562,091 acres irrigated in 1921-22, 7,902,706 acres are based on actual returns and 1,659,385 acres on estimates.

Bombay and Sind
(Pages 22-23)

Columns 2 to 7.—The figures given for private canals, tanks, wells, and other sources are rough estimates.

United Provinces
(Pages 24-25)

Columns 2 to 6.—Government canals include private canals except in Dehra Dun, Naini Tal, Budaun, and Basti for which districts separate figures for private canals are obtained. There are very few private canals in the United Provinces.

Other food crops include condiments and spices, fruits and vegetables and miscellaneous food crops.

Column 7.—Of the total area for the province of Agra (7,469,447 acres) irrigated in 1921-22, 7,433,547 acres are based on actual returns and 35,900 acres on estimates.

Bihar and Orissa
(Pages 24-25)

Columns 2 to 19.—The figures are only estimates, except in the case of areas irrigated from Government canals.

Punjab
(Pages 24-25)

Columns 8 to 19 state the gross area irrigated, that is, land irrigated in both seasons is counted twice.

Burma
(Pages 24-27)

Columns 8 to 19 include only crops actually irrigated; for instance, where an unirrigated crop of sesamum is taken off land which is afterwards irrigated and planted with paddy, the area grown with sesamum is not included in this column.

Assam
(Pages 26-27)

Columns 2 to 19.—Estimates of areas irrigated are available for Kamrup, Darrang, Sibsagar, the Khasi and Jaintia Hills, the Garo Hills, the Lushai Hills and the Sadiya Frontier Tract. In the case of the last four districts, however, the estimates are somewhat incomplete.

North-West Frontier
Province
(Pages 26-27)

Columns 8 to 19 state the gross area irrigated, that is, land irrigated in both seasons is counted twice, but areas irrigated more than once in a single harvest are included only once in columns 2—7.

Table IV.—Area under Crops.

Bengal
(Pages 30-31, 36-37)

Statistics are not prepared by village or circle officers. The figures entered in this table are estimates. Statistics for jute only are collected through the agency of *panchayats* (village unions).

Madras
(Pages 30-31, 36-37)

Column 39 (fodder crops) states the areas sown with grass and crops solely for fodder. Lands left waste for grazing and on which grass grows spontaneously are not included in this column. It shows crops that in normal times are used only as fodder.

Bombay
(Pages 30-31, 36-37)

Figures for unsurveyed villages are based on estimates.

United Provinces
(Pages 30-33, 36-39)

The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crop by the village accountant.

APPENDIX B—*continued*.EXPLANATORY NOTES—*continued*.Table IV.—Area under Crops—*continued*.

The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and United Provinces—^{contd.} gram, jowar and arhar, bajra and arhar, and cotton and arhar, for which separate headings (Pages 30-33, 36-39) are provided in the crop statements, are distributed in accordance with prescribed formula and entered under the crops of which they are composed.

Columns 3, 4, 5, 6, 9 and 10.—The whole of the area of the land planted with food grains wheat, barley, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,767,000 acres in the whole of the United Provinces of Agra and Oudh in 1921-22.

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1921-22 (for the whole of the United Provinces of Agra and Oudh) to 660,000 acres of linseed, 975,000 acres of sesamum, and 2,132,000 acres of rapeseed.

There is no agency for the collection of statistics in Almora, Garhwal, and the hill tracts of Naini Tal. Estimates have, however, been made for Garhwal and included in the table.

No statistics are at present prepared by village or circle officers, except in the Sambalpur Bihar and Orissa district. The figures for all other districts entered in this table are estimates. The estimates (Pages 32-33, 38-39) for Patna, Gaya, Shahabad, Saran, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Puri, Cuttack (exclusive of small permanently-settled areas), Balasore, Angul, the Santhal Parganas, Hazaribagh, Ranchi, Palamau and Singhbhum are, however, based on the figures collected during the cadastral survey.

For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible. ^{Burma} (Pages 32-33, 38-39)

The information is received from district officers who in their turn obtain figures from ^{Assam} the district Land Records staffs in the case of the temporarily-settled areas and from Zamindars (Pages 34-35, 40-41) in the case of the permanently-settled portion of Goalpara, with the exception in the latter district of jute, the estimate for which is compiled by the village Chaukidari Panchayats. In the permanently-settled part of Sylhet the figures for jute are those submitted after actual inspection by the village Chaukidari Panchayats. The figures for tea are reported by the garden managers, while for all other crops estimates have been framed by the district officers from the actual areas in the surveyed parts, applied to the rest of the districts. The figures for the hill districts and the Sadiya Frontier Tract are rough estimates which are revised quinquennially except for cotton for the hill districts and sugarcane and rape and mustard for the Sadiya Frontier Tract for which estimates have to be made annually for the forecasts of these crops.

Column 40.—The area under fruits and vegetables includes village sites.

Table V.—Live-stock.

Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of ^{Bengal} the districts in columns 2 to 4 have, however, subsequently been revised. The census did (Pages 42-43) not take into account the animals named in columns 9 to 16, nor ploughs and carts (columns 17 and 18). Figures for 1919-20 under all the heads are based on a cattle census taken in 1920.

The last quinquennial census was taken in October, 1919, in all villages, Government ^{Madras} Inam, and Zamindari, and stock in cities, cantonments, and that employed in Government (Pages 42-43) Departments and Municipalities were included. Oxen, buffaloes, horses and ponies not old enough for work or breeding were treated as young stock.

APPENDIX B—*continued.*EXPLANATORY NOTES—*continued.*Table V.—Live-stock—*continued.*Bombay and Sind
(Pages 42-43).

The figures are collected once in five years. The last quinquennial census was taken in 1919-20.

United Provinces
(Pages 42-43).

The table is prepared quinquennially on a census in each district taken every five years. The census which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the census was taken in 1912. The last census was taken in 1920, except in Almora, Garhwal, and the hill tracts of Naini Tal.

Bihar and Orissa
(Pages 42-43).

The figures for 1913-14 shown in the table for all the districts of the Province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Palamau, Hazaribagh, and Ranchi the figures based on information collected during survey operations, while the figures for Manbhum were based on police reports. Corrections were made in the figures for Hazaribagh in 1915-16 and for Palamau in 1917-18. The figures for 1919-20 were for the most part ascertained by a census held in January 1920. In Manbhum the available settlement figures were supplemented by a census. In Hazaribagh and Ranchi, the previous settlement figures were brought up to date by a census in 1 per cent of the villages. In Palamau the settlement figures were accepted. The 1919-20 figures were finally corrected in 1922 when a review of the census was published.

Punjab
(Pages 42-43).

A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1920. All cattle in cantonments and Municipalities as also those belonging to Government are included.

Burma
(Pages 42-43).

Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *taikthuggis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities.

Central Provinces
(Pages 44-45).

The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included.

Berar
(Pages 44-45).

A census is made annually by the village officers. All cattle belonging to one owner are entered against his name even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Assam
(Pages 44-45).

The statistics for 1919-20 are based on a cattle census held in 1920 except in the plains portion of Garo Hills for which the figures are those obtained at a census taken in 1913. No information is available for Garo Hills (hill portions), Naga Hills, Khasi and Jaintia Hills and Lushai Hills.

North-West Frontier
Province
(Pages 44-45).

A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1920. All cattle belonging to Government are included.

Table VI.—Land Revenue.

Bengal
(Pages 46-47).

The table is prepared quinquennially, and the figures were last collected in 1917-18.

Column 1.—The following classification of estates has been adopted:—

- (1) *Zamindari (permanently settled)* including estates managed for proprietors by Government.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table VI.—Land Revenue—continued.

- (2) *Zamindari (temporarily settled)* comprising (a) all temporarily settled estates, Bengal—contd. namely, those settled for periods with proprietors and estates leased to farmers (Pages 46-47) for periods; and (b) all estates owned by Government as proprietor.

Column 4 (b) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

The table is prepared quinquennially. The figures were last collected in 1918-19.

Madras
(Pages 46-47)

Column 3 (a).—In the case of raiyatwari tracts this column states the areas of unoccupied assessed lands, of all unassessed porambores, of minor inam lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous"; and in the case of zamindari tracts the areas of hills, porambores, and minor inams are entered. The entire area of whole inam villages is deducted from this column.

Column 3 (b).—Raiyatwari includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers.

Column 4 (a).—The figures for the raiyatwari tenures in this column represent the total occupied area stated in village papers which differ in some cases from the resultant of preceding columns.

Column 4 (b).—For certain districts areas actually cultivated and for certain other estimates, or actuals supplemented by estimates, are shown in this column.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Column 8 shows only the "ordinary revenue", as defined in the Civil Accounts, on area fully assessed.

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (a).

Column 11 states the entire population of raiyatwari and zamindari villages, respectively.

This return is prepared quinquennially.

Bombay
(Pages 46-49)

Column 1.—Lands held under special tenures, such as talukari, mehwas, udhad-jamabandi narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)".

Column 3 (a) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area.

Column 3 (b) includes alienated cultivated and zamindari cultivated (estimated) land.

Column 4 includes land under temporary cultivation, also pot inams paying full assessment.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years about 2.5 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area.

Column 11 includes population of pot inams and the like scattered areas, which cannot be distinguished from the population of the fully assessed area.

APPENDIX B—*continued.*EXPLANATORY NOTES—*continued.*Table VI.—Land Revenue—*continued.*Bombay—*contd.*
(Pages 46-49)

Column 12.—The incidence is based on the figures given in column 11 and those in column 8 *plus* the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment.

Sind
(Pages 48-49)

This return is prepared quinquennially.

Column 3 (a) includes fallows and fully assessed unoccupied area.

Column 4 excludes fallows and fully assessed unoccupied area [see note to column 3].

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years 6·3 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 10.—The incidence is calculated from the cultivated area (excluding fallows) and the assessment on that area.

North-West Frontier
Province
(Pages 54-55)

Columns 3 (a) and 3 (b) include villages receiving frontier remissions and istamrari tenures.

Column 4 (b) includes fully assessed current fallows which bore any crop in the preceding year.

Column 5 shows all the items falling under the head "Land Revenue" in the Civil Accounts, including assigned revenue.

Column 10.—The incidence is calculated on the cultivated area excluding current fallows.

United Provinces
(Pages 48-49)

The table is prepared quinquennially, and the figures were last collected in 1921-22.

Columns 3 (a) and 3 (b) exclude small revenue-free plots, for which details are not forthcoming.

Column 5 states (1) "ordinary revenue," comprising (a) fixed collections (including land revenue on account of resumed Gorait Jagirs), (b) fluctuating collection, (c) surplus collections, (d) collections from Government estates (including collections from Dudhi, Tarai, and Bhabar Estates, and receipts from Forest Estates); (2) sale of Government estates; (3) sale-proceeds of waste lands and redemption of land tax; (4) miscellaneous, comprising (a) receipt from quarries and mineral products in forest and land not under the management of the Forest Department, (b) water mills rent, (c) malikanas or allowance to excluded proprietors, (d) fines and forfeitures of Revenue courts, (e) recoveries in India of law charges in England on account of appeals from India, (f) miscellaneous receipts, (i) patwari miscellaneous receipts (Revenue Record Room), (ii) mutation fees, (iii) mutation fines, (iv) sale of waste paper, (v) Partition fees, (g) Rents of Railway class "C" land and rents of buildings situated on such land. On the average of the last five years about 2·13 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 6.—The total population of the province includes the population of the Benares State.

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12.

Columns 13 and 14.—The figures are taken from the Census Reports of 1911.

Ajmer-Merwara
(Pages 56-57)

The table is prepared quinquennially, and the figures were last collected in 1921-22.

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrari areas as "Zamindari (permanently settled)."

Column 4 includes in the case of the khalsa villages the assessed cultivated area including assessed fallows.

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts.

APPENDIX B—continued.

EXPLANATORY NOTES—continued.

Table VI.—Land Revenue—continued.

Column 10.—The cultivated area is in the case of “Zamindari (temporarily settled),” the crop portion of the fully assessed area. Ajmer-Merwara—
contd.
(Pages 56-57)

Column 11 excludes population of Jagir villages.

The table is prepared quinquennially.

Bihar and Orissa
(Pages 48-51)

Column 1.—The following classification of estates has been adopted:—

- (1) *Zamindari (permanently settled)* including estates managed for proprietors by Government;
- (2) *Zamindari (temporarily settled)* comprising (a) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods and (b) all estates owned by Government as proprietor.

Column 5 includes all the items falling under the head “Land Revenue” in the Civil Accounts. On the average of the last five years about 0·3 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Columns 3 (a) and 3 (b) include villages receiving frontier remissions, tracts which are entirely unassessed (such as the Kulu Mountains) and istamrari tenures. Punjab
(Pages 50-51)

Column 5 shows all the items falling under the head “Land Revenue” in the Civil Accounts, including assigned revenue.

Column 10.—The cultivated area taken for calculating the incidence is exclusive of current fallows.

Column 2 includes tracts outside the surveyed area for which the figures are mostly based on estimates. Burma
(Pages 50-51)

Column 3 (a).—No deduction is made for areas held revenue-free or at privileged rates as they are, ordinarily less than an entire village and as it is difficult to estimate the corresponding deductions to be made in the population (Column 11).

Column 3 (b) includes the whole area except that occupied for cultivation.

Column 4 (a) includes the area occupied for cultivation including land wholly or partly exempted or remitted from assessment on account of fallow or short crops.

Column 4 (b) represents the area actually sown whether assessed or exempted or remitted from assessment.

Column 5 comprises ordinary land revenue (including water rate), capitation tax, *thathameda* tax, fishery revenue and miscellaneous revenue (petroleum, rubies, other minerals, etc.). Sums remitted on account of uncultivated land or short crops, etc., are excluded.

Column 6 represents the population at the last census with no allowance for subsequent increase.

Column 8 represents the ordinary land revenue (including water rate) actually collected or due for collection within the year excluding remissions and exemptions.

Column 1.—Zamindari (temporarily settled) includes *malguzari* and *thekadari*.

Central Provinces
(Pages 50-53)

Column 2 states the area by village papers (column 6 of table I, No. 9).

Column 3 (a).—Zamindari estates properly so-called (that is, excluding *malguzari*) are classed as not fully assessed.

Column 4 (b) excludes fallows.

Column 5.—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province.

Column 10.—The cultivated area referred to in this column is the fully assessed portion of the net sown area.

APPENDIX B.—concluded.

EXPLANATORY NOTES.—concluded.

Table VI.—Land Revenue.—concluded.

Berar
(Pages 52-53)

Column 3 (a).—This column states jagir, izara, and palampat villages, all unassessed land forest areas, village sites, roads, rivers, etc.

Column 4 (a).—*Pot Kharab* lands are excluded from this column, which includes only, occupied lands available for cultivation.

Column 4 (b) states the cultivated area in khalsa villages only.

Column 5.—The figures include the revenue derived from jagir, palampat, and izara villages. As regards the items of land revenue included, the practice has not been uniform, different districts having entered different items.

Column 8 shows assessment on occupied lands only, as stated in column 4(a).

Column 10.—The incidence has been calculated on the area entered in column 4(b), that is, the cultivated area in khalsa villages only.

Column 11 excludes population of jagir and izara villages.

Assam
(Pages 54-55)

Column 1.—*Raiyatwari* includes, besides raiyatwari tenures, all unsettled Government waste and forest lands and areas in which house-tax or poll-tax is levied; it also includes certain temporarily settled estates in Sylhet which were formerly (before 1902-03) included under Zamindari (temporarily settled). *Zamindari (temporarily settled)* includes, besides temporarily settled Zamindari estates, fee-simple grants, wholly or partially revenue-free tenures, and grants under progressive assessment.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts. On the average of the last five years about 1·374 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 10.—The incidence has been calculated on the cultivated portion of the fully assessed area.

Column 11.—The figures of population of fully assessed areas are estimates based upon village census registers.

APPENDIX C

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA

- Agasi, agati, or avati* (*Sesbania grandiflora*)—A vegetable crop.
- Ajmur* (*Carum Roxburghianum*)—A kind of spice.
- Ajwan* (*Carum copticum*)—A kind of spice, "Bishop's weed."
- Akurkura or jevandi* (*Chrysanthemum coronarium*)—A non-food crop.
- Amala or mamidi albam* (*Curcuma amala*)—A condiment.
- Ampazham* (*Spondias magnifera*)—The hog plum.
- Arhar* (*Cajanus indicus*)—The pigeon pea.
- Arunelli* (*Phyllanthus distichus*)—Country star gooseberry.
- Bajra* (*Pennisetum typhoideum*)—The spiked millet.
- Bané* (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.
- Barbati* (*Vigna catjang*)—Asparagus, a food grain.
- Barti* (see Wudalu).
- Bel* (*Ægle Marmelos*)—A fruit.
- Bhagdari* (see Narvadari).
- Bilimbi* (*Averrhoa Bilimbi*)—A fruit.
- Bimb* (*Cephalandra indica*)—A fruit.
- Chaplash* (*Artocarpus Chaplasha*)—A tree grown mainly for timber.
- Chayroot* (*Oldenlandia umbellata*)—A dye.
- Chenna* (*Panicum miliaceum*)—The common millet.
- Chelik* (*Coix lachryma-jobi*)—A food grain, "Job's Tear."
- Chikkudukayalu* (*Dolichos lablab*)—The Indian or popat bean.
- Cholam* (see Jowar).
- Cholanathu* (*Andropogon sorghum*)—Fodder jowar.
- Chowli* (see Barbati).
- Cumbu* (see Bajra).
- Dani* (*Nipa fruticans*)—A soboliferous palm, the leaves of which are used for thatching purposes, also for matting.
- Dhaincha* (*Sesbania aculeata*)—A plant cultivated mainly for green manure.
- Dhatura* (*Datura alba*)—A drug.
- Dividiri* (*Cæsalpinia coriara*)—A tanning material.
- Gajar*—Carrot.
- Garmal* (*Coleus barbatulus*)—A fruit.
- Gonili* (see Kutki).
- Gorait* (United Provinces)—Village watchman.
- Henna* (*Lawsonia alba*)—A dye.
- Inám* (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are entire villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.
- (Coorg)—A grant of land by Government as a reward for services rendered or for religious or charitable purposes.
- Isfagul* (*Plantago ovata*)—A drug.
- Istamrari* (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned is charged with a permanently fixed quit-rent.
- Izafat* (Bombay)—A form of service tenure.
- Izúra* (Berar)—Land leased under the waste-land rules on stipulated terms.
- Jagir* (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.
- (Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.
- (Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.
- Jambo or naral*—Black plum.
- Jamma* (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX C—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued

Jenugulu—Asparagus.

Jinjili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, minus the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Jowar (*Sorghum vulgare*)—The great millet.

Kalpayaru—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet.

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Koenigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kavathu (*Dioscorea alata*)—A tuber used as a food stuff.

Khalsa (Bombay)—Government occupaney or raiyatwari tenure.

— (Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

— (Berar, Ajmer-Merwara)—Land paying full revenue to Government.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khiraj (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Korai—The Indian matting sedge.

Kolinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Kuhudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (see *Kodo*).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (see *Barbati*).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Marua (*Elusine coracana*)—A kind of millet.

Marukkolundu (*Artemisia vulgaris*)—The Indian worm wood.

Mehwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Maunder)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX C—continued

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—continued

- Munsarim* (Berar)—A head native revenue officer.
- Narvadari, Bhagdari* (Bombay)—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump and in the latter distributed by rates over fields.
- Neem or Margosa* (*Melia azadirachta*)—A non-food crop.
- Neerali* (*Gynocordia odorata*)—An oilseed.
- Nela mulaka* (*Solanum xanthocarpum*)—The bogoda brinjal, a drug.
- Nisfkhiraj* (Assam)—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.
- Odamula* (*Ochlandra Rheedii*)—A reed.
- Ol or zaminkand*—The elephant foot, a root crop.
- Palampat* (Berar)—Land held on payment of a quit-rent, but not necessarily hereditary.
- Panchayat* (Bengal)—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.
- Papay* (*Carica papaya*)—A fruit.
- Parpattigar* (Coorg)—A revenue officer in charge of a sub-division of a taluk.
- Parvar* (see Patol).
- Patel* (Coorg)—Village headman appointed by Government.
- Patol* (*Trichosanthes dioica*)—A vegetable crop.
- Peshkash* (Madras)—The fixed land revenue payable to Government on all permanently-settled estates.
- Pimakottai or pouna*—The mast wood.
- Ponnagantikura* (*Alternanthera sessilis*)—A vegetable crop.
- Poramboke* (Madras)—Lands reserved for public or village communal purposes.
- Pôt inâms* (Bombay)—Lands sub-alienated in alienated villages.
- Pôt kharâb* (Berar)—The unculturable area included in a survey number.
- Puliyavara* (*Oxalis corniculata*)—A vegetable crop.
- Ragi* (see Marua).
- Randhuni* (see Ajmud).
- Rayatwari*—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.
- Sabai grass* (*Ischaemum Augustifolium*)—A fibre plant.
- Sank-alu* (*Pachyrhizus angulatus*)—A root crop.
- Sapodilla* (*Achras Sapota*)—A fruit.
- Sebestan* (*Cordia Myxa*)—A fruit.
- Shanbôg* (Coorg)—A village accountant appointed by Government.
- Shrotriem* (Madras)—Village held on grant (originally to Brahmins), wholly or partially revenue-free.
- Siris tree or vagai* (*Albizzia Lebbek*)—A non-food crop.
- Sorrell* (*Rumex vesicarius*)—A vegetable crop.
- Sother*.—Radish.
- Swank* (*Panicum frumentaceum*)—A food grain.
- Talukdari* (Bombay)—A form of proprietary right in force in the northern districts of Bombay.
- Tejpat* (*Cinnamomum Tamala* and *C. obtusifolium*)—A spice.
- Thathameda* (Upper Burma)—Household tax.
- Thattan payara* (see Barbat).
- Thekadar* (Central Provinces)—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.
- Thetke grass* (*Imperata arundinacea*)—A small perennial grass used chiefly for thatching purposes.
- Thugyi* (Burma)—A village headman.

APPENDIX C—concluded

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL
STATISTICS OF INDIA—concluded

- Til* (*Sesamum indicum*).—An oilseed.
- Uchhe* (*Momordica muricata*).—A vegetable crop.
- Udai* (*Acacia eburnea*).—A thorny tree used as fuel or for fencing purposes.
- Udhad-jamabandi* (Bombay).—A proprietary tenure subject to fixed assessment.
- Umbli* (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.
- Unda* (*Pongamia glabra*).—An oilseed.
- Urad* (*Phaseolus radiatus*).—Black gram.
- Wudalu or barti Panicum flavidum*).—A food grain.
- Zamindar*.—The holder of an estate on a fixed assessment under a deed of permanent ownership granted by Government.
- (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.
- Zamindari*.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.
- (United Provinces).—An undivided estate held in joint tenure.

APPENDIX D

ALPHABETICAL LIST OF CROPS CULTIVATED IN INDIA AND THEIR CLASSIFICATION
IN TABLE IV

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Agasi, agati or avati	<i>Sesbania grandiflora</i>	40. Fruits and Vegetables including root crops.
Agave	<i>Agave</i> spp.	25. Fibres—others.
Ajmud or Randhuni	<i>Carum Roxburghianum</i>	20. Condiments and spices.
Ajwan or Bishop's weed	<i>Carum Copticum</i>	20. " " "
Akurkura (<i>see</i> <i>Chrysanthemum</i>)		
Al (<i>see</i> <i>Morinda</i>)		
Aloes	<i>Aloe vera</i>	37. Drugs and Narcotics— others.
Alya (<i>see</i> <i>Cress</i>)		
Amada or Mamidi allam	<i>Curcuma Amada</i>	20. Condiments and spices.
Anaranths	<i>Amarantus</i>	41. Misc. food crops.
Ampazham (<i>see</i> <i>Plum</i>)		
Anise seed	<i>Pimpinella Anisum</i>	20. Condiments and spices.
Apple, wood	<i>Feronia elephantum</i>	40. Fruits and Vegetables including root crops.
" Rose	<i>Eugenia Jambos</i>	40. " " "
" Custard	<i>Anona squamosa</i> and <i>A. reticulata</i>	40. " " "
Areca nut or Betel nut	<i>Areca Catechu</i>	37. Drugs and Narcotics— others.
Arhar or pigeon pea	<i>Cajanus indicus</i>	10. Other food grains, etc.
Arnatto or Arnottó	<i>Bixa Orellana</i>	30. Dyes and Tanning Materials—others.
Arrowroot, West Indian	<i>Maranta arundinacea</i>	41. Misc. food crops.
" Wild or East Indian	<i>Curcuma augustifolia</i>	41. " " "
Artichoke	<i>Cynara Scolymus</i> or <i>Centaurea Cardunculus</i>	40. Fruits and Vegetables including root crops.
Arum (edible), Kachu or Kachalu	<i>Colocasia Antiquorum</i>	40. " " "
Arunelli (<i>see</i> <i>Gooseberry</i> , country star)		
Bajra (<i>see</i> <i>Millet</i>)		
Barbati, Lobia, Jenugulu, Thattan-payara or Chowli (<i>Asparagus</i>)	<i>Vigna Catjang</i>	10. Other food grains, etc.
Barley	<i>Hordeum vulgare</i>	4. Barley.
Barti (<i>see</i> <i>Wudalu</i>)		
Basil, sweet	<i>Ocimum Basilicum</i>	37. Drugs and Narcotics— others.
Beans	<i>Phaseolus lunatus</i>	40. Fruits and Vegetables including root crops.
" <i>Asparagus</i> (<i>see</i> <i>Barbati</i>)		
" Sword or Makhan Sim	<i>Canavalia ensiformis</i> , <i>C. gladiata</i>	40. Fruits and Vegetables including root crops.
" French	<i>Phaseolus vulgaris</i>	40. " " "
" Goa	<i>Psophocarpus tetragonolobus</i>	40. " " "
" Indian, Chikkudukayalu, or Popat	<i>Dolichos lablab</i>	40. " " "
" Kidney, Moth, or Kalpayaru	<i>Phaseolus aconitifolius</i>	40. " " "
" Soy	<i>Glycine hispida</i>	40. " " "
Beetroot	<i>Beta vulgaris</i>	40. " " "
Bel	<i>Egle Marmelos</i>	40. " " "
Betel vine	<i>Piper Betle</i>	37. Drugs and Narcotics— others.
" nut (<i>see</i> <i>Arecanut</i>)		
Bhindi (<i>see</i> <i>Hibiscus</i> , edible)		
Bilimbi	<i>Averrhoa Bilimbi</i>	40. Fruits and Vegetables including root crops.
Bimb	<i>Cephalandra indica</i>	40. " " "
Bishop's weed (<i>see</i> <i>Ajwan</i>)		
Borage, country	<i>Coleus aromaticus</i>	37. Drugs and Narcotics— others.
Brinjal	<i>Solanum Melongena</i> , <i>S. longum</i>	40. Fruits and Vegetables including root crops.
" bogoda or nela mulaka	<i>Solanum xanthocarpum</i>	37. Drugs and Narcotics— others.
Buck wheat (<i>see</i> <i>Wheat</i>)		

APPENDIX D—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Cabbage	<i>Brassica oleracea</i>	40. Fruits and Vegetables including root crops.
Caraway or Jira	<i>Carum Carui</i>	20. Condiments and spices.
„ Black or Shahjira	<i>Carum Bulbocastanum</i>	20. „ „ „
Cardamom Aromatic	<i>Amomum aromaticum</i>	20. „ „ „
„ greater	„ <i>subulatum</i>	20. „ „ „
„ lesser	<i>Elettaria Cardamomum</i>	20. „ „ „
Carob or Locust tree	<i>Ceratonia Siliqua</i>	39. Fodder crops.
Carrot or Gajar	<i>Daucus Carota</i>	40. Fruits and Vegetables including root crops.
Cashew nut	<i>Anacardium occidentale</i>	40. „ „ „
Cassava	<i>Manihot utilisima</i> and <i>M. palmata</i>	40. „ „ „
Castor	<i>Ricinus communis</i>	17. Castor.
Cauliflower	<i>Brassica oleracea</i>	40. Fruits and Vegetables including root crops.
Celery	<i>Apium graveolens</i>	40. „ „ „
Chaplash (<i>see</i> Sam tree)		
Chayroot	<i>Oldenlandia umbellata</i>	30. Dyes and Tanning Materials—others.
Cheena (<i>see</i> Millet)		
Cheik (<i>see</i> Job's Tear)		
Chicory	<i>Cichorium Intybus</i>	40. Fruits and Vegetables including root crops.
Chickling Vetch (<i>see</i> Vetch)		
Chillies	<i>Capsicum sp.</i>	20. Condiments and spices.
Chikkudukayalu (<i>see</i> Beans, Indian)		
Cholum (<i>see</i> Millet)		
Cholanathu (fodder Cholum)	<i>Andropogon Sorghum</i>	39. Fodder crops.
Chowli (<i>see</i> Barbati)		
Chrysanthemum, Akurkura, or Jevandi	<i>Chrysanthemum coronarium</i>	42. Miscellaneous non-food crops.
Cinchona	<i>Cinchona sp.</i>	35. Cinchona.
Cinnamon	<i>Cinnamomum zeylanicum</i>	20. Condiments and spices.
Citron or lime or lemon	<i>Citrus medica</i>	40. Fruits and Vegetables including root crops.
Cloves	<i>Eugenia caryophyllata</i> or <i>Caryophyllus aromaticus</i>	20. Condiments and spices.
Coconut	<i>Cocos nucifera</i>	16. Coconut.
Coffee	<i>Coffea arabica</i>	32. Coffee.
Coriander	<i>Coriandrum sativum</i>	20. Condiments and spices.
Cotton	<i>Gossypium sp.</i>	23. Cotton.
Cress	<i>Lepidium sativum</i>	40. Fruits and Vegetables including root crops.
Cucumber	<i>Cucumis sativus</i>	40. „ „ „
Cumbu (<i>see</i> Millet)		
Cumin	<i>Cuminum Cyminum</i>	20. Condiments and spices.
Custard Apple (<i>see</i> Apple)		
Dani	<i>Nipa fruticans</i>	42. Miscellaneous non-food crops.
Date palm (<i>see</i> Palm)		
Dhaincha	<i>Sesbania aculeata</i>	42. Miscellaneous non-food crops.
Dhatura	<i>Datura alba</i>	37. Drugs and Narcotics— others.
Dill or Sowa	<i>Peucedanum graveolens</i>	18. Oilseeds—others.
Dividivi	<i>Cassalpinia coriara</i>	30. Dyes and Tanning Materials—others.
Drumsticks or Horse-radish	<i>Moringa pterygosprema</i>	40. Fruits and Vegetables including root crops.
Elephant foot, Zaminkand or Ol	<i>Amorphophallus campanulatus</i>	40. „ „ „
Elephant yam	<i>Tryphonium trilobatum</i>	40. „ „ „
Fennel	<i>Foeniculum vulgare</i>	20. Condiments and spices.

APPENDIX D—continued.

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP.		Heads of classification in Table IV.
English or Vernacular.	Botanical.	
Fenugreek	Trigonella fœnum grœcum .	20. Condiments and spices.
Field Vetch (<i>see</i> Vetch)		
Fig	Ficus Carica	40. Fruits and Vegetables including root crops.
Flea-bane, purple	Vernonia anthelmintica	37. Drugs and Narcotics— others.
Flowers		42. Miscellaneous non-food crops.
Gajar (<i>see</i> Carrot)		
Garlic	Allium sativum	20. Condiments and spices.
Garinal	Coleus barbatus	40. Fruits and Vegetables including root crops.
Gawar (<i>see</i> Vetch)		
Ginger	Zingiber officinale	20. Condiments and spices.
Goa bean (<i>see</i> Bean)		
Gondi (<i>see</i> Millet)		
Gooseberry, Cape—or tepari	Physalis peruviana	40. Fruits and Vegetables including root crops.
„ Country star or Arunelli	Phyllanthus distichus	40. „ „ „
Goose foot	Chenopodium album	40. „ „ „
Gourd, Snake	Trichosanthes anguina	40. „ „ „
„ Bottle	Lagenaria vulgaris	40. „ „ „
„ Towel	Luffa acutangula	40. „ „ „
„ Red or melon pumpkin	Cucurbita maxima	40. „ „ „
„ Melon, white	Benincasa cerifera	40. „ „ „
Gram	Cicer arietinum	9. Gram.
„ Field	Phaseolus trilobus	10. Other food grains, etc.
„ Green or Mung	Phaseolus Mungo	10. „ „ „
„ Horse or Kulthi	Dolichos biflorus	10. „ „ „
„ Black or Urad (Matikalai)	Phaseolus radiatus	16. „ „ „
Grape	Vitis vinifera	40. Fruits and Vegetables including root crops.
Groundnut	Arachis hypogœa	15. Groundnut.
Guava	Psidium Guajava	40. Fruits and Vegetable including root crops.
Guinea grass	Panicum maximum	39. Fodder crops.
Gumberry	Cordia Rothii	40. Fruits and Vegetables including root crops.
Hemp, Indian, or Ganja	Cannabis sativa	36. Indian Hemp.
„ Sunn	Crotalaria juncea	25. Fibres—others.
„ Deccan	Hibiscus cannabinus	25. „ „
„ Sisal	Agave sisalana	25. „ „
Henna	Lawsonia alba	30. Dyes and Tanning Materials—others.
Hibiscus, edible or bhindi	Hibiscus esculentus	40. Fruits and Vegetables including root crops.
Horse-radish (<i>see</i> Drumsticks)		
Indian Hemp (<i>see</i> Hemp)		
Indian worm wood (<i>see</i> Marukkolundu)		
Indigo	Indigofera sumatrana and I. arrecta.	29. Indigo.
Isfagul	Plantago ovata	37. Drugs and Narcotics— others.
Jack fruit	Artocarpus integrifolia	40. Fruits and Vegetables including root crops.
Jambotree (<i>see</i> Plum, black)		
Jenugulu (<i>see</i> Barbati)		
Jevandi (<i>see</i> Chrysanthemum)		
Jinjili (<i>see</i> Sesamum)		
Jira (<i>see</i> Caraway)		
Job's Tear or Cheik	Coix lachryma-jobi	10. Other food grains, etc.
Jowar (<i>see</i> Millet)		

APPENDIX D—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	40. Fruits and Vegetables, including root crops.
Jute	Corchorus sp.	24. Jute.
Kachu or Kachalu (<i>see</i> Arum)		
Kakri (<i>see</i> Melon)		
Kalparyu (<i>see</i> Beans, Kidney)		
Kamranga	Averrhoa Carambola	40. Fruits and Vegetables including root crops.
Kanda	Dracontium	40. " "
Kangni (<i>see</i> Millet)		
Kankrol	Momordica cochinchinensis	40. Fruits and Vegetables including root crops.
Kaon (<i>see</i> Millet)		
Kapok	Eriodendron anfractuosum	25. Fibres—others.
Karola	Momordica Charantia	40. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	20. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	40. Fruits and Vegetables including root crops.
Kavathu, pannikkavathu, pallakayathu, kolkavathu	Dioscorea alata	40. " " "
Kharbuja (<i>see</i> Melon)		
Khesari (<i>see</i> Vetch)		
Khurfa (<i>see</i> Purslane)		
Kidney bean (<i>see</i> Bean)		
Kirni	Mimusops hexandra	41. Miscellaneous food crops.
Kodo (<i>see</i> Millet)		
Korai (<i>see</i> Matting sedge, Indian)		
Kokam (<i>see</i> Mangosteen)		
Kolinji or vempali	Tephrosia purpurea	37. Drugs and Narcotics— others.
Koorka	Strobilanthes	40. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (<i>see</i> Gram)		
Kutki (<i>see</i> Millet)		
Lemon (<i>see</i> Citron)		
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	40. Fruits and Vegetables including root crops.
Lime (<i>see</i> Citron)		
Linseed	Linum usitatissimum	12. Linseed.
Lobia (<i>see</i> Barbat)		
Locust tree (<i>see</i> Carob)		
Lucerne	Medicago sativa	39. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	30. Dyes and Tanning Materials—others.
Mahua	Bassia latifolia and B. lon- gifolia.	41. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makham Sim (<i>see</i> Beans, Sword)		
Mango	Mangifera indica	40. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	40. " " "
Mankachu	Alocasia indica	40. " " "
Margosa or Neem tree	Melia azadirachta	42. Miscellaneous non-food crops.
Marians	Bouea burmanica	40. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	20. Condiments and spices.
Marua (<i>see</i> Millet)		
Marukkolundu or Indian wormwood	Artemisia vulgaris	42. Miscellaneous non-food crops.

APPENDIX D—continued.

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP.		Heads of classification in Table IV
English or Vernacular.	Botanical.	
Mast wood	Calophyllum inophyllum .	18. Oilseeds—others.
Mati kalai (<i>see</i> Black gram)		
Matting sedge, Indian or Korai	Cyperus corymbosus, C. tegetum.	25. Fibres—others.
Medlar, Indian	Vangueria edulis	40. Fruits and Vegetables including root crops.
Melon, Kharbuja	Cucumis Melo	40. " " "
" Kakri	Cucumis Melo var. momor- dica.	40. " " "
" Musk	Cucurbita moschata	40. " " "
" Water	(Citrullus vulgaris	40. " " "
" White Gourd (<i>see</i> Gourd)		
Metha (Fenugreek)	Trigonella fœnum-græcum .	20. Condiments and spices.
Millet, Bulrush, Bajra or Cumbu	Pennisetum typhoideum . .	6. Cumbu or Bajra.
" (Sorghum) or jowar or cholam	Sorghum vulgare	5. Cholam or Jowar.
" Italian, Kangni, or Kaon	Panicum Italicum or Setaria italica	10. Other food grains, etc.
" Kodo or Varagu	Paspalum serobiculatum . .	10. " " "
" Little, Kutki or Gondli	Panicum miliare	10. " " "
" Marua or Ragi	Eriosema Coracana	7. Ragi or marua.
" Common or Cheena	Panicum miliaceum	10. Other food grains, etc.
Mint or Pudina	Mentha arvensis	20. Condiments and spices.
Morinda or Al	Morinda tinctoria	30. Dyes and Tanning Materials—others.
Moth (<i>see</i> Bean)		
Mulberry	Morus indica	42. Miscellaneous non-food crops.
Mung (<i>see</i> Gram)		
Mustard	Brassica sp.	14. Rape and Mustard.
Naval (<i>see</i> Plum, black)		
Neem tree (<i>see</i> Margosa)		
Neerali	Gynocordia odorata	18. Oilseeds—others.
Niger Seed or Sorguja	Guizotia abyssinica	18. Oilseeds—others.
Nutmeg	Myristica fragrans	20. Condiments and spices.
Oats	Avena sativa	39. Fodder crops.
Odumula (reeds)	Ochlandra Rheedii	42. Miscellaneous non-food crops.
Ol (<i>see</i> Elephant foot)		
Onion	Allium Ceba	20. Condiments and spices.
Opium	Papaver somniferum	31. Opium.
Orache, garden (<i>see</i> spinach)		
Oranges	Citrus Aurantium	40. Fruits and Vegetables including root crops.
Palm, Date	Phoenix sylvestris	22. Sugar—others.
" Palmyra	Borassus flabellifer	22. " " "
Papay	Carica papaya	40. Fruits and Vegetables including root crops.
Parvar or Patol	Trichosanthes dioica	40. " " "
Peach	Prunus persica	40. " " "
Peas	Pisum sativum or Pisum arvense.	10. Other food grains, etc.
Peanut (<i>see</i> Groundnut)		
Pepper	Piper or Capsicum	20. Condiments and spices.
" Black	Piper nigrum	20. " " "
" Long	Piper longum	20. " " "
Pigeon or bottle grass	Setaria glauca	10. Other food grains, etc.
Pigeon pea (<i>see</i> Arhar)		
Pimakottai, Pouna (<i>see</i> Mastwood)		
Pine apple	Ananas sativa	40. Fruits and Vegetables including root crops.
Plantain	Musa sapientum	40. " " "
Plum, black, Jambo tree or Naval	Eugenia Jambolana	40. " " "
" Hog, or Ampazham	Spondias mangifera	40. " " "
Poi (<i>see</i> Spinach)		

APPENDIX D—continued

ALPHABETICAL LIST OF CROPS—contd.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Pomegranate	Punica granatum	40. Fruits and Vegetables including root crops.
Pomelo	Citrus decumana	40. " " "
Ponnagantikura	Alternanthera sessilis	40. " " "
Potato	Solanum tuberosum	40. " " "
" Sweet	Ipomoea Batatas, Batatas edulis.	40. " " "
Pudina (<i>see</i> Mint)		
Puliyavara	Oxalis corniculata	40. Fruits and Vegetables including root crops.
Pumpkin	Cucurbita pepo	40. " " "
Pumpkin Melon (<i>see</i> Gourd red)		
Radish or Sother	Raphanus sativus	40. Fruits and Vegetables including root crops.
Ragi (<i>see</i> Millet)		
Randhuvi (<i>see</i> Ajmud)		
Rapeseed	Brassica sp.	14. Rape and Mustard.
Raspberry	Rubus lasiocarpus	40. Fruits and Vegetables including root crops.
Rhea	Bœhmeria nivea	25. Fibres—others.
Rice	Oryza sativa	2. Rice.
Rose apple (<i>see</i> Apple)		
Roselle	Hibiscus subdariffa	40. Fruits and Vegetables including root crops.
Rubber (India)	Hevea brasiliensis, manihot Glaziovii.	42. Miscellaneous non-food crops.
Sabai grass	Ischœmum augustifolium	25. Fibres—others.
Safflower	Carthamus tinctorius	30. Dyes and Tanning Materials—others.
Saffron	Crocus sativus	30. " "
Sage	Salvia officinalis	20. Condiments and spices.
Sam tree or Chaplash	Artocarpus Chaplasha	42. Miscellaneous non-food crops.
Sank-ahu	Pachyrhizus angulatus	40. Fruits and Vegetables including root crops.
Sapodilla	Achras Sapota	40. " " "
Sawan (<i>see</i> Swank)		
Sebestan	Cordia myxa	40. Fruits and Vegetables including root crops.
Senna	Cassia angustifolia and C. ovata.	37. Drugs and Narcotics— others.
Sesamum, til or jinjili	Sesamum indicum	13. Sesamum.
Shahjira (<i>see</i> Caraway, black)		
Shama (<i>see</i> Swank)		
Singhara or water caltrop	Trapa bispinosa	40. Fruits and Vegetables including root crops.
Siris tree or vagai	Albizzia Lebbeck	42. Miscellaneous non-food crops.
Sisal hemp (<i>see</i> Hemp)		
Soapnut or Kumkudu-Kaya	Sapindus trifoliatus	37. Drugs and Narcotics— others.
Sorguja (<i>see</i> Niger seed)		
Sorrell	Rumex vesicarius	40. Fruits and Vegetables including root crops.
Sowa (<i>see</i> Dill)		
Sother (<i>see</i> Radish)		
Soy bean (<i>see</i> Bean)		
Spelt wheat (<i>see</i> Wheat)		
Spinach	Spinacea oleracea	40. Fruits and Vegetables including root crops.
" Indian or poi	Basella alba	40. " " "
" Mountain, or Garden Orache	Atriplex hortensis	40. " " "
Strawberry	Fragaria vesca	40. " " "
Sugarcane	Saccharum officinarum	21. Sugarcane.

APPENDIX D—concluded.
ALPHABETICAL LIST OF CROPS—concluded.

NAME OF CROP		Heads of classification in Table IV
English or Vernacular	Botanical	
Sunflower	Helianthus Annuus	18. Oilseeds—others.
Swallow-wort	Calotropis sp.	25. Fibres—others.
Swank, Sawan, or Shama	Panicum frumentaceum	10. Other food grains, etc.
Sweet flag	Acorus Calamus	37. Drugs and Narcotics— others.
Sweet potato (<i>see</i> Potato)		
Tamarind	Tamarindus indica	20. Condiments and spices.
„ Manila	Pithecolobium dulce	40. Fruits and Vegetables including root crops.
Taramira	Eruca sativa	14. Rape and Mustard.
Tea	Camelia Thea	33. Tea.
Tejpat	Cinnamomum Tamala and C. obtusifolium	20. Condiments and spices.
Tepari (<i>see</i> Gooseberry)		
Thattan-payara (<i>see</i> Barbati)		
Thetkè (grass)	Imperata arundinacea	42. Miscellaneous non-food crops.
Til (<i>see</i> Sesamum)		
Tobacco	Nicotiana Tabacum and N. Rustica.	34. Tobacco.
Tomato	Lycopersicum esculentum	40. Fruits and Vegetables including root crops.
Tori, Toria	Brassica Napus	14. Rape and Mustard.
Turmeric	Curcuma longa	20. Condiments and spices.
Turnip	Brassica Rapa	40. Fruits and Vegetables including root crops.
Uchhe	Momordica muricata	40. „ „ „
Udai	Acacia eburnea	42. Miscellaneous non-food crops.
Unda	Pongamia glabra	18. Oilseeds—others.
Urad (<i>see</i> Gram)		
Varagu (<i>see</i> Millet)		
Vagai (<i>see</i> Siris tree)		
Vempali (<i>see</i> Kolinji)		
Vetch, Field or gawar	Cyamopsis psoralioides	39. Fodder crops.
„ Chickling or khesari	Lathyrus sativus	10. Other food grains, etc.
Water caltrop (<i>see</i> Singhara)		
„ melon (<i>see</i> Melon)		
Wheat	Triticum sativum	3. Wheat.
„ Buck	Fagopyrum esculentum	10. Other food grains, etc.
„ Spelt	Triticum sativum var Spelta.	3. Wheat.
Wood apple (<i>see</i> Apple)		
Wudalu or barti	Panicum flavidum	10. Other food grains, etc.
Yams	Dioscorea sp.	40. Fruits and Vegetables including root crops.
Zaminkand (<i>see</i> Elephant foot)

Agricultural Statistics of India

1921-22

VOLUME II—INDIAN STATES

Introductory Note

This volume deals with statistics for Indian States as far as reported. General As in the previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, and the area under crops for each State or group of States, and the totals for all the reporting States. The total number of cattle as far as reported in each of the years 1906-07 to 1921-22 has also been included in the general summary table (No. 1). These statistics are defective for comparative purposes, as additions have been made in the number of reporting States from time to time. Certain changes have been introduced in the present issue with a view to economy and to make the volume more handy and useful. These are (1) the omission of district tables, (2) the exhibition of details for five instead of ten years for each State or group of States, and (3) the addition of a new appendix (Appendix B) containing explanatory notes which have hitherto appeared as footnotes to district tables and which are necessary for a correct understanding of the different tables. Two charts and an index for easy reference have, as usual, been added to the volume.

It should be noted that, for the reasons explained below, the agricultural statistics of Indian States are incomplete and are of far less accuracy than those of British Provinces published in Volume I. As these States comprise one-third of the total area of India, the importance of their statistics in the all-India returns can scarcely be over-estimated.

The total area of Indian States is approximately 459,000,000 acres (717,000 square miles), with a population of 72 millions according to the census of 1921. These States are divided, for purposes of agricultural statistics, into two main classes, namely, (1) States within the jurisdiction of Local Governments and Administrations, and (2) States having direct political relations with the Government of India.

(1) *States within the jurisdiction of Local Governments and Administrations.*—The total area of these States is 142,646,000 acres, with a population of 29 millions. They are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Bombay and Sind States	40,878	7,409
Madras States *	6,846	5,460
Punjab States †	24,511	4,416
Bihar and Orissa States	18,335	3,960
Central Provinces States	19,961	2,067
North-West Frontier Province States (including Tribal areas)	16,320	2,825
United Provinces States	4,348	1,135
Bengal States	3,477	897
Assam States	7,970	384
Total	142,646	28,553

The total area of all these States (with the exception of the Tribal areas in the North-West Frontier Province) is included in the areas of the respective British Provinces stated in column 2 of table I of Volume I (British India), but is shown separately in column 3 of that table in order to arrive at the net area of British territory (in column 5) dealt with in that volume. Of these States,

* These States have since come under direct political relationship with the Government of India

† Some of these States have since come under direct political relationship with the Government of India

agricultural statistics are at present available only for the following forty-two States in the Madras and the Bombay Presidencies, the Punjab, and the United Provinces, and are dealt with in this volume :—

	Area Thousand acres	Population Thousands
<i>Madras States—</i>		
Travancore	4,414	4,006
Cochin	947	979
Pudukkottai	754	437
Banganapalle	164	37
Sandur	101	11
<i>Bombay States—</i>		
Bhavnagar	1,808	426
Dharampur	450	95
Jath	571	83
Phaltan	254	43
Aundh	321	65
Sachin	29	20
<i>Punjab States—</i>		
Patiala	3,795	1,500
Jind	853	308
Nabha	620	263
Bahawalpur	12,700	781
Sirmur (Nahan)	632	140
Kalsia	123	57
Pataudi	34	18
Loharu	143	21
Dujana	57	26
Kapurthala	421	284
Malerkotla	107	80
Faridkot	412	151
Simla Hill States (comprising Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Baghal, Ghund, Mehlog, Baghat, Madhan, Koti, Keonthal, Bija Dhami, Darkoti and Kuthar)	3,513	307
<i>United Provinces States—</i>		
Benares	574	363
Rampur	571	454
Tehri-Garhwal	2,830	318
Total	37,248	11,263

(2) *States having direct political relations with the Government of India.*—
These are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Hyderabad	52,927	12,472
Mysore	18,862	5,979
Baroda	5,118	2,127
Gwalior	16,511	3,186
Kashmir	53,925	3,320
Rajputana States	82,454	9,844
Central India States	33,205	5,997
Baluchistan (States)	51,462	379
Sikkim	1,804	82
Total	316,268	43,386

No agricultural statistics are at present available for Baluchistan (States), and Sikkim. Of the remainder, returns are received from the following twenty-two States :—

	Area Thousand acres	Population Thousands
Hyderabad	52,927	12,472
Mysore	18,862	5,979
Baroda	5,118	2,127
Gwalior	16,511	3,186
Kashmir	53,925	3,320

	Area Thousand acres	Population Thousands
<i>Rajputana States—</i>		
Jaipur	10,676	2,339
Bikaner	14,922	660
Marwar	22,410	1,849
Tonk	1,634	288
Alwar	2,036	701
Kishangarh	549	78
Bharatpur	1,263	496
Jhalawar	527	96
Kotah	3,638	630
Bundi	1,421	187
Dholpur	740	230
<i>Central India States—</i>		
Indore	6,080	1,152
Bhopal	4,657	692
Rajgarh	613	115
Narsingarh	469	101
Barwani	754	120
Nagod	321	68
Total	220,053	36,886

The total area of all the sixty-four reporting States named above amounts to 257,301,000* acres with a population of 48 millions. These States, therefore, represent 57 per cent of the total area, and 67 per cent of the total population, of the Indian States.

The earliest years from which the statements of agricultural statistics have been received from these sixty-four reporting States are noted below :

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, Bahawalpur	1907-08
Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, Simla Hill States	1908-09
Kashmir	1910-11
Baroda, Bundi, Phaltan, Aundh, Sachin, Jath	1918-19
Hyderabad, Benares, Bhavnagar, Dharampur	1919-20
Dholpur, Rampur and Tehri-Garhwal	1920-21

The returns for the different States relate to the years ending on the dates stated below, so far as information is now available :—

Bikaner, Sandur, and Banganapalle	year ended 31st March
Jath, Phaltan and Aundh	„ June
Mysore, Baroda, Pudukkottai, Cochin, Travancore, Gwalior, Indore, Narsingarh, Nagod, Kishangarh, Bharatpur, Kotah, Patiala, Dharampur, Benares, and Tehri-Garhwal	„ 30th June
Bundi	„ 19th July
Sachin	„ 31st July
Jaipur	„ 31st August
Marwar, Jhalawar, Bhopal, Barwani, Rampur and Dholpur	„ 30th September
Hyderabad	„ 5th October
Tonk, Rajgarh, Alwar	„ 31st October

From the total area of all the sixty-four reporting States (257,301,000 Table I, acres*), deduction must be made of 123,103,000 acres for which statistics are ^{total area}

* The differences between this figure and the total area as shown in column 2, Table I on page 12 is due to the inclusion here of complete area figures for Barwani and Simla Hill States from the Census of 1921.

not available. These comprise chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures. The net area actually covered by these statistics is, therefore, only 134,198,000 acres by professional survey,* or 134,496,000 acres according to village papers.*

Table II,
Classification of area

	Thousand acres	per cent	
Forests	17,603	13.2	the margin. About 17,603,000
Not available for cultivation	23,157	17.3	acres, or 13.2 per cent of the
Culturable waste other than fallow	17,800	13.3	total, are occupied by forests ;
Current fallows	12,525	9.4	and the area not available for
Net area sown	62,611	46.8	cultivation, that is, land ab-
Total	133,096†	100	solutely barren, or uncultur-
			able, or covered by buildings,
			water, and roads, or other-
			wise appropriated to uses

other than agriculture, amounts to 23,157,000 acres or 17.3 per cent. The balance, 92,936,000 acres or 69.5 per cent, represents the area available for cultivation. Of this 17,800,000 acres, or 13.3 per cent of the total area, represent culturable waste, i.e., land available for cultivation but not taken up, and 12,525,000 acres, or 9.4 per cent, were kept fallow in the year under report. The net area actually sown in the year was thus 62,611,000 acres (46.8 per cent of the total area). This net area sown, however, excludes areas sown more than once in the year. If areas sown more than once (as noted below) are taken as separate area for each crop, the gross area sown in the year of report amounts to 66,533,000 acres.

Table III,
Area under irrigation

The total area irrigated in the reporting States during 1921-22 was 8,286,000 acres, as against 8,145,000 acres in the preceding year. Of this, 2,687,000 acres were irrigated from Government canals, 820,000 acres from private canals, 1,208,000 acres from tanks, 1,957,000 acres from wells, and the remaining 1,614,000 acres from other sources of irrigation. These figures, however, do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas sown more than once, are counted as separate area for each crop, the gross area of irrigated crops amounts to 9,365,000 acres. Of this area, 8,179,000 acres were under food crops.

Table IV,
Area under crops

	Thousand acres	Per cent of total	
Food-grains	47,909	72.7	above, nearly 67 million acres in 1921-22.
Condiments and spices	537	.8	The different classes of crops and the area
Sugar	177	.3	occupied by each, so far as details are avail-
Fruits and vegetables	427	.6	able,‡ are stated in the margin. Of the
Miscellaneous food crops	1,780	2.7	total area sown, food crops occupied about
Total food crops	50,830	77.1	50,830,000 acres or 77.1 per cent and non-
Oilseeds	4,998	7.6	food crops about 15,071,000 acres or 22.9
Fibres	5,140	7.8	per cent. Of the food-crops, food grains
Dyes and tanning materials	155	.2	(cereals and pulses) occupied as much as
Drugs and narcotics	528	.8	47,909,000 acres, or 72.7 per cent of the
Fodder crops	3,158	4.8	total area sown, and other food crops (con-
Miscellaneous non-food crops	1,092	1.7	ditions and spices, sugar, fruits and
Total non-food crops	15,071	22.9	vegetables, and miscellaneous food-crops
			together) covered some 2,921,000, acres or
			only 4.4 per cent of the total. Of the non-

food crops, oilseeds occupied 4,998,000 acres or 7.6 per cent of the total area sown, fibres such as cotton, hemp, etc., 5,140,000 acres or 7.8 per cent, and fodder crops 3,158,000 acres or 4.8 per cent. The other non-food crops, namely, dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.) and miscellaneous non-food crops together, covered some 1,775,000 acres or 2.7 per cent of the total.

The total extent of land on which more than one crop was raised during the year was 3,922,000 acres.

* For explanation of the terms " professional survey " and " village papers," see footnotes to Table I (page 6) of this Volume and the Note prefixed to Volume I.
† See footnote (d) on page 19 of the Tables.
‡ Vide footnote (d) on page 2.

Table V is returned by forty-eight States, namely, Hyderabad, Mysore, Baroda, Gwalior, Kashmir, Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Indore, Bhopal, Rajgarh, Narsingarah, Barwani, Nagod, Bikaner, Marwar, Jaipur, Kishangarh, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Dholpur, Jath, Phaltan, Aundh, Sachin, Bhavnagar, Dharampur, Benares, Rampur, Tehri-Garhwal, Jhabua, Jobat, Sailana, Ali-Rajpur, Piploda, Dewas (Junior), Maihar, Chhatarpur, Dhar, Rutlam, Panna, and Kapurthala. According to the latest statistics, the total number of live-stock of the bovine class (bulls, bullocks, cows, buffaloes, and young stock, *i.e.*, calves and buffalo calves) is 34,248,000, that of the ovine class (sheep and goats) 19,189,000, and that of horses and ponies, mules, donkeys, and camels 973,000. The numbers of ploughs and carts are 4,409,000 and 1,196,000 respectively.

Table VI (Land Revenue) is prepared by thirty-two States, namely, Hyderabad, Mysore, Gwalior, Kashmir, Pudukkottai, Banganapalle, Sandur, Cochin, Indore, Bhopal, Rajgarh, Narsingarah, Barwani, Nagod, Bikaner, Marwar, Jaipur, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Dholpur, Jath, Phaltan, Aundh, Sachin, Dharampur, Benares, Rampur, and Tehri-Garhwal.

Appendix A explains the vernacular terms used in this volume. Appendix B, as stated above, contains explanatory notes which are essential for the correct understanding of the different tables. The charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area sown in 1921-22 with shares of food and non-food crops.

Note.—The entries in this table regarding the classification of area and areas under food and non-food crops comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07, to which were added those for Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, and Bahawalpur from 1907-08; for Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Patandi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, and the Simla Hill States from 1908-09; for Kashmir from 1910-11; for Baroda, Phaltan, Aundh, Sachin, Jath, and Bundi from 1918-19; for Hyderabad, Benares, Bhavnagar and Dharampur from 1919-20; and for Dholpur, Rampur, and Tehri-Garhwal from 1920-21.

*The entries regarding cattle comprise Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07, to which were added those for Indore, Rajgarh, and Narsingarh from 1907-08; for Bhopal, Barwani, and Nagod from 1908-09; for Banganapalle and Cochin from 1910-11; for Pudukkottai from 1916-17; for Sandur, Baroda, Aundh, Phaltan, Sachin, Jath, and Bundi from 1918-19; for Hyderabad, Benares, Bhavnagar, Dharampur, Jhabua, Jobat, Sailana, Ali-Rajpur, Piploda, Dewas (Junior), Maihar, Chhatarpur, Dhar, Rutlam, Panna, Travancore, and Kapurthala from 1919-20; and for Kashmir, Dholpur, Rampur, and Tehri-Garhwal from 1920-21. Detailed figures for the States for five years are given in Table V (pages 56-65).

(a) Excluding areas for which no returns are available.

(b) Condiments and spices, fruits and vegetables, and miscellaneous food crops.

(c) Cinchona, Indian hemp, other dyes and tanning materials, other drugs and narcotics, and miscellaneous non-food crops.

(d) The total of food crops and non-food crops shown here does not agree with the total sown area shown in Summary Table No. 4 for the reasons stated in the footnotes to that table (page 5).

(e) Included in "Young stock (calves)."

(f) Figures for previous years are included in "Other oilseeds."

(g) Figures for previous years are included in "Fruits and vegetables."

(h) See footnote (a) on page 13.

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best available information.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and IV are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures, which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and IV is correspondingly increased.

Columns 4 and 5.—Column 4 is a check on the accuracy of column 5. In the latter, "village papers" mean "the papers prepared by the village accountants." In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (a) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (b) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(a) See notes in Appendix B (Table I).

See explanations given in the footnotes (page 6).

(a) *Column 2.*—As there has been no revenue survey so far, this column states the area of the State according to the best available information. *Column 3* states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. *Columns 4 and 5.*—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4.

(b) *Column 3* states the area held by jagirdars and udakdars, as well as the muafi plots in khalsa villages for which no separate record is maintained.

See explanations given in the footnotes (page 6). (a) Column 2 states the area of the State according to Settlement records.

(b) Statistics are furnished by certain States of this group, namely, Bashahr, Jubbah, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan Koti, Keonthal, Bija, Dhami, Darkoti and Kuthar. These represent about 86 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate generally to the settled portions of the reporting States.

(c) Difference due chiefly to the exclusion of Bilaspur from these states owing to administrative changes.

Column 2.—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown), an explanation being given in a note.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the area sown. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

(a) The difference of 445,453 acres between this figure and the sum of those in the preceding columns is due to the overlapping of areas in columns 3, 4, 5 and 6 with column 2 in Mahbubnagar and Warangal districts.

(b) The difference of 229,626 acres between this figure and the sum of those in the preceding columns is due to the overlapping of areas in columns 3, 4, 5 and 6 with column 2 in Mahbubnagar and Warangal districts.

(c) The difference of 929,842 acres between this figure and the sum of those in the preceding columns is due to the overlapping of areas in columns 3, 4, 5 and 6 with column 2 in Mahbubnagar and Warangal districts and includes 1,729,920 acres in Atrani Balda districts for which details are not available.

See explanations given in the footnotes (page 13).

(a) Column 2 states the area of reserved forests within surveyed villages.
(b) Column 2 states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns 3 and 4 also include some forest areas. Column 4 states areas of land left uncultivated for over three years of bar (grass lands) and of pasture lands. Column 5.—The maximum period for which land, thrown out of cultivation is reckoned as fallow is three years.

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7).

(a) Included in column 16.

(b) Incomplete.

(c) Includes 120,384 acres for which details are not available.

(d) Included in column 14.

(e) Included in column 18.

Note—In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops : in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by higher authorities.

(a) See footnote (a) on page 45.

See explanations given in the footnote (page 34).

(a) In Travancore, no accounts are kept regarding the area under each crop, and the figures shown in this table, against 1917-18 are based on very rough estimates. An improved system has been introduced by the Darbar according to which accurate figures are available in some cases from 1918-19.

(b) The areas under mixed crops are shown under the principal crop, as it is not possible to differentiate the areas of the respective crops.

Note.—Animals in towns, cities, and cantonments are included where it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young ones are classed as "young stock."

(a) Included in "Young stock (calves)".

(b) Includes figures for the Civil and Military Station, Bangalore.

(c) Not separately returned.

(d) Included in "Sheep".

(e) " in "Bullocks".

(f) Includes "Bulls" in Pudukkottai and Banganapalle States.

(g) Includes "Bulls" in Pudukkottai and Travancore States.

(h) Includes "Goats" in Banganapalle State.

(i) Incomplete as figures for certain districts are included under "Sheep."

(j) Includes "Goats" in Travancore State.

5. Population of area in head 1								
1917-18	...	5,705,359	2,672,496	...	411,886	39,344	...	918,110
1918-19	...	5,519,567	2,672,426	...	411,886	39,344	13,526	919,119
1919-20	11,536,017	5,586,875	2,672,426	...	411,886	39,344	13,526	918,300
1920-21	11,570,085	5,857,976	2,672,426	2,795,996	426,813	36,646	11,686	979,077
1921-22	11,570,085	5,869,952	2,672,426	2,781,301	426,813	36,646	11,686	979,080

Entry 2 (a)—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3—This column should be sub-divided into (a) total fully assessed area for which returns are available, and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

Entry 4—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 5—The population in entry 5 is that of the last general census.

* Excludes non-government area of the State generally.

† Represents net area by survey (column 4 of Table I).

See explanations given in the footnotes (page 66).

* No information.

† Narsingarh—Item 1 states the net area by revenue survey as shown in column 4 of Table 1. Item 2 (a) includes forest areas (column 2 of Table II) and unculturable (column, 3 of Table II) and culturable land not possessed by any cultivator. Item 2 (b) states the area of minor muafis. Item 3 (b) includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them.

‡ Relate only to Khalsa area, as statistics for these are not available for the whole area of the State.

(a) States the area according to village papers (column 5 of Table I).

See explanations given in the footnotes (page 66).

* These are *khalsa* or State lands only. The whole area of the State is stated in Table I—No. 5.

** *Alwar*.—The classes of tenure are zamindari and village communities, the former comprising *zamindari-bil-ijmal* and the latter *pattidar*; and *bhaiyachara*. Item 1 states the area by village papers (column 5 of Table I). Item 2 (a) shows areas covered with forests (column 2 of Table II) which are wholly revenue-free.

† *Jhalawar*.—The whole area stated in this table is classed as “*Khatedari*” and “*Watendari*” equivalent to “*raiyyatwari*” and “*zamindari*” respectively. Item 1 excludes entire villages held by jagirdars and udakdars.

‡ States the net area by professional survey (column 4 of Table I).

APPENDIX A.

Vernacular terms used in the Explanatory Notes.

- Bhaiyachara* (Alwar).—Villages held by a number of families, by possession without reference to shares.
- Bir* (Narsingarh).—Grass lands.
- Bunds* (Alwar).—Embankments.
- Chauth* (Bharatpur).—Land paying one-fourth of the rental.
- Ilaka* (*Ilaqa*).—An estate or dependency, a property.
- Inám* (Mysore).—Wholly or partially revenue-free tenure; *minor ináms* are plots of inám lands situated in a village, whether Government or inám.
- Istamdr* (Gwalior, Indore, Bharatpur).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
- (Alwar).—A tenure which, though favourably assessed, is charged with a permanently fixed quit-rent.
- (Bharatpur).—Land paying a reduced permanently fixed *jama* (assessment).
- Jagir* (Mysore, Gwalior, Kishangarh, Kotah, Narsingarh).—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Indore, Barwani).—Land granted revenue-free on condition of military service or as a charitable endowment or in recognition of good services rendered to the State.
- (Bikaner).—Land granted revenue-free on condition of military service or as a charitable endowment.
- (Alwar).—Assignment of land revenue, with or without condition of military service and payment of commutation dues, granted in recognition of meritorious services to relations of the ruling chief or other high officials of the State.
- (Kishangarh).—Land granted revenue-free on condition of military service either actually rendered or fulfilled by a rateable money contribution.
- Jagirdar* (Jhalawar).—Holder of jagir land.
- Jodi* (Mysore).—A whole inám village paying quit-rent to Government.
- Kayamgutta* (Mysore).—A whole village granted by the State on fixed money-rent.
- Khalsa* (Gwalior, Jaipur, Bikaner, Marwar, Bharatpur).—Land paying full revenue to the State.
- Khatedari* (Jhalawar).—Same as *raiyatwari*.
- Muafi* (Gwalior, Alwar, Kotah, Bharatpur, Kishangarh).—Land granted free of revenue.
- Out-bandi* (Indore).—Assessment of revenue calculated at a fixed rate per plough.
- Patel* (Mysore).—Village headman appointed by Government.
- Pattidari* (Alwar).—Villages held by a number of families, by shares, ancestral or customary.
- Patwari* (Narsingarh).—Village revenue officer or accountant.
- Raiyatwari* (Bharatpur).—State area leased to cultivators for a fixed term.
- Rundhs* (Bharatpur).—State grass preserves.
- Sarvamanayam* (Mysore).—An inám village, wholly revenue-free.
- Shanbóg* (Mysore).—A village accountant appointed by Government.
- Tanka* (Gwalior).—Estate held by certain families who were in power when the country was annexed and who were left in possession of their estates on payment of a fixed annual tribute, or *tanka*, bearing but a small proportion to the annual assets.
- Ubari* (Gwalior).—Land held at an abatement of the full land revenue.
- Udakdar* (Jhalawar).—Holder of a Ubári estate.
- Watendari* (Jhalawar).—Same as *Zamindari*.
- Zamindari* (Bharatpur).—Estate on a fixed assessment under a deed of permanent ownership granted by the State.
- Zamindari-bil-ijmal* (Alwar).—Villages held jointly by a body of owners.

APPENDIX B.

Table I.

Mysore
(Page 6).

Column 2 states the area of the State as ascertained by revenue survey. *Column 3* exhibits the area of jodi, kayamgutta, and sarvamanayam villages, and jagirs for which the statistics required for the other tables are not available at present.

Gwalior
(Page 6).

Column 3 states the estimated areas of jagir, muafi, ubari, tanka, istamrar and such other villages as are still unsurveyed.

Column 5.—The figures in column 4 are repeated.

Kashmir
(Page 6).

Column 2 states the whole area of the State according to the Census of 1921. *Column 3* states the areas of Bhadarwa and Punch, certain unsettled areas and frontier tracts which are not directly looked after by the Revenue Department of the State, and also certain other areas for which returns are not available.

Columns 4 and 5 entirely exclude the area of Bhadarwa (*Jagir*) and Punch and Frontier *Ilagas*.

Indore
(Page 7).

Column 2 states the whole area of the State, excluding the areas covered by the Indore Residency, the Mhow Cantonment, and the Hirapur Thakurate.

Column 3 states the areas of jagir, istamrar, and forest villages, and also of some of the outbandi villages.

Bikaner
(Page 8).

Column 3 states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State.

Marwar
(Page 8).

Column 3 states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.

Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases.

Jaipur
(Page 8).

Column 2 states the whole area of the State according to the Census of 1921.

Column 3 includes 1,034,280 acres, being the area of detached revenue free plots situated in khalsa villages.

Columns 4 and 5 represent statistics for khalsa area only (forming about one-third of the whole area of the State).

Bharatpur
(Page 9).

Columns 2 and 4 state the area of the State according to the professional survey of 1855.

Tonk
(Page 9).

Column 5 states the area of the State according to the settlement records.

Column 3 states the area of jagir villages.

Kotah
(Page 9).

Column 3 states the area of entire jagir and muafi villages, which have not yet been surveyed, and the detached revenue-free plots situated in khalsa villages.

APPENDIX B—continued

Table II

Column 2 states the areas of State and district forests and of plantations.

Mysore
(Page 18)

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.

Statistics of *Jagir* and unsurveyed villages are not included, *vide* notes on page 75.

Bikaner
(Page 15)

Column 2 includes grass preserves (locally called the State *Rundhs*) and hills.

Bharatpur
(Page 15)

Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*).

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

Table III.

Statistics of *Jagir* and unsurveyed villages are not included, *vide* notes on page 75.

Bikaner
(Pages 24—25)

Column 2 includes area irrigated from the Bareta Bund constructed by the State, Public Works Department.

Bharatpur
(Page 24)

Table IV.

The areas under mixed crops are distinguished and entered under the respective crops of which they are composed.

Gwalior
(Pages 34—35)

Statistics of *Jagir* villages are not included, *vide* notes on page 75.

Bikaner
(Pages 36—37)

Table V.

Until 1898-99 statistics were collected every year by the *shanbog* and *patel* of each village by enquiry or inspection. Since that year a census has been taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in January 1921. Live-stock in municipalities are included.

Mysore
(Pages 56—57)

Table VI.

Column 2 (a) states the area entered in column 3 of Table I *plus* that in column 4, Table II.

Mysore
(Page 66)

APPENDIX B—continued

Table VI—continued

Mysore
(Pages 66, 70).

Column 2 (b) states the area entered in columns 2 and 3 of Table II.

Column 3 (a) states Government occupied lands, including minor inams in Government villages (columns 5 and 6 of Table II).

Column 3 (b) states the area actually sown (column 6 of Table II).

Column 4 states the total realisable land revenue, including miscellaneous land revenue.

Column 7 states the total raiyatwari demand, *plus* the quit-rent due on minor inams in Government villages.

Gwalior
(Pages 66, 70).

Column 1 states the net area by survey (column 4 of Table I).

Column 2 (a).—No information.

Column 3 (a) includes area not fully assessed which cannot be separated from area fully assessed.

Column 4 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue.

Column 7 states only ordinary land revenue with cesses.

Columns 8 and 9 represent the incidence of land revenue on areas both fully and partially assessed.

Column 10 includes population of area not fully assessed which cannot be separated from that of fully assessed area.

Marwar
(Page 67)

Column 3 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table IV.

Columns 4 and 5 relate only to khalsa area, as statistics for these columns are not available for the whole area of the State.

Bharatpur
(Pages 68, 72).

The State area leased to cultivators for a fixed term is returned as *raiayatwari*. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as *zamindari-temporarily settled*; and the rest of the area (*i.e.*, the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area) is entered as *zamindari—permanently settled*.

Column 2 includes muafi, chaauth, and istamrar areas.

Column 5.—The population stated is that of the last census.

Column 10 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

Tonk
(Page 68)

Column 1 states the net area by survey (column 4 of Table I).

Kotah
(Page 68)

Column 1 states the area by village papers (column 5 of Table I).

Column 5 includes population of the muafi and jagir villages excluded from column 2.
